Cinema both reflects life and contours life—that is its psychological power. And for decades, clinicians and educators have recognized the value of this power, using it to respectively heal in therapy and educate in the classroom. The Cinematic Mirror for Psychology and Life Coaching mines the illustrative value of cinema, offering therapists and life coaches access to ideas that can motivate and enlighten clients. Although many movie guides exist, this volume complements the available literature by adding positive psychology, mental health, and wellness perspectives to the clinical/educational/coaching mix. The serious intent to cull from cinema its underlying psychological value has motivated noted clinicians, life coaches, and cultural critics to offer science-based analysis and intervention strategies. Readers may add their own movie insights and professional expertise to this rich foundation. The volume covers international as well as domestic cinema in a variety of genres, providing a range of film choices relevant to clients’ lives. Beyond this, it expands on universal concepts of strengths, capabilities, and coping methods. Chapters in The Cinematic Mirror: analyze how movies can create and relieve trauma, challenge Hollywood’s portrayal of the American family, overview the use of movies to examine relationships in therapy, explore the acclaimed Up television cinema verite series as studies in personal growth and social change, reinterprets images of disability in terms of positive psychology, examines models, or the lack thereof, for the American adolescent rite of passage, traces the history of mental illness stereotypes in film. The collective wisdom found in The Cinematic Mirror for Psychology and Life Coaching will bring professionals involved in healing, coaching, counseling, education, and mentoring not only new applications but new appreciation for the transformative power of film. That power already exists. Readers just have to "SEE" it.

Advanced Korean offers a complete, systematic, and streamlined third-year course in Korean. It is ideal for university students and adult learners with plentiful reading texts and written exercises, all in Korean Hangul. Concise Korean grammar notes in English, extensive glossaries, and an answer key make this book suitable for those studying alone, as well as for classroom use. There are 20 comprehensive lessons, each with a reading text in which new language is introduced in context, followed by vocabulary, grammar points, and exercises. Lessons 5, 10, 15 and 20 are short reviews of the key structural patterns introduced. The focus is on written Korean, but the reading texts are not academic, they are breezy, chatty, and amusing, with illustrations. The textbook comes with a downloadable supplement entitled Sino-Korean Companion. It is for those learners wishing to commence the study of Chinese characters as they are used in the Korean language. The 20 lessons build on the content of the lessons in the main textbook to introduce 500 Chinese characters in their Sino-Korean readings. The emphasis is on giving students the tools they need to decipher unfamiliar Chinese characters on their own, and also on Sino-Korean vocabulary acquisition. Each lesson introduces approximately 25-30 new Chinese characters along with related vocabulary items, and builds on previous characters and vocabulary introduced, demonstrating the cumulative effect on one's vocabulary of paying systematic attention to Sino-Korean.

Beyond summarizing the three volumes on Persona, Shadow and Ego in the Map of the Soul series, this latest book explores the entire BTS album, start to finish, revealing profound insights into the collective psyche of BTS. The title of BTS's latest album, Map of the Soul: 7, captivates the mind with its suggestive and alluring imagery. It came as a surprise to many fans. Expected was an album that would follow upon Map of the Soul: Persona with songs about Shadow or Ego. While the new album does indeed include songs with these themes, it is much more complex and broader in vision than expected. The number 7 suggests mystery. It catches the mind's attention with its symbolic significance. What does this number mean in relation to the idea of a "map of the soul?" This book dives into this mystery and explores the unconscious reaches of our mind. Fans of BTS from around the world will marvel at the depth of meaning in the songs contained in Map of the Soul: 7. They take the listener into deep reflection upon the meaning of striving and ambition, the dangers of worldly success, and the amazing resiliency of the human spirit to recover and go on despite the pitfalls on life's journey. The songs themselves function as a map for souls who are setting out in life and engaging in challenging relationships. The songs are reflective, mirroring what we find within ourselves in our struggles to become and to thrive. When you stand on the threshold of a new land, it is useful to have a map as your guide. The great psychologist of the 20th Century, Carl Jung, created a Map of the Soul that many people in his time found more than a little helpful, even lifesaving. It is even more so now, for people in the 21st Century, caught in the profound complexities of modern life. Armed with this map, people are better able to find their way successfully through life's journey. Today, BTS is putting this map into the hands of their fans. For this great service we are profoundly very grateful.
