Dave Brubeck's Time Out ranks among the most popular, successful, and influential jazz albums of all time. Released by Columbia in 1959, alongside such other landmark albums as Miles Davis's Kind of Blue and Charles Mingus's Mingus Ah Um, Time Out became one of the first jazz albums to be certified platinum, while its featured track, "Take Five," became the best-selling jazz single of the twentieth century, surpassing one million copies. In addition to its commercial successes, the album is widely recognized as a pioneering endeavor into the use of odd meters in jazz. With its opening track "Blue Rondo à la Turk" written in 9/8, its hit single "Take Five" in 5/4, and equally innovative uses of the more common 3/4 and 4/4 meters on other tracks, Time Out has played an important role in the development of modern jazz. In this book, author Stephen A. Crist draws on nearly fifteen years of archival research to offer the most thorough

examination to date of this seminal jazz album. Supplementing his research with interviews with key individuals, including Brubeck's widow Iola and daughter Catherine, as well as interviews conducted with Brubeck himself prior to his passing in 2012, Crist paints a complete picture of the album's origins, creation, and legacy. Couching careful analysis of each of the album's seven tracks within historical and cultural contexts, he offers fascinating insights into the composition and development of some of the album's best-known tunes. From Brubeck's 1958 State Department-sponsored tour, during which he first encountered the Turkish aksak rhythms that would form the basis of "Blue Rondo à la Turk," to the backstage jam session that planted the seeds for "Take Five," Crist sheds an exciting new light on one of the most significant albums in jazz history.

Can a writing textbook inform and entertain? Can a very brief rhetoric also function as a stand-alone guide to college writing? Yes and yes. Speaking of Writing is a concise yet comprehensive rhetoric with readings. Informed by scholarship in Writing Studies, this book follows four college students from diverse backgrounds as they face the challenges of reading, writing, and critical thinking in first-year writing and across the disciplines. Each chapter engages students in relatable, often humorous scenarios that focus on key challenges. Through its story-based approach, Speaking of Writing enacts student-centered and process-based pedagogy, showing students learning to address fundamental questions: How can I apply my own strategies for success to new assignments? How can I maintain my own voice when asked to compose in an academic style? What do college professors mean by a "thesis," and how is this different from what my high-school teachers meant? Why is this argument weak, and how can I make it stronger? The book's narrative vividly dramatizes a draft-and-revision process that includes instructor feedback, peer review, and careful research.

Includes the decisions and orders of the Board, a table of cases, and a cross reference index from the advance sheet numbers to the volume page numbers.

A number of public enterprise (PE) executives have long felt the need for a book which would provide necessary information and analysis of various dimensions of PE management and privatisation. The book provides at one place, a precise and authoritative account of the concept, policy, and analysis of major issues confronting PEs. Public ownership per se does not make PE performance sub-optimal. The operation of the Government system, of which PE is a sub-system, has not been conducive to performance. During the last six decades, inadequate political will and vested interests have come in the way of freeing PEs from excessive and throttling controls, and demoralising accountability. Not letting the managers manage with the freedom required in the liberalised and globalised set-up is the problem. The multifarious and complex managerial problems of PEs, which get compounded by faltering moves towards privatisation, cannot be wished away. These have been considered in the book at some length. The book, first published in 1980, continues to be a standard work on the subject. This latest edition has been revised by Dr. R.K.Mishra, Director, Institute of Public Enterprise,Hyderabad.

Beautiful and brainy Texas attorney Sharon Hays must stand alone against mobsters, political corruption, and cover-ups when she discovers key evidence that could prove a man on death row innocent of killing his socialite wife. But little does she realize that the real killer still prowls in the shadows-and will stop at nothing to silence her!

An advocate submits a brief to a court or tribunal to persuade it to decide the cause or matter in favor of the advocates client or position. The key word is persuade. Too often, advocates forget this and write to please themselves. They write to themselves instead of to the court. They write in chest-thumping prose and style. Advocates will do well to keep in mind that in advocacy, persuasion is all that matters. This book teaches persuasive written advocacy. It shows advocatesof all ranks, in all jurisdictions, in all proceedings, before all courts or tribunalshow to prepare and present winning and winsome arguments. Because of its emphasis on winning, the books pedagogy blends law, linguistics, logic, psychology, rhetoric, and semantics.

In 1893, Fargo was simply trying to thrive amid an impending national depression. One Wednesday afternoon in June, a ferocious fire quickly devoured hundreds of businesses and more than thirty blocks in the heart of the fledgling city. Residents were stunned, but they weren't defeated. Through perseverance, grit and some helpful insurance money, owners immediately began rebuilding. The arduous reconstruction ended up protecting the city against unemployment and poverty. Author Danielle Teigen describes the efforts and individuals who helped rebuild a stronger, better city. More than a century later, that resilience and determination continues to be a hallmark of the Gateway to the West.
