From the New York Times bestselling author of Through a Dog's Eyes—the inspiration for the PBS documentary—a paradigm-shifting approach to living with and loving our dogs There are few people who understand dogs better than Jennifer Arnold. Twenty-five years after she founded Canine Assistants, a nationally recognized nonprofit that raises and provides service dogs for people with disabilities, Arnold had an epiphany. She'd always approached the education of dogs with kindness and compassion—eschewing the faux science of fear and domination-based training methods. And she'd always understood dogs to be uniquely, uncannily attuned to their human companions; in fact she depended on it—she knew that the bond that developed between a person and their service dog was the single greatest predictor of that partnership's success and, conversely, failure to bond brought about anxiety and distress in dogs. But it wasn't until recent scientific findings confirmed her hands-on experience with dogs' intuitive social skills that she was willing to put this bold idea to the test: Dogs who bond with us completely and unconditionally will seek to please us and, with minimal cues, can learn to make remarkably sophisticated decisions about their own behavior. Sure, dogs can be taught commands such as "sit," "stay," and "heel," but even the kindest reward and punishment models were merely manipulating dogs' behavior, rather than unleashing their unique social genius and innate ability to navigate the world. In this groundbreaking, persuasive, and heartfelt book, Arnold shows us how every dog—no matter their age—can thrive through Bond-Based Choice Teaching. Her proprietary method has been hailed by leading canine behavioral scientists and is being adopted by notable dog trainers, advocates, humane societies, and puppies behind bars programs across the country. For this liberating, revolutionary method to succeed, Arnold says, love really is all you need. Advance praise for Love Is All You Need "Jennifer Arnold, who has trained service dogs for the past twenty years for people with physical disabilities, offers a window into the world of 'man's best friend.' Arnold, who believes that dogs are attuned to their owner's needs and emotions, shares tips she thinks every dog owner should know."—ABC News "[Arnold] takes pride in facilitating the powerful relationship between every service dog and its owner—a bond that is as much about companionship and comfort as it is about health and safety."—Everyday Health "Within the world of dogs and canine behavior there are only a handful of people who truly 'move the needle' when it comes to innovation, novel approaches, and intuitive thinking—Jennifer Arnold is one of those rare few. Constantly pushing boundaries of traditional thought, she not only provides fresh perspectives about how we interact with and learn from man's best friend, she fearlessly forges new paths that stimulate and engage dog lovers as well as behavior experts and explores possibilities which previously may have seemed out of reach."—Victoria Stilwell, star of Animal Planet's It's Me or the Dog and CEO of Victoria Stilwell Positively Dog Training

Althusser and Law is the first book specifically dedicated to the place of law in Louis Althusser's philosophy. The growing importance of Althusser's philosophy in contemporary debates on the left has - for practical and political, as well theoretical reasons - made a sustained consideration of his conception of law more necessary than ever. As a form of what Althusser called 'Ideological State Apparatuses', law is at the forefront of political struggles: from the destruction of Labour Law to the exploitation of Patent Law; from the privatisation of Public Law to the ongoing hegemony of Commercial Law; and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have something to teach us about how law is produced, and how it is used and misused? This collection demonstrates that Althusser's ideas about law are more important, and more contemporary, than ever. Indeed, the contributors to Althusser and Law argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life.

Communication and language disorders are often considered from one particular point of view - either psychological or neurological. Danon-Boileau argues that this is a serious mistake. He emphasizes that a child's trouble can stem from a variety of causes: neurological problems similar to those of aphasia, cognitive impairments, and psychological disorders, and, thus, the interaction of these elements needs to be taken into account. In precise case studies, Danon-Boileau describes the situations he has confronted and traces the causes of changes in the child when they happen. Combining linguistic, cognitive, and psychanalytic approaches, Children without Language provides a unique perspective on speech and communication disorders in children and will be an essential volume for speech therapists, developmental psychologists, linguistics scholars and anyone wishing to reflect seriously on why we speak and how communication occurs.

A beautiful and poignant celebration of the birth—and worth—of every child. Now in board book format!

Through the braided narratives of three spirited characters, this novel bears witness to the infamous crime that metastasized uber-civilized Montreal, the "Montreal Massacre," when on December 6, 1989, fourteen female engineering students were murdered in their classrooms. The novel focuses on the lives of Deirdre, a first-year female engineering student at Aquitaine, who takes a Women's Studies course as an elective and Marin, a student at Cantech who ponders what it means to be a female engineering student in such a chilly gendered climate. Everyone wants Marin at her party. Bohemian and beautiful, she is as passionate about constructing sets for theater and opera as she is about Trey, the one man she can finally trust. Deirdre is earnest and perceptive, but too naïve to know that frat boys can be dangerous, and she is drugged and raped at a party in an infamous men's residence. Jenean, a francophone female journalist working in both languages, is feisty and urbane, a feminist who longs for peace between the sexes even as she ponders splitting from her live-in partner. She finds herself on the killer's list of 19 women he would have liked to kill. Set in that tragic historic moment, on two college campuses fraught with gendered antagonisms, this novel tells the story of the victims, following the imagined lives of these women as they happen headlong into the December 6 tragedy -- a story disarmingly accurate that explores the profundity of deepest love and unimaginable loss. It follows them through a semester of college, from the crisp autumnal beginnings to that tragic winter. It does not end there. It then takes up with the families and survivors, examining the enduring effects of the massacre's 24 minutes of inarticulate inhumanity.
