It's time for a new take on the Cork vs Dublin rivalry. Cork is more kefir cocktails than Tanora these days; Dublin reckons it's like Berlin because it has two intersecting tram lines. This book takes a 21st century look at the two places, asking who's got the better statues, food, airport, characters, pubs, views and more, answering Cork every time. The second city gets a bit of a roasting too though. Because if there's one thing worse than a Dub, it's a Cork person who reckons he lives in paradise, boy.

Captain Sir Tom Moore captured the hearts of a nation, as he walked 100 laps of his garden to raise money for the NHS. Captain Sir Tom wished to celebrate many other inspirational stories from this uncertain time, and with his blessing, these one hundred stories make a book of hope for the future. This is a book of gratitude for his inspiration, and a celebration of incredible everyday heroes from across the UK. These beautifully illustrated true stories of everyday heroes across the nation is introduced by Captain Sir Tom Moore's daughter, Hannah Ingram-Moore. During the pandemic we have found hope in unexpected places, and these one hundred stories of hope - written by Paralympian Danielle Brown MBE - show just how extraordinarily we can work together. We feature well-known stories such as Joe Wicks' family workouts, as well as equally astonishing stories of everyday heroes, such as dancing binmen and fancy-dress postal workers, who brought joy to their neighbourhoods. These are stories of courage and community, of everyday kindness and perseverance. From the

scientists racing to find a vaccine, to frontline workers putting themselves at risk, from clapping together to celebrate keyworkers, to breathing cleaner air, discover one hundred hopeful stories from an uncertain time. With lively and engaging illustrations, these are stories that will help you hope that tomorrow will be a good day. Because hope starts with one small step . . . Singleness has somehow become a word that carries with it a negative connotation, as if being single means there is something wrong with you. Comments such as "she's such a lovely girl, I wonder why she hasn't found a good man yet" are coupled with looks of pity and suggestions of how to meet someone. Well, I'm here to tell you that the negative connotation of singleness is BS. We learn faster, discover ourselves more deeply, and are overall happier and more content with life when we are single than when we are in an unsuitable relationship with another human being. Over the past decade, I've had four long-term relationships; none of which lasted. While I loved them, none of those men were the one. I believe that there is someone out there—that is, a man that will make my heart pound with excitement and my hands clam up— and I will not settle for less than that. During this time, I have embraced my singleness. I've discovered various reasons why, contrary to popular belief, it is truly great to be single. I am not lonely, I am not pining for affection, and I feel more alive than ever. I'm standing up for singleness, and I tell you, it feels great.

INSTANT NEW YORK TIMES BESTSELLER "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." – Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But *Factfulness* does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda Gates "*Factfulness* by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama *Factfulness*: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In *Factfulness*, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting

worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.

The Green Bay Packers are the last of the small-town teams that were once common in the NFL. The Pack and their fans, the devoted Cheeseheads, have won 13 league championships (more than any other team in the NFL), including 9 NFL championships prior to the Super Bowl era and 4 Super Bowl victories. Their stellar roster—Bart Starr, Ray Nitschke, Paul Hornung, Brett Favre, Aaron Rodgers, and of course, legendary coach Vince Lombardi—are all here, making history on the "frozen tundra" of Lambeau Field.

The exodus of the New York Giants and the Brooklyn Dodgers to the west after the 1957 season left a gaping hole in the fabric of the New York sports community. In 1962, the New York Mets stepped in to fill the void – an impossible task for any expansion team, but especially for this band of lovable losers in a city spoiled by the success of the New York Yankees. Led by the inimitable Casey Stengel, the '62 Mets set the mark for futility in major league baseball, winning a mere 40 games while losing 120. It didn't get much better in the ensuing years – until 1969. It was then that the Miracle Mets, just two years removed from losing 101 games, shocked the world, defeating the powerhouse Baltimore Orioles in the World Series, 4 games to 1. Seventeen years later, the bad boys of '86 pulled off one of the most remarkable comebacks in sports history when they defeated the cursed Boston Red Sox to win the Mets' second world championship. And in 2000, the Amazin' Mets fought their way into a Subway Series showdown with the crosstown rival Yankees. Along the way, throughout the ups and downs, the cast of characters, both Hall of Famers and underachievers, has rarely failed to entertain. Through vintage and modern photos, baseball cards, memorable stories, and sports trivia, 101 Reasons to Love the Mets celebrates this one-of-a-kind team.
