* The only biography of this Northwest's climbing hero * Features 15 color photos * Remarkable stories of climbs on K2, Kangchenjunga, and Denali * Features stories about Jim Wickwire, Pete Schoening, John Roskelley, Joe Kennedy, Jr., Peter Whittaker, and Willi Unsoeld Lou Whittaker has been one of America's most respected climbers for more than four decades. He began his illustrious mountaineering career as a teenager in the Pacific Northwest, climbing insatiably with his twin brother, Jim. He earned coveted spots on expeditions to formidable peaks in Alaska, the Himalaya, and the Karakoram, and went on to lead the expedition that made the first American ascent of the North Col on Everest in 1984. To Northwesterners, Lou's name is synonymous with Mount Rainier, where he has guided thousands to its summit since his own first ascent of the mountain at age 19. In Lou Whittaker: Memoirs of a Mountain Guide, Lou is at his storytelling best as he shares adventures and wisdom honed from the wild times of his youth to his more recent climbs with some of the country's best mountaineers. Tales of life as a young mountain rescuer, and later as mentor to

others, are filled with his trademark humor, boundless energy, and compassion. He weaves his simple and practical philosophy through memories of climbing with Jim Wickwire, Pete Schoening, John Roskelley, Joe Kennedy, Jr., and a host of other celebrities and VIPs. He recounts amazing episodes on Mount McKinley, K2, Everest, Kangchenjunga, and his beloved Mount Rainier. Evident and inspiring throughout are his love for climbing and for life -- even amidst the loss of friends and promising young proteges. When it comes down to dying, Lou says, "I want to know what it is like to have really lived."

SUVs have taken over America's roads. Ad campaigns promote them as safer and "greener"

than ordinary cars and easy to handle in bad weather. But very little about the SUV's image is accurate. They poorly protect occupants and inflict horrific damage in crashes, they guzzle gasoline, and they are hard to control. Keith Bradsher has been at the forefront in reporting the calamitous safety and environmental record of SUVs, including the notorious Ford-Firestone rollover controversy. In *High and Mighty*, he traces the checkered history of SUVs, showing how they came to be classified not as passenger cars but as light trucks, which are subject to less strict regulations on safety, gas mileage, and air pollution. He makes a powerful case that these vehicles are even worse than we suspect--for their occupants, for other motorists, for pedestrians and for the planet itself. In the tradition of *Unsafe at Any Speed* and *Fast Food Nation*, Bradsher's book is a damning exposé of an industry that puts us all at risk, whether we recognize it or not.

Let me tell you a story about a girl on Long Island, who always tried to play life by "the rules" — as outlined in the Secret Handbook of Long Island Rules... That girl, uh, woman, is me, Teddi Gallo. I'm the mother of three kids under the age of eleven, best friend to Bobbie (who denies there's any such thing as a secret handbook, but who knows all the moves by heart) and the daughter of June (who has inside info on the rules, but has a reserved room at South Winds Psychiatric Hospital, as well). And if I don't have enough to send me over the edge, my too-handsome-for-his-own-good husband seems determined to drive me crazy. But why? This is the tale of how I had to rewrite that old, dusty handbook — and while doing so, I suddenly discovered the secret to happiness was living by your own rules. And that has made everything different.
