Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

The chaise-longue by Le Corbusier, the radio by Rams, the chair by Eames – designers make things into cult objects and become icons themselves. But who knows which coupé was designed by Frua, which limousine by Engel, which station wagon by Opron? For a long time, car design was considered to be anonymous, the designers stood in the shadow of the perception of the design, even though their designs can be found on the roads in millions. This richly illustrated book captures the origin of a profession and maps the development of car design based on a comprehensive introduction and the career biographies of over 200 selected designers who contributed to the design of cars and many different associated products in the USA, Europe, and Japan between 1900 and 2000.

Once this country's largest and most successful corporation, General Motors has now fallen into bankruptcy. Back in the 1950s, during its heyday, Richard Underwood and his family knew and worked with some of General Motors' top executives. Underwood worked at GM Central Office and at Chevrolet Central Office in Detroit, Michigan. The author combines his inside observer's view of its rise and historic fall with a brief memoir of his life both before and after working at the corporation.

LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century. It now lives on at LIFE.com, the largest, most amazing collection of professional photography on the internet. Users can browse, search and view photos of today's people and events. They have free access to share, print and post images for personal use.

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

While researching his previous study, Arsenal of Democracy: The American Automobile Industry in World War II (Wayne State University Press, 2013), award-winning automotive historian Charles K. Hyde discovered the many remarkable photos that were part of the era's historical documentation. In Images from the Arsenal of Democracy, Hyde presents a selection of nearly three hundred of these documentary photos in striking black and white, with brief captions. Taken together, the images create a captivating portrait of this crucial moment in American business, military, and cultural history. Images from the Arsenal of Democracy spans from 1940 until the end of the war, presenting up-close, rarely seen views of newly built plants and repurposed production lines, a staggering variety of war products and components, and the many workers behind Detroit's wartime production miracles. The human faces that Hyde presents are especially compelling, as photos show the critical role played by previously underused workers—namely women and African Americans. Images from the Arsenal is divided into chapters by theme, including "Preparing for War before Pearl Harbor"; "Planning Defense Production after Pearl Harbor"; "Aircraft Engines and Propellers"; "Aircraft Components and Complete Aircraft"; "Tanks and Other Armored Vehicles"; "Jeeps, Trucks, and Amphibious Vehicles"; "Guns, Shells, Bullets, and Other War Goods"; "The New Workers"; and "Celebrating the Production Achievements." The first comprehensive and detailed history drawn solely from the surviving photographic record of wartime Detroit, Images from the Arsenal will be appreciated by automotive historians, World War II scholars, and American history buffs.

Includes advertising matter.

Boys' Life is the official youth magazine for the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics, and Scouting.

In this classic study, Sidney Fine portrays the dramatic events of the 1936–37 Flint Sit-down Strike against General Motors, which catapulted the UAW into prominence and touched off a wave of sit-down strikes across the United States. Basing his account on an impressive variety of manuscript sources, Fine analyzes the strategy and tactics of GM
