Holocaust Trauma offers a comprehensive overview of the long-term psychological effects of Holocaust trauma. It covers not only the direct effects on the actual survivors and the transmission effects upon the offspring, but also the collective effects upon other affected populations, including the Israeli Jewish and the societies in Germany and Austria. It also suggests various possible intervention approaches to deal with such long-term effects of major trauma upon individuals, groups and societies that can be generalized to other similar traumatic events. The material presented is based on the clinical experience gathered from hundreds of clients of the National Israeli Center for Psychosocial Support of Holocaust Survivors and the Second Generation (AMCHA), an Israeli treatment center for this population, and from facilitating groups of Austrian/German participants in Yad Vashem and Europe; as well as an upon an extensive review of the vast literature in the field. "...a long awaited text from one of the most experienced and knowledgeable psychologists in the world. The text is groundbreaking in its sensitivity, historical grounding, insight and scholarship." Michael A. Grodin, M.D.

A mesmerizing and suspenseful coming-of-age novel about an orphan hiding within the walls of her former family home—and about what it means to be truly seen after becoming lost in life Eventually, every hidden thing is found. Elise knows every inch of the house. She knows which boards will creak. She knows where the gaps are in the walls. She knows which parts can take her in, hide her away. It's home, after all. The home her parents made for her, before they were taken from her in a car crash. And home is where you stay, no matter what. Eddie is a teenager trying to forget about the girl he sometimes sees out of the corner of his eye. But when his hotheaded older brother senses her, too, they are faced with the question of how to get rid of someone they aren't sure even exists. And as they try to cast her out, they unwittingly bring an unexpected and far more real threat to their doorstep. Written with grace and enormous heart, *Girl in the Walls* is a novel about carrying on through grief, forging unconventional friendships, and realizing, little by little, that we don't need to fear what we do not understand.

International bestseller: Kurt Wallander and his daughter join forces to hunt for a ritual killer in this "gripping, beautifully orchestrated" mystery (New York Times Book Review). Linda Wallander is bored. Having just graduated from the police academy, she's waiting to start work with the Ystad police and move into her own apartment. In the meantime, she's staying with her father and, like fathers and daughters everywhere, they are driving each other crazy. Nor will they be able to escape each other when she moves out. Her father is Inspector Kurt Wallander, a veteran of the Ystad police force, and the two of them are about to find themselves working a case that couldn't be closer to home. Linda's childhood friend Anna has disappeared. As the investigation proceeds, she makes a few rookie mistakes that are both understandable and life-threatening. But as the case her father is working on dovetails with her own, something far more dangerous, and chillingly calculated, begins to emerge. A "powerful" and "thoroughly engaging" thriller from "a master storyteller," *Before the Frost* introduces an unforgettable new heroine to the acclaimed series that is the basis for the BBC television show starring Kenneth Branagh (San Francisco Chronicle).

A comprehensive historical survey of the Jewish presence in Central Europe from the seventeenth century to the Holocaust, *German-Jewish History in Modern Times* is a four-volume collective project by a team of leading scholars, offering a vivid portrait of Jewish History. The series is sponsored by the Leo Baeck Institute, established in 1955 in Jerusalem, London, and New York for the purpose of advancing scholarship on the Jews in German-speaking lands. *Integration in Dispute 1871-1918* comprises the third volume and focuses on a period of political, economic, and social change that fundamentally transformed German Jewry. Eminent scholars consider a broad range of topics: religious and cultural life, demographics, political, legal, and socioeconomic status, relations between Jews and non-Jews, and Jewish participation in the larger context of European history. Volume 3 begins with the establishment of civil equality for Jews in Germany and Austria-Hungary and describes the complexities of their economic and social integration. The contributors explore the challenges that confronted Jews as they encountered both unprecedented opportunities and continued resistance to their full emancipation and participation in public life. The book discusses their standing as a minority group within German political and professional life and as a differentiated portion of the German middle class; how they coped with successive waves of political antisemitism; how they continued to adapt traditional religious practices to modernity; and how urban middle-class life transformed Jewish families as well as the role of Jewish women in the domestic and public spheres. The forces of social change, coupled with the persistence of antisemitism formed the context for the emergence of Zionism, which posed a powerful challenge to the dominant principle of integration. This volume also seeks to understand the nature and timing of the exceptional contributions of German Jews to the thriving modern culture of such cities as late imperial Vienna and Berlin as well as to the specific religious culture of Judaism. Each volume includes a bibliographical essay referring readers to the most important secondary literature, a chronology covering the major events discussed, and a series of maps and illustrations. Encompassing the most up-to-date research on the topic, *German Jewish History in Modern Times* is an achievement to be valued by historians, educators, and any reader

seeking to understand the singular heritage of the Jewish people in Central Europe.

This book comprises the latest achievements in research and development in educational robotics presented at the 12th International Conference on Robotics in Education (RiE), which was carried out as a purely virtual conference from April 28 to 30, 2021. Researchers and educators find valuable methodologies and tools for robotics in education that encourage learning in the fields of science, technology, engineering, arts, and mathematics (STEAM) through the design, creation, and programming of tangible artifacts for creating personally meaningful objects and addressing real-world societal needs. This also involves the introduction of technologies ranging from robotics platforms to programming environments and languages. Evaluation results prove the impact of robotics on the students' interests and competence development. The presented approaches cover the whole educative range from kindergarten, primary and secondary school, to the university level and beyond.

A new edition of Katz's study of European Jewish society at end of the Middle Ages. It taps into a rich source, the responsa literature of the Rabbinic establishment of the time, a time when self-governing communities of Jews dealt with their own civil and

religious issues.

From the award-winning historian of the Holocaust, *Europe Against the Jews, 1880-1945* is the first book to move beyond Germany's singular crime to the collaboration of Europe as a whole. The Holocaust was perpetrated by the Germans, but it would not have been possible without the assistance of thousands of helpers in other countries: state officials, police, and civilians who eagerly supported the genocide. If we are to fully understand how and why the Holocaust happened, Götz Aly argues in this groundbreaking study, we must examine its prehistory throughout Europe. We must look at countries as far-flung as Romania and France, Russia and Greece, where, decades before the Nazis came to power, a deadly combination of envy, competition, nationalism, and social upheaval fueled a surge of anti-Semitism, creating the preconditions for the deportations and murder to come. In the late nineteenth century, new opportunities for education and social advancement were opening up, and Jewish minorities took particular advantage of them, leading to widespread resentment. At the same time, newly created nation-states, especially in the east, were striving for ethnic homogeneity and national renewal, goals which they saw as inextricably linked. Drawing upon a wide range of previously unpublished sources, Aly traces the sequence of events that made persecution of Jews an increasingly acceptable European practice. Ultimately, the German architects of genocide found support for the Final Solution in nearly all the countries they occupied or were allied with. Without diminishing the guilt of German perpetrators, Aly documents the involvement of all of Europe in the destruction of the Jews, once again deepening our understanding of this most tormented history.

These essays discuss approaches to early modern literature in central Europe, focusing on four pivotal areas: connections between humanism and the new scientific thought; the relationship of late sixteenth- and early seventeenth-century literature to ancient and Renaissance European traditions; the social and political context of early modern writing; and the poets' self-consciousness about their work. As a whole, the volume argues that early modern writing in central Europe should not be viewed solely as literature but as the textual product of specific social, political, educational, religious, and economic circumstances. The contributors are Judith P. Aikin, Barbara Becker-Cantarino, Thomas W. Best, Dieter Breuer, Barton W. Browning, Gerald Gillespie, Anthony Grafton, Gerhart Hoffmeister, Uwe-K. Ketelsen, Joseph Leighton, Ulrich Mache, Michael M. Metzger, James A. Parente, Jr., Richard Erich Schade, George C. Schoolfield, Peter Skrine, and Ferdinand van Ingen.

Leading scholars take a wider view of new media, placing it in the context of art history and acknowledging the necessity of an interdisciplinary approach in new media art studies and practice. Digital art has become a major contemporary art form, but it has yet to achieve acceptance from mainstream cultural institutions; it is rarely collected, and seldom included in the study of art history or other academic disciplines. In *MediaArtHistories*, leading scholars seek to change this. They take a wider view of media art, placing it against the backdrop of art history. Their essays demonstrate that today's media art cannot be understood by technological details alone; it cannot be understood without its history, and it must be understood in proximity to other disciplines—film, cultural and media studies, computer science, philosophy, and sciences dealing with images. Contributors trace the evolution of digital art, from thirteenth-century Islamic mechanical devices and eighteenth-century phantasmagoria, magic lanterns, and other multimedia illusions, to Marcel Duchamp's inventions and 1960s kinetic and op art. They reexamine and redefine key media art theory terms—machine, media, exhibition—and consider the blurred dividing lines between art products and consumer products and between art images and science images. Finally, *MediaArtHistories* offers an approach for an interdisciplinary, expanded image science, which needs the "trained eye" of art history. Contributors Rudlof Arnheim, Andreas Broeckmann, Ron Burnett, Edmond Couchot, Sean Cubitt, Dieter Daniels, Felice Frankel, Oliver Grau, Erkki Huhtamo, Douglas Kahn, Ryszard W. Kluszczynski, Machiko Kusahara, Timothy Lenoir, Lev Manovich, W.J.T. Mitchell, Gunalan Nadarajan, Christiane Paul, Louise Poissant, Edward A. Shanken, Barbara Maria Stafford, and Peter Weibel

Collected essays consider points of affinity and friction between Walter Benjamin and Martin Heidegger. Despite being contemporaries, Walter Benjamin and Martin Heidegger never directly engaged with one another. Yet, Hannah Arendt,

who knew both men, pointed out common ground between the two. Both were concerned with the destruction of metaphysics, the development of a new way of reading and understanding literature and art, and the formulation of radical theories about time and history. On the other hand, their life trajectories and political commitments were radically different. In a 1930 letter, Benjamin told a friend that he had been reading Heidegger and that if the two were to engage with one another, “sparks will fly.” Acknowledging both their affinities and points of conflict, this volume stages that confrontation, focusing in particular on temporality, Romanticism, and politics in their work.
