Sometimes you do everything right, but it just isn't your day. A part fails and your helicopter comes apart in flight, or, another aircraft runs into you and the pieces of both fall to the ground below, or the enemy gunner pulls the trigger at just the right moment and his rounds find your aircraft in exactly the right spot to take it out of the sky. Whichever way it happens, it wasn't your day. Which is why, after 24 years and over 5,000 flight hours with four armed services, Major Robert Curtis was so surprised at being alive when he passed his retirement physical. Starting with enlisting in the Army to fly helicopters during Vietnam, and continuing on through service with the National Guard, Marine Corps and Royal Navy, he flew eight different helicopters—from the wooden-bladed OH-13E, through the Chinook, SeaKnight and SeaKing, in war and peace around the world. During that time over 50 of his friends died in crashes, both in combat and in accidents, but somehow his skill, and not an inconsiderable amount of luck and superstition, saw him through. His flying career began with a misbegotten strategy for beating the draft by enlisting. With the Vietnam War raging full blast in 1968 the draft was inevitable, so he wanted to at least get some small measure of control of his future. Although he had no thought of flying when he walked into the recruiting office, he walked out signed up to be a helicopter pilot. What he did not know was that 43% of all the aircraft sent to Vietnam were destroyed in combat or accidents. Soon he was in the thick of the war, flying Chinooks with the 101st Airborne. After Vietnam he left the Army, but kept flying in the National Guard while going to college. He was accepted at two law schools, but flying is addictive, so he instead enlisted in the USMC to fly some more. Over the next 17 years he would fly around the world off US and British ships from Egypt to

Norway and all points in between. His engaging story will be a delight to all aviation enthusiasts.

\*Finalist for the Pulitzer Prize in Biography\* \*Winner of the 2020 National Book Critics Circle Award\* \*Winner of the PEN/Jacqueline Bograd Weld Award for Biography\* A “captivating” (The Washington Post) work of history that explores the life of an unconventional woman during the first half of the 19th century in Edo—the city that would become Tokyo—and a portrait of a city on the brink of a momentous encounter with the West. The daughter of a Buddhist priest, Tsuneno was born in a rural Japanese village and was expected to live a traditional life much like her mother’s. But after three divorces—and a temperament much too strong-willed for her family’s approval—she ran away to make a life for herself in one of the largest cities in the world: Edo, a bustling metropolis at its peak. With Tsuneno as our guide, we experience the drama and excitement of Edo just prior to the arrival of American Commodore Perry’s fleet, which transformed Japan. During this pivotal moment in Japanese history, Tsuneno bounces from tenement to tenement, marries a masterless samurai, and eventually enters the service of a famous city magistrate. Tsuneno’s life provides a window into 19th-century Japanese culture—and a rare view of an extraordinary woman who sacrificed her family and her reputation to make a new life for herself, in defiance of social conventions. “A compelling story, traced with meticulous detail and told with exquisite sympathy” (The Wall Street Journal), *Stranger in the Shogun’s City* is “a vivid, polyphonic portrait of life in 19th-century Japan [that] evokes the Shogun era with panache and insight” (National Review of Books).

A Collection of Thoughts, Sayings and Meditations on the Way of the Samurai "It is said that what is called "the spirit of an age" is something to which one cannot return. That this spirit gradually dissipates is due to the world's coming to an end. For this reason, although one would like to change today's world back to the spirit of one hundred years or more ago, it cannot be done. Thus it is important to make the best out of every generation." — Tsunetomo Yamamoto, Hagakure: The Book of the Samurai A formerly secret text known only to the Samurai, Hagakure is a classic text on Bushido--the Way of the Warrior. More than just a handbook for battle, Hagakure is a text that filled with teachings that still apply in business, political and social situations today. This Xist Classics edition has been professionally formatted for e-readers with a linked table of contents. This eBook also contains a bonus book club leadership guide and discussion questions. We hope you'll share this book with your friends, neighbors and colleagues and can't wait to hear what you have to say about it.

Never Far Away is a short story and resource for the parent who has a child that doesn't like to separate from them when time for school or work. It has illustrative pictures and content for the parent and child to interact before they go about their day.

By 250 AD, Christianity had spread throughout India and China. Known as the Shining Religion or the Luminous Teaching, it drew adherents from Buddhism and Hinduism who were seeking a faith

that taught the possibility of achieving a society founded on love and compassion for their fellow man. The new doctrine reached the island nation of Japan where it was so well received that Christianity threatened to supplant Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith. Jesus and the Samurai tells their fascinating story with facts drawn from ancient and modern sources.

The overwhelming majority of tea practitioners in contemporary Japan are women, but there has been little discussion on their historical role in tea culture (chanoyu). In *Cultivating Femininity*, Rebecca Corbett writes women back into this history and shows how tea practice for women was understood, articulated, and promoted in the Edo (1603–1868)

and Meiji (1868–1912) periods. Viewing chanoyu from the lens of feminist and gender theory, she sheds new light on tea's undeniable influence on the formation of modern understandings of femininity in Japan. Corbett overturns the iemoto tea school's carefully constructed orthodox narrative by employing underused primary sources and closely examining existing tea histories. She incorporates Pierre Bourdieu's theories of social and cultural capital and Norbert Elias's "civilizing process" to explore the economic and social incentives for women taking part in chanoyu. Although the iemoto system sought to increase its control over every aspect of tea, including book production, eighteenth- and nineteenth-century popular texts aimed specifically at women evidence the spread of tea culture beyond parameters set by the schools. The expansion of chanoyu to new social groups cascaded from commoner men to elite then commoner women. Shifting the focus away from male tea masters complicates the history of tea in Japan and shows how women of different social backgrounds worked within and without traditionally accepted paradigms of tea practice. The direct socioeconomic impact of the spread of tea is ultimately revealed in subsequent advances in women's labor opportunities and an increase in female social mobility. Through their participation in chanoyu, commoner women were able to blur and

lessen the status gap between themselves and women of aristocratic and samurai status. Cultivating Femininity offers a new perspective on the prevalence of tea practice among women in modern Japan. It presents a fresh, much-needed approach, one that will be appreciated by students and scholars of Japanese history, gender, and culture, as well as by tea practitioners.
