'Your courage and determination are an inspirational example for all young people to follow.' Bill Clinton, former president of the United States 'What you have done makes me proud to be a human being.' Ben Harper, musician 'I was a member of a large community at the start who thought he was mad. I take my hat off to him.' David Adam, international yachtsman On 31 October 1999, at the age of just eighteen, Jesse Martin sailed into the record books in his yacht Lionheart, by becoming the youngest person ever to sail solo, non-stop and unassisted around the world. Jesse Martin was born for adventure. After learning to sail at fourteen, he travelled along Australia's tropical coast on a flimsy catamaran, and by sixteen he had kayaked through the remote islands of Papua New Guinea and crewed on a yacht sailing from Belize to Tahiti. But the biggest adventure of them all was yet to come. Lionheart is Jesse's story. A story of courage, loneliness and danger, it is also an incredible, gripping, true-life adventure. A compulsively readable history of the stock market crash of 1929 is written by one of America's foremost business historians.

The bestselling autobiography of the legendary Louis Zamperini, hero of the blockbuster *Unbroken*. A modern classic by an American legend, *Devil at My Heels* is the riveting and deeply personal memoir by U.S. Olympian, World War II bombardier, and POW survivor Louis Zamperini. His inspiring story of courage, resilience, and faith has captivated readers and audiences of *Unbroken*, now a major motion picture directed by Angelina Jolie. In *Devil at My Heels*, his official autobiography (co-written with longtime collaborator David Rensin), Zamperini shares his own first-hand account of extraordinary journey—hailed as “one of the most incredible American lives of the past century” (People). A youthful troublemaker, a world-class NCAA miler, a 1936 Olympian, a WWII bombardier: Louis Zamperini had a fuller life than most. But on May 27, 1943, it all changed in an instant when his B-24 crashed into the Pacific Ocean, leaving Louis and two other survivors drifting on a raft for forty-seven days and two thousand miles, waiting in vain to be rescued. And the worst was yet to come when they finally reached land, only to be captured by the Japanese. Louis spent the next two years as a prisoner of war—tortured and humiliated, routinely beaten, starved and forced into slave labor—while the Army Air Corps declared him dead and sent official condolences to his family. On his return home, memories of the war haunted him nearly destroyed his marriage until a spiritual rebirth transformed him and led him to dedicate the rest of his long and happy life to helping at-risk youth. Told in Zamperini's own voice, *Devil at My Heels* is an unforgettable memoir from one of the greatest of the “Greatest Generation,” a living document about the brutality of war, the tenacity of the human spirit, and the power of faith.

Beneath dense gray clouds through which no sun shone lay a forgotten planet. It was a nightmare world of grotesque and terrifying animal-plant life. Gigantic beetles, spiders, bugs and ants filled the putrid, musty earth - ready to kill and devour anything in sight. There were men amidst this horror - men who cringed and ran from the ravaging monsters and huddled in the mushroom forests at night. Burl was one of these creatures. But one day inspiration hit Burl. He would find a weapon - he would fight back. And with this idea the first step was taken in man's most desperate flight for freedom in this most horrible of all worlds. But it was only a first step.

In February 1974, Jan and Ian Mitchell, cruising novices, set off to circumnavigate the world in their Top Hat 25 foot yacht, *Caprice*. Many adventures later, they returned to Sydney in November 1977, with two-year-old Jamie (born in Durban, South Africa) and Jan pregnant with their second son. Four and a half months later, David was born. Ian looked after the children while Jan wrote articles for yachting magazines. She also wrote the cover story for an August edition of *Women's Day*. This book contains a compilation of those fourteen articles plus one from Ian about their shakedown voyage, published in *Australian Sailing*. Jan has added many more photographs of their trip and a history of the Top Hats. The Mitchells write about seasickness, gales, learning to navigate, coping with strong currents, repairing a rigging failure at sea, friendships with others in the cruising community, the joys of tropical islands and more. These articles were widely read in 1978 and inspired many would-be sailors to buy a boat. Some set out to sail the world. We hope their story will inspire you too.

On July 16, 1994 a world-shattering event occurred that would rivet our attention for six explosive days and go on to make history as the single most important celestial event of the century. Comet Shoemaker-Levy 9 crashed into Jupiter, changing forever our understanding of comets and cosmic cataclysms. Our own sense of security would never be the same as the world witnessed fragment after fragment of the comet bash into Jupiter with the collective equivalent force of a 50-million-megaton bomb. David Levy, co-discoverer of periodic Comet Shoemaker-Levy 9, shares his once-in-several-lifetimes' story from the time of the discovery, with Eugene and Carolyn Shoemaker, of this unusual "squashed" comet to the later shocking revelation of hearing that "their" comet was destined to collide with Jupiter. Never in recorded history has a comet created such a catastrophic event as smashing into a planet. Impact Jupiter takes off where David Levy's earlier acclaimed book, *The Quest for Comets*, left us. Magnificent photos of the impacts, including superb color pictures, accompany David's poetic words, vividly bringing to life his thrilling story. Savor the words of one of the world's most celebrated amateur astronomers as he humbly and eloquently opens the beauty of the heavens to all who are curious.

"Utterly absorbing" (*Newsweek*), *Adrift* is a must-have for any adventure library.

In boyhood, Louis Zamperini was an incorrigible delinquent. As a teenager, he channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics. But when World War II began, the athlete became an airman, embarking on a journey that led to a doomed flight on a May afternoon in 1943. When his Army Air Forces bomber crashed into the Pacific Ocean, against all odds, Zamperini survived, adrift on a foundering life raft. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with rebellion. His fate, whether triumph or tragedy, would be suspended on the fraying wire of his will. The definitive cult, post-modern novel – a shocking blend of violence, transgression and eroticism.

In *Sailing the Wine-Dark Sea*, his fourth volume to explore "the hinges of history," Thomas Cahill escorts the reader on another entertaining—and historically unassailable—journey through the landmarks of art and bloodshed that defined Greek culture nearly three millennia ago. In the city-states of Athens and Sparta and throughout the Greek islands, honors could be won in making love and war, and lives were rife with contradictions. By developing the alphabet, the Greeks empowered the reader, demystified experience, and opened the way for civil discussion and experimentation—yet they kept slaves. The glorious verses of the *Iliad* recount a conflict in which rage and outrage spur men to action and suggest that their "bellicose society of gleaming metals and rattling weapons" is not so very distant from more recent campaigns of "shock and awe." And, centuries before Zorba, Greece was a land where music, dance, and freely flowing wine were essential to the high life. Granting equal time to the sacred and the profane, Cahill rivets our attention to the legacies of an ancient and enduring worldview. **BONUS MATERIAL:** This ebook edition includes an excerpt from Thomas Cahill's *Heretics and Heroes*.

What you are about to read is a history of the Sarasota Sailing Squadron (a.k.a the Squadron, the SSS or the club) from its humble beginnings in the late 1930s, when a group of teenagers got together to form a "down to earth" sailing club on the City Pier, which was the center of Sarasota. After its first Commodore, Walter Fox was elected in 1942, the club was disbanded as members were either called up or volunteered to fight in the Second World War. They returned in 1946/47 as seasoned veterans to raise families. It was these folks and their families that restarted the club and laid the foundation for the wonderful club that we know today. I will take you through the vibrant life that members of the Squadron enjoyed in those days, as they partied at the Lido Beach Casino, dancing, drinking and selecting the Labor Day Regatta Queen, or celebrating the change of watch at the annual Commodore's Ball, held at the Tropicana Night Club, a location which exists today as the Three Senorita's restaurant at 1355 Main Street. We will see how members in the "old days" made their own fund in the small dinghies that they owned as they enjoyed overnight cruising and camping on the mosquito infested spoil banks at the north end of Sarasota Bay near Jewfish Key and the Mar Vista Pub, catching fish for the evening meal and combining their catch into a cast iron pot with potatoes, onions and spices to create a fish stew for all to enjoy. In June 1958, as the city of Sarasota expanded and developed, with plans to demolish the old City Pier, the club was moved to the desolate lands of City Island near the New Pass bridge. The Squadron's only neighbor at the time was WSPB radio station which had begun transmitting from City Island at 7 am on December 7, 1939.

Why has Warby Parker been able to make such dramatic inroads against the behemoths in the long established eyeglass market? How has Method revolutionized the soap aisle? Amid the cacophony of online retailers, why has Etsy seen such explosive growth, with 2013 annual sales north of \$1 billion? These companies all have been disruptive because they are operating from a strong social/environmental purpose. They are proving a counterintuitive truth – purpose can drive profits. But it's not just innovative startups that are getting in on the action. Blue chip companies such as Nike, Coca-Cola and IBM are innovating within their organization to create a positive social and environmental impact globally. This is not a trend. It's the future of business. Based on in-depth interviews with founders, Profit & Purpose profiles a number of the most successful pioneers of this new way forward, telling the stories of thirteen social enterprises ranging from non-profits like Charity:Water and DonorsChoose.org, to for-profits, like Method and Burts Bees; from startups like Etsy and Warby Parker, to multinational corporations with market capitalizations in the hundreds of billions, like Coca-Cola, IBM and Nike. Kyle Westaway digs beneath the public stories of these organizations' success to reveal how they have harness the power of purpose. Taking readers behind the scenes, he shows how these leading social enterprises progressed from concept to scale, how they overcame common pitfalls, and how they managed to find an optimal balance between their mission and their business mandates. Westaway reveals that though there is no magic bullet formula that guarantees success, there are seven core practices that distinguish these market leaders from the pack of contenders. They are: DISCOVER THROUGH CURIOSITY // Finding the right opportunity catalyzes impact. DESIGN WITH HUMILITY // Prioritizing users creates killer products. BUILD THROUGH HUSTLE // Rallying people creates critical momentum for launch. FUND BY COMMITMENT // Aligning funders around a vision creates true partnerships. CONNECT WITH AUTHENTICITY // Authentic connection builds a movement. SCALE THROUGH COMMUNITY // Focusing on culture ensures smart growth. EVALUATE WITH HONESTY // Honest measurement ensures continual improvement. Profit & Purpose takes the literature on social entrepreneurship an important step forward, providing the practical tools for turning good intentions into breakaway success.

Declared "the best survival book in a decade" by Outside Magazine, 438 Days is the true story of the man who survived fourteen months in a small boat drifting seven thousand miles across the Pacific Ocean. On November 17, 2012, two men left the coast of Mexico for a weekend fishing trip in the open Pacific. That night, a violent storm ambushed them as they were fishing eighty miles offshore. As gale force winds and ten-foot waves pummeled their small, open boat from all sides and nearly capsized them, captain Salvador Alvarenga and his crewmate cut away a two-mile-long fishing line and began a desperate dash through crashing waves as they sought the safety of port. Fourteen months later, on January 30, 2014, Alvarenga, now a hairy,

wild-bearded and half-mad castaway, washed ashore on a nearly deserted island on the far side of the Pacific. He could barely speak and was unable to walk. He claimed to have drifted from Mexico, a journey of some seven thousand miles. A "gripping saga," (Daily Mail), 438 Days is the first-ever account of one of the most amazing survival stories in modern times. Based on dozens of hours of exclusive interviews with Alvarenga, his colleagues, search-and-rescue officials, the remote islanders who found him, and the medical team that saved his life, 438 Days is not only "an intense, immensely absorbing read" (Booklist) but an unforgettable study of the resilience, will, ingenuity and determination required for one man to survive more than a year lost and adrift at sea.

It's the inside story of the smartest and biggest scam of the 21st Century - and the genius behind it, who is still on the run.

The black box is orange—and there are actually two of them. They house the cockpit voice recorder and the flight data recorder, instruments vital to airplane crash analyses. But accident investigators cannot rely on the black boxes alone. Beginning with the 1931 Fokker F-10A crash that killed legendary football coach Knute Rockne, this fascinating book provides a behind-the-scenes look at plane wreck investigations. Professor George Bibel shows how forensic experts, scientists, and engineers analyze factors like impact, debris, loading, fire patterns, metallurgy, fracture, crash testing, and human tolerances to determine why planes fall from the sky—and how the information gleaned from accident reconstruction is incorporated into aircraft design and operation to keep commercial aviation as safe as possible.

A comprehensive review of the events, personalities, and mistakes behind the Stock Market Crash of 1929, featuring photographs, newspaper articles, and cartoons of the day. Described by Virginia Woolf herself as 'easily the best of my books', and by her husband Leonard as a 'masterpiece', To the Lighthouse, first published in 1927, is one of the milestones of Modernism. Set on the Isle of Skye, over a decade spanning the First World War, the narrative centres on the Ramsay family, and is framed by Mrs Ramsay's promise to take a trip to the lighthouse the next day – a promise which isn't to be fulfilled for a decade. Flowing from character to character and from year to year, the novel paints a moving portrait of love, loss and perception. Bearing all the hallmarks of Woolf's prose, with her delicate handling of the complexities of human relationships, To the Lighthouse has earned its reputation – frequently appearing in lists of the best novels of the twentieth century, it has lost not an iota of brilliance.
