intersection of race, privilege, justice, and the church, Tasha is without question my best teacher. Be the Bridge is THE tool I wish to put in every set of hands.”—Jen Hatmaker Winner of the Christianity Today Book Award • A leading advocate for racial reconciliation calls Christians to move toward deeper understanding in the midst of a divisive culture. In an era where we seem to be increasingly divided along racial lines, many are hesitant to step into the gap, fearful of saying or doing the wrong thing. At times the silence, particularly within the church, seems deafening. But change begins with an honest conversation among a group of Christians willing to give a voice to unspoken hurts, hidden fears, and mounting tensions. These ongoing dialogues have formed the foundation of a global movement called Be the Bridge—a nonprofit organization whose goal is to equip the church to have a distinctive and transformative response to racism and racial division. In this perspective-shifting book, founder Latasha Morrison shows how you can participate in this incredible work and replicate it in your own community. With conviction and grace, she examines the historical complexities of racism. She expertly applies biblical principles, such as lamentation, confession, and forgiveness, to lay the framework for restoration. Along with prayers, discussion questions, and other resources to enhance group engagement, Be the Bridge presents a compelling vision of what it means for every follower of Jesus to become a bridge builder—committed to pursuing justice and racial unity in light of the gospel.

"Crossings On A Bridge of Light" is the first English rendition of a vibrant and pivotal episode in the Gesar of Ling epic. In this story, Gesar, King of Ling, moves between life and death to free his mother from the bonds of hell. He traverses the six realms of being and passes through the five traditional states (bardos). His journey reaches its apex in four visions of the enlightened rulers of the Kingdom of Shambhala. Gesar's inner journey, his encounters with a panoply of beings embodying the spontaneous presence of the awakened state, enable him to heal the doubts and divisions that have come to threaten his kingdom. This tale of how the vision of an enlightened society can be realized on this earth has inspired people for many centuries; it is equally powerful today. "The miraculous images of King Gesar dance so vividly on the pages of 'Crossings On A Bridge of Light' it's as if they were alive. It's beautiful!" -The Ven. Tulku Thondup, translator of many important Nyingma texts, author of "Healing Power of Mind," "Boundless Healing," and "Peaceful Death, Joyful Rebirth" "'Crossings On A Bridge of Life' is a treasure, a work of true inspiration. It demonstrates that the tradition of Gesar and his significance is not lost, and that singers may appear in any land or time. In relating Gesar's quest to liberate his mother from hell, it vividly brings to life the Buddhist teachings on the six realms, the cycle of bardos, the pure lands of the five transcendent Buddhas, and the inseparability of existence and awakening. The poetry of its language deeply touches the heart with compassion and opens the mind to the ever-present reality of the awakened state." -Dr. Francesca Fremantle, translator (with

2012: Crossing the Bridge to the Future is an engaging personal narrative through the author's apprenticeship with master astrologer William Lonsdale who teaches him how to access a source of great power and creativity buried within the human soul. Borax's mountaintop experiences compel him to seek solutions to his personal turmoil. En route, Borax and his fellow students discover truths about life after death, karma, reincarnation, past lives, human evolution, and the purpose of our existence on earth. From the author of the beloved #1 national bestseller *Crow Lake* comes an exceptional new novel of jealousy, rivalry and the dangerous power of obsession. Two brothers, Arthur and Jake Dunn, are the sons of a farmer in the mid-1930s, when life is tough and another world war is looming. Arthur is reticent, solid, dutiful and set to inherit the farm and his father's character; Jake is younger, attractive, mercurial and dangerous to know – the family misfit. When a beautiful young woman comes into the community, the fragile balance of sibling rivalry tips over the edge. Then there is Ian, the family's next generation, and far too sure he knows the difference between right and wrong. By now it is the fifties, and the world has changed—a little, but not enough. These two generations in the small town of Struan, Ontario, are tragically interlocked, linked by fate and community but separated by a war which devours its young men—its unimaginable horror reaching right into the heart of this remote corner of an empire. With her astonishing ability to turn the ratchet of tension slowly and delicately, Lawson builds their story to a shocking climax. Taut with apprehension, surprising us with moments of tenderness and humour, *The Other Side of the Bridge* is a compelling, humane and vividly evoked novel with an irresistible emotional undertow.

This book analyzes scientific problems within the history of physics, engineering, chemistry, astronomy and medicine, correlated with technological applications in the social context. When and how is tension between disciplines explicitly practised? What is the conceptual bridge between science researches and the organization of technological researches in the development of industrial applications? The authors explain various ways in which the sciences allowed advanced modelling on the one hand, and the development of new technological ideas on the other hand. An emphasis on the role played by mechanisms, production methods and instruments bestows a benefit on historical and scientific discourse: theories, institutions, universities, schools for engineers, social implications as well. Scholars from different traditions discuss the emergency style of thinking in methodology and, in theoretical perspective, aim to gather and re-evaluate the current thinking on this subject. It brings together contributions from leading experts in the field, and gives much-needed insight into the subject from a historical point of view. The volume composition makes for absorbing reading for historians, philosophers and scientists.

This selection of conference papers provides a cross-disciplinary approach to knowledge, information and development and how the three together can mould a new and more informed society. The challenge is to make our libraries more people-centered and Afro-centric, not simply serving the interests of the elite and paying little

LONG-LISTED FOR THE CARNEGIE MEDAL Reminiscent of the work of Nobel Prize winner Svetlana Alexievich, an astonishing collection of intimate wartime testimonies and poetic fragments from a cross-section of Syrians whose lives have been transformed by revolution, war, and flight. Against the backdrop of the wave of demonstrations known as the Arab Spring, in 2011 hundreds of thousands of Syrians took to the streets demanding freedom, democracy and human rights. The government's ferocious response, and the refusal of the

demonstrators to back down, sparked a brutal civil war that over the past five years has escalated into the worst humanitarian catastrophe of our times. Yet despite all the reporting, the video, and the wrenching photography, the stories of ordinary Syrians remain unheard, while the stories told about them have been distorted by broad brush dread and political expediency. This fierce and poignant collection changes that. Based on interviews with hundreds of displaced Syrians conducted over four years across the Middle East and Europe, *We Crossed a Bridge and It Trembled* is a breathtaking mosaic of first-hand testimonials from the frontlines. Some of the testimonies are several pages long, eloquent narratives that could stand alone as short stories; others are only a few sentences, poetic and aphoristic. Together, they cohere into an unforgettable chronicle that is not only a testament to the power of storytelling but to the strength of those who face darkness with hope, courage, and moral conviction. This is a new release of the original 1950 edition.

When Linda Tafet injured her shoulder and could no longer play golf or tennis, she found a new passion in the game of bridge. She took lessons, and the more she learned the more fascinated she became with the game. Every time she learned something new, she would condense it into her own words on a small index card. Soon, these cards became a stack, and then she combined the stack into a small three-ring binder. When her bridge friends saw what she was up to, they asked her to make them binders as well, and pretty soon she found herself in the handmade book-making business, selling each book for \$75 each. After selling more than five hundred of these books, Linda decided she was working too hard and could reach more bridge players if she published her book. The Best Bridge Book is a compilation of her original handmade book, now produced as a paperback. Larry Cohen, a very good friend of Linda's and one of the best bridge teachers in the world, edited her book, ensuring that each lesson is correct and easy to follow. Now all bridge players from beginners to advanced can enjoy and learn from Linda's book.
