

2nd Grade Pacing Guide

Fresh new cover, same great content! In 1996, Gay Su Pinnell and Irene Fountas presented Guided Reading, the most comprehensive guided reading resource ever published. Hailed for its practical, systematic approach, the book showed hundreds of thousands of teachers how to address the needs of the whole classroom as well as individual readers. Now, with the publication of Word Matters, Pinnell and Fountas offer K-3 teachers the same unparalleled support, this time focusing on phonics and spelling instruction. Word Matters presents essential information on designing and implementing a high-quality, systematic literacy program to help children learn about letters, sounds, and words. The central goal is to teach children to become "word solvers": readers who can take words apart while reading for meaning, and writers who can construct words while writing to communicate. Where similar books are narrow in focus, Word Matters presents the theoretical underpinnings and practical wherewithal of word study in three contexts: word study that includes systematically planned and applied experiences focusing on the elements of letters and words writing, including how children use phoneme-grapheme relationships, word patterns, and principles to develop spelling ability reading, including teaching children how to solve words with the use of phonics and visual-analysis skills as they read for meaning. Each topic is supported with a variety of practical tools: reproducible sheets for a word study system and for writing workshop; lists of spelling minilessons; and extensive word lists, including frequently used words, antonyms, synonyms, and more. Armed with these tools-and the tried-and-true wisdom of Gay Su Pinnell and Irene Fountas-teachers can help students develop not just the "essential skills," but also a joyful appreciation of their own literacy.

"HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the

challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

With the Spectrum Phonics grade 4 workbook you can expect your child to develop skills in understanding consonants, short and long vowels, silent consonants, vowel digraphs, vowel sounds, consonant combinations, and diphthongs.

In *A Quick Guide to Teaching Second Grade Writers with Units of Study* Lucy Calkins chronicles a curricular calendar that will help teachers increase the volume of student writing; encourage students to lift the level of their writing by reviewing, rethinking, and rewriting their work; and empower students to write with greater independence. *A Quick Guide to Teaching Second Grade Writers with Units of Study* is part of the Workshop Help Desk series. About the Workshop Help Desk series The Workshop Help Desk series is designed for teachers who believe in workshop teaching and who have already rolled up their sleeves enough to have encountered the predictable challenges. If you've struggled to get around quickly enough to help all your writers, if you've wondered how to tweak your teaching to make it more effective and lasting, if you've needed to adapt your teaching for English learners, if you've struggled to teach grammar or nonfiction writing or test prep...if you've faced these and other specific, pressing challenges, then this series is for you. Provided in a compact 5" x 7" format, the Workshop Help Desk series offers pocket-sized professional development. For a comprehensive overview of the Units of Study for Teaching Writing series, including sample minilessons, sample videos, curricular calendars, overview presentations, frequently asked questions, and information on the companion principal's guide and the Workshop Help Desk series visit unitsofstudy.com.

In *Writers Are Readers*, the mutually supportive roles of reading and writing are made visible through the idea of "flipsides;" how a reader's insights can be turned around to provide insights into his own writing, and vice versa. Lester and Reba's trademark engaging style is woven throughout chapters full of sample lessons, student writing samples, and recommended texts for maximizing the flipped concept across the year. "Leading the student to understand what he did as a reader can become a lens that brings into focus what the writer had to do before a reader ever saw the page," they write. Discover fresh new ways to turn reading strategies into writing opportunities that your students will be excited about and deeply understand.

Concise and focused, the *Wonders Reading/Writing Workshop* is a powerful instructional tool that provides students with systematic support for the close reading of complex text.
