The Researcher's Toolkit is a practical rather than an academic text for all those undertaking, perhaps for the first time, small-scale research. Written by an experienced team of practising researchers, it covers the entire research process - from designing and submitting a research proposal through to its completion. This book is suitable for all researchers, but is particularly designed for those practitioner-based researchers from the fields of education, social work, nursing, criminal justice and community work. This fresh new idea for those conducting small-scale research comes from a team of practising researchers who possess a broad range of experiences and knowledge of research design, execution and completion. They write in a user-friendly style that those researchers new to the subject will find easy to follow and understand. It will act both as a roadmap to planning, execution and completing research and also as a dip-in reference guide. Using features such as activity boxes to highlight key concepts and short summary boxes to indicate fundamental elements of the research area under discussion, this accessible book will be of great value to all who read it.

journalism from leading global publications, as well as top tips and practical exercises. The book also presents interviews with leading sport and club journalists with wide-ranging experience at the BBC, Copa90, Wimbledon Tennis, the Guardian and BT Sport, who discuss working with new technologies to cover sports stories and events. Chapters cover: live blogging; making and disseminating short videos; working for a sports club or governing body; finding and transmitting stories on social media; podcasting; longform online journalism. The job of a sports journalist has altered dramatically over the first two decades of the 21st century, with scope to write content across a new variety of digital platforms and mediums. Digital Sports Journalism will help students of journalism and professionals unlock the potential of these new media technologies.

The author attempts to answer the question of why ESL classroom talk is the way it is. Basing her answer on a case study of a school in an ESL community, she argues that classroom talk may be linked in important ways to an operative sociocultural structure of ESL pedagogy over and above the classroom at the institutional level.

The view that academic discourse is, by definition, impersonal has long been superseded. It seems unquestionable now that the interpersonal component of texts, that is, the ways in which the writers project themselves and their audience in the discourse, is an essential factor determining the success of scholarly communication and has become a fundamental issue in the field of English for Academic Purposes

(EAP). Interpersonality is the key issue around which the articles in this edited book focus on. The eighteen contributions included in this volume provide a wide exploratory view of the many academic genres in which interpersonality is manifested and the various analytical approaches from which the textual manifestation of that interpersonality can be studied. The varied origin of the contributors is also representative of the global interest that the issue of interpersonality arouses in the field of academic discourse analysis at an international level. The present volume constitutes a highly valuable tool for applied linguists and discourse analysts with an interest in EAP as well as for students, instructors and language teachers interested in academic discourse. The book may also be of interest to other agents intervening in the research publication process, such as translators, proofreaders, reviewers and editors.

This book presents a comprehensive, state-of-the-art treatment of the acquisition of Indo- and Non-Indo-European languages in various contexts, such as L1, L2, L3/Ln, bi/multilingual, heritage languages, pathology as well as language impairment, and sign language acquisition. The book explores a broad mix of methodologies and issues in contemporary research. The text presents original research from several different perspectives, and provides a basis for dialogue between researchers working on diverse projects with the aim of furthering our understanding of how languages are acquired. The book proposes and refines new theoretical constructs, e.g. regarding the complexity of linguistic features as a relevant factor forming children's, adults' and bilingual individuals' acquisition of morphological, syntactic, discursive, pragmatic, lexical and phonological structures. It appeals to students, researchers, and professionals in the field.

All social work practice is regulated by social policies. Professionals, however, cannot arbitrarily select which policy to follow in any circumstance. Knowing what comprises a given policy is essential, but equally important is understanding how to amend a policy by applying unique skills that reflect the social work profession's shared values and beliefs. Recognizing that a series of interdependent social policies govern every aspect

The study of medicine and healing traditions is well developed in the discipline of anthropology. Most religious studies scholars, however, continue to assume that "medicine" and "biomedicine" are one and the same and that when religion and medicine are mentioned together, the reference is necessarily either to faith healing or bioethics. Scholars of religion also have tended to assume that religious healing refers to the practices of only a few groups, such as Christian Scientists and pentecostals. Most are now aware of the work of physicians who attempt to demonstrate positive

health outcomes in relation to religious practice, but few seem to realize the myriad ways in which healing pervades virtually all religious systems. This volume is designed to help instructors incorporate discussion of healing into their courses and to encourage the development of courses focused on religion and healing. It brings together essays by leading experts in a range of disciplines and addresses the role of healing in many different religious traditions and cultural communities. An invaluable resource for faculty in anthropology, religious studies, American studies, sociology, and ethnic studies, it also addresses the needs of educators training physicians, health care professionals, and chaplains, particularly in relation to what is referred to as "cultural competence" - the ability to work with multicultural and religiously diverse patient populations.

In his first book, Benjamin Hawes takes us through his journey to adulthood. Starting out as a kid with a bike and a bowl cut in the San Francisco Bay Area, Ben soon realized that he hated being a child. He did what it took to get out of the house and leave childhood and his teen years behind! Ben has worked hard and has become an employed adult in New York City at twenty-two years old. His story is sure to inspire many young Americans looking to venture out of their teenage and college lives, and into their full on, real adult lives. This book is the perfect gift idea for that one loser in your life who won't get off the couch! Buy it now!

This book discusses pedagogical solutions that enable students to see how capitalist processes and economic inequalities intersect and shape our assumptions and behaviours. The contributors provide thoughtful reflections on the struggles and opportunities instructors face in teaching about these topics while competing against the invisibility of capitalist forces and prevalent social myths, such as “anyone who works hard can achieve”. This book will not only help instructors empower students to recognize economic injustice and its interaction with capitalist organization, but also develops and acts on transformative solutions. Through analysis of the classed dimensions of the current political, economics, and cultural climate, as well as presenting novel lesson plans and classroom activities, this book is of great value for college and university professors.

This book offers students a method for understanding and mastering the rhetorical patterns that comprise expository writing. Its exercises ask students to arrange jumbled sentences into logical order, forming model essays for standard rhetorical patterns such as comparison/contrast, classification, and thesis support. These techniques force students to see the basic logic of different writing patterns. The goal of Whimbey's workbook is to teach the student to write concise and original essays on any topic. Performance in the Twenty-First Century: Theatres of Engagement addresses the reshaping of theatre and performance after postmodernism. Andy Lavender argues provocatively that after the 'classic' postmodern tropes of detachment, irony, and contingency, performance in the twenty-first century engages more overtly with meaning, politics and society. It involves a newly pronounced form of personal experience, often implicating the body and/or one's sense of self. This volume examines a range of performance events, including work by both emergent and internationally significant companies and artists such as Rimini Protokoll, Blast Theory, dreamthinkspeak, Zecora Ura, Punchdrunk, Ontroerend Goed, Kris Verdonck, Dries

It also considers a wider range of cultural phenomena such as online social networking, sports events, installations, games-based work and theme parks, where principles of performance are in play. Performance in the Twenty-First Century is a compelling and provocative resource for anybody interested in discovering how performance theory can be applied to cutting-edge culture, and indeed the world around them.

ESL Readers and Writers in Higher Education describes the challenges ESL students in U.S. postsecondary institutions face when studying in a second language, and offers suggestions for how teachers, advisors, tutors, and institutions might provide support that meets the reading and writing needs of this very important student population. Because the ESL profession as a whole, including what professionals are doing in the classroom, sits under the umbrella of an institutional response to a language-related challenge, some solutions aimed at helping students achieve optimal proficiency lie outside of the classroom. As such, this book is based on the assertion that language development support is not the sole responsibility of language teachers. Everyone on campuses that hosts ESL students bears some responsibility for these students' language development. Chapters are therefore, intentionally adapted to appeal to a wide variety of readers from classroom teachers, and teachers in training, to admissions officers, academic advisors, and international student advisors.

In the summer of 2005, Pennsylvania state government revealed its seedy underbelly when the General Assembly gave itself and others an unconstitutional middle-of-the-night pay raise. In response, the people of the Commonwealth

awoke from a long slumber and rose up in defiance of the Political Class. They made history - and the reverberations are still being felt. Things may never be the same again in the Keystone State. Beneath the battles of right versus left, liberal versus conservative and Republican versus Democrat, the Establishment strained to maintain power and continuity. Traditional political ideologies took a back seat as the very fabric of the Political Class was torn apart. In 2005-2006, Pennsylvanians got a taste of what happens when the ivory-towered crowd is running scared. But what we read in the papers and see on television is never the whole story. Follow the journey of one individual who just happened to get caught in the middle of it all and observed it from a unique perspective?
