Study & Master Physical Sciences Grade 11 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Physical Sciences. The comprehensive Learner's Book:

- explains key concepts and scientific terms in accessible language and provides learners with a glossary of scientific terminology to aid understanding.
- provides for frequent consolidation in the Summative assessments at the end of each module
- includes case studies that link science to real-life situations and present balanced views on sensitive issues
- includes 'Did you know?' features providing interesting additional information
- highlights examples, laws and formulae in boxes for easy reference.

Ensure your students get to grips with the core practicals and develop the skills needed to succeed with an in-depth assessment-driven approach that builds and reinforces understanding; clear summaries of practical work with sample questions and answers help to improve exam technique in order to achieve higher grades. Written by experienced teachers Carol Davenport, Graham George and Kevin Lawrence, this Student Guide for practical Physics:

- Help students easily identify what they need to know with a concise summary of required practical work examined in the A-level specifications.
- Consolidate understanding of practical work, methodology, mathematical and other skills
