There is no such thing as an alcoholic and there is no such disease as alcoholism! (as society understands it). Whether you agree with this statement or not, one thing is for sure, you will never see alcohol in the same light ever again after reading this book. Jason Vale takes an honest and hard hitting look at people's conceptions of our most widely consumed drug. Jason's major argument is there is no such thing as an 'alcoholic' and that we are conditioned to accept alcohol as a 'normal' substance in today's society despite the fact that it is the major cause of many of today's social problems and a wide range of health issues. This book is much more than a simple eye opener, it will: change the way you see alcohol forever; show you how to stop drinking; help you enjoy the process and enjoy your life so much more than you do now without having to drink alcohol. So open your mind and take a journey with Jason to explore the myths about the most used and accepted drug addiction in the world!

Dr Mike Moreno's 17 Day Diet is a revolutionary new weight-loss programme that activates your skinny gene so that you burn fat day in and day out. The diet is structured around four 17-day cycles: Accelerate- the rapid weight loss portion that helps flush sugar and fat storage from your system; Activate-the metabolic restart portion with alternating low and high calorie days to help shed body fat; Achieve - this phase is about learning to control portions and introducing new fitness routines; Arrive - A combination of the first three cycles to keep good habits up for good. Each cycle changes your calorie count and the food that you're eating. The variation that Dr. Mike calls 'body confusion' is designed to keep your metabolism guessing. This is not a diet that relies on a tiny list of approved foods, gruelling exercise routines, or unrealistic calorie counts that leave you hungry and unfulfilled. Each phase comes with extensive lists of what dieters can and can't eat while on the phase, but also offers acceptable cheats. He advises readers not to drink while on the diet, but concedes that if they absolutely have to then they should at least drink red wine. Dr Mike knows that a diet can only work if it's compatible with the real world, and so he's designed the programme with usability as a top priority.

Tighten Your Tummy in 2 Weeks is a revolutionary new program that triggers hormones to burn more fat and melt pounds and inches primarily from the belly. A woman's tummy has now replaced her thighs as the most-troublesome body part. Seventy-six percent of women surveyed in 2014 admitted that they were unhappy with their midsection. And a large tummy is a warning sign of significant potential health issues. QUESTION: How would you like to lose 14 inches from your waist and 14 pounds of body fat in only 14 days? The proof is in the pictures: 41 women at Gainesville Health & Fitness in Florida tested the Tighten Your Tummy in 2 Weeks program under the direction of fitness expert Ellington Darden, PhD, who documented success stories with remarkable before-and-after photographs. Readers can expect results similar to Dr. Darden's test panel. For example, in just 2 weeks: • Roxanne Dybevick, 54, lost 15.08 pounds • Angela Choate, 68, lost 14.8 pounds • Katie Fellows Smith, 60, lost 14.51 pounds • Denise Rodriguez, 34, lost 14.49 pounds • Brianna Kramer, 23, lost 14.26 pounds What causes such rapid loss of midsection flab? The answer is Dr. Darden's remarkable 5-step formula: 1. A special at-home resistance exercise technique called "15-15-15, plus 8 to 12" triggers fat cells to burn and release fat, effectively "spot-reducing" the belly. 2. A carbohydrate-rich eating plan of five or six small meals a day. Yes, "carbs are okay." A bagel for breakfast is on the daily meal plan. 3. Extra sleep at night and a nap during the day to turbo-charge the shrinking of pounds and inches. 4. A tummy-tightening trick called the inner-abs vacuum that's performed before every meal. 5. Sipping ice-cold water all day long, which synergizes the loss of fat and the strengthening of muscle. What Women Like You Are Saying About the Tighten Your Tummy Program: • "I've rediscovered my hour-glass figure." • "My jeans fit again: they feel like an old friend." • "The Power Start Diet made me feel powerful ... and I like that feeling." • "I love the person I now see in the mirror."

Discover the original international diet sensation—used by Adele, heavyweight champion David Haye, and Pippa Middleton—that will help you lose seven pounds in seven days while experiencing lasting energy and eating all the foods you love. Over the past few years, fasting has become a popular diet option. Studies show that fasting—whether through moderate calorie restriction every day or the more severe but less frequent intermittent fasting—can help people lose about thirteen to fourteen pounds in six months and reduce their risk of developing disease. When we fast, our body's energy stores activate what is known as sirtuins, or the “skinny gene,” and many positive changes ensue. Fat storage is switched off, and our body stops its normal growth processes and goes into “survival” mode. Fat burning is stimulated and the genes involved in the repair and rejuvenation of our cells are turned on—which all results to weight loss and improved resistance to disease. But if not done correctly, fasting can lead to hunger, irritability, fatigue, and loss of muscle. Enter Sirtfoods: a newly discovered group of foods that is revolutionizing healthy eating. Ranging from chocolate and red wine to garlic and walnuts, sirtfoods are

particularly rich in special nutrients that help us activate the same skinny genes in our bodies that fasting triggers. Nutritionists Aidan Goggins and Glen Matten have created The Sirtfood Diet to help you effectively lose weight and improve your resistance to disease, while still giving you incredible energy and glowing health.
