A memoir. "Em wanted to join but was never selected, yet he would go with to watch." To be left on the side line is not unusual for Em. South Africa, 1970. An autistic boy is born into the Coloured community during Apartheid. Talented and reaching for his goals, Em tries to fit in. He mimics his older brothers but still they do not include him. He wants to belong to a sports club but his elders enforce religion. He longs to explore his environment but the regime prevents it. Whether it is the games he is unable to join or being left out of conversations, he does not give up and stumbles on. His parents remain the pillars at his side and encourage him to be his peculiar self.

Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.
