

Africa World History 3rd Edition

Every year more colleges and high schools are offering classes (and often making them required classes) in black history. Joanne Turner-Sadler provides a concise and probing treatment of 400 years of black history in America that can be used with age groups ranging from lower high school to college. In *African American History: An Introduction* the author touches on key figures and events that have shaped African American culture beginning with a look at Africa and its various civilizations and the migration of the African people to America. Some essential topics covered are: the struggle with slavery, the role African Americans played in America's wars (including the current war in Iraq), race riots and unions, the NAACP, civil rights, and black power movements, the Harlem Renaissance, issues in education, the journey into the West, legal cases such as *Plessy vs. Ferguson* and *Brown vs. Board of Education*, African Americans as athletes, entertainers, and statesmen. This book is an indispensable addition to all library collections as well as a teaching tool for instructors. It is heavily illustrated (photos, maps, timelines) with useful end-of-the-chapter questions and activities for further study and includes a handy bibliography of suggested readings and an index. New in this edition is a section on the historic election of Barack Obama, the first African American president of the United States. Interesting connections Obama has to past presidents are explored as well. This edition also contains enhanced discussions of Colin Powell and Condoleezza Rice, and the historic positions both held.

This pioneering and celebrated work was the first, and remains the standard, account of the economic history of the huge area conventionally known as West Africa. The book ranges from prehistoric times to independence and covers the former French territories, as well as those colonised by the British. It criticises conventional beliefs about economic backwardness, offers an alternative account that explains the particular configuration of poverty that characterised the pre-colonial period, and assesses the consequences of the region's interaction with the wider world – from the growth of the Saharan and Atlantic trades to the rise and demise of colonial rule. This edition contains a substantial new Introduction that discusses the development of the subject during the past 50 years, evaluates the debate over the original interpretation, and provides a valuable guide to further reading, bringing the reader up to date with current scholarship on the subject, as well as providing avenues for further independent research. Appearing at a time when the study of African economic history is enjoying a revival and is engaging economists as well as historians, the book fills a large gap in African studies, provides newcomers with a stimulating point of entry into the subject, and contributes to our understanding of wider issues of global underdevelopment.

This major global history of the twentieth century is written by four prominent international historians for first-year undergraduate level and upward. Using their thematic and regional expertise, the authors cover events in Europe, Asia, the Middle East, Africa and the Americas from the last century and beyond. Among the areas this book covers are: the decline of European hegemony over the international order; the diffusion of power to the two superpowers; the rise of newly independent states in Asia and Africa; and, the course and consequences of the major global conflicts of the twentieth century. This second edition is thoroughly updated, and includes extended coverage of European integration, the rise of supra-governmental organizations, and the 'global War on Terror'.

Updated and revised to emphasise long-term perspectives on current issues facing the continent, the new 2nd Edition of *A History of Modern Africa* recounts the full breadth of Africa's political, economic, and social history over the past two centuries. Adopts a long-term approach to current issues, stressing the importance of nineteenth-century and deeper indigenous dynamics in explaining Africa's later twentieth-century challenges Places a greater focus on African agency, especially during the colonial encounter Includes more in-depth coverage of non-Anglophone Africa Offers expanded coverage of the post-colonial era to take account of recent developments, including the conflict in Darfur and the political unrest of 2011 in Egypt, Tunisia, and Libya

Nearly three thousand years ago the Phoenicians set up trading colonies on the coast of North Africa, and ever since successive civilizations have been imposed on the local inhabitants, largely from outside. Carthaginians, Romans, vandals, Byzantines, Arabs, TURks, French and Italians have all occupied the region in their time. The Romans governed this part of Africa for six hundred cities, twelve thousand miles of roads and hundreds of aqueducts, some fifty miles long. The remains of many of these structures can be seen today. At the height of its prosperity, during the second and third centuries AD, the area was the granary of Rome, and produced more olive oil than Italy itself. The broadening horizons of the Roman Empire provided scope for the particular talents of a number of Africa's sons: the writers Terence and Apuleius; the first African Roman Emperor Septimius Severus, famous Christian theologians like Tertullian and Saint Augustine - these are just some who rose to meet the challenges of their age. In a vast and all-embracing study of Africa, from the origins of mankind to the AIDS epidemic, John Iliffe refocuses its history on the peopling of an environmentally hostile continent. Africans have been pioneers struggling against disease and nature, and their social, economic and political institutions have been designed to ensure their survival. In the context of medical progress and other twentieth-century innovations, however, the same institutions have bred the most rapid population growth the world has ever seen. *Africans: The History of a Continent* is thus a single story binding living Africans to their earliest human ancestors.

This second edition is a concise history of Latin America from the Aztecs and Incas to Independence.

A record of all races and history of South Africa, featuring notable personalities and pivotal events.

Now fully revised and updated, this classic text offers an illustrated and critical narrative introduction to the history of Africa from earliest times to the present. Beginning with the evolution of mankind itself, the book traces the history of Africa through the millennia of the ancient world to the centuries of medieval and modern Africa. The clear and simple language and the wealth of carefully chosen maps and photos combine to make an essential and accessible text.

The new, fully-updated edition of the acclaimed textbook covering 200 years of African history *A History of Modern Africa* explores two centuries of the continent's political, economic, and social history. This thorough yet accessible text help readers to understand key concepts, recognize significant themes, and identify the processes that shaped the modern history of Africa. Emphasis is placed on the consequences of colonial rule, and the links between the precolonial and postcolonial eras. Author Richard Reid, a prominent scholar and historian on the subject, argues that Africa's struggle for economic and political stability in the nineteenth century escalated and intensified through the twentieth century, the effects of which are still felt in the present day. The new third edition offers substantial updates and revisions that consider recent events and historiography. Greater emphasis is placed on African agency, particularly during the colonial period, and the importance of the long-term militarization of African political culture. Discussions of the postcolonial period have been updated to reflect recent developments, including those in North Africa. Adopting a long-term approach to current African issues, this text: Explores the legacies of the nineteenth century and the colonial period in the context of the contemporary era Highlights the role of nineteenth century and long-term internal dynamics in Africa's modern challenges Combines recent scholarship with concise and effective narrative Features maps, illustrations, expanded references, and comprehensive endnotes A

History of Modern Africa: 1800 to the Present, 3rd Edition is an excellent introduction to the subject for undergraduate students in relevant courses, and for general readers with interest in modern African history and current affairs.

This history of African slavery from the fifteenth to the early twentieth centuries examines how indigenous African slavery developed within an international context. Paul E. Lovejoy discusses the medieval Islamic slave trade and the Atlantic trade as well as the enslavement process and the marketing of slaves. He considers the impact of European abolition and assesses slavery's role in African history. The book corrects the accepted interpretation that African slavery was mild and resulted in the slaves' assimilation. Instead, slaves were used extensively in production, although the exploitation methods and the relationships to world markets differed from those in the Americas. Nevertheless, slavery in Africa, like slavery in the Americas, developed from its position on the periphery of capitalist Europe. This new edition revises all statistical material on the slave trade demography and incorporates recent research and an updated bibliography.

Readers learn about the connections among world societies - from regional to global. Connections: A World History is a reader-centered text that focuses on connections within and among world societies. Concise, engaging chapters and a clear narrative make the often overwhelming amount of information in world history accessible to a wide range of readers. A uniquely comprehensive and consistent map program is combined with strong pedagogical support for increased understandability. The authors' focus on connections offers a useful and compelling framework for understanding how and why peoples and societies change over time. Note: MyHistoryLab does not come automatically packaged with this text. To purchase MyHistoryLab, please visit www.MyHistoryLab.com or use ISBN: 9780205216529.

A second edition of this book is now available. In a compact but comprehensive and clear narrative, this book explores the First World War from a genuinely global perspective. Putting a human face on the war, William Kelleher Storey brings to life individual decisions and experiences as well as environmental and technological factors such as food, geography, manpower, and weapons. Without neglecting traditional themes, the author's deft interweaving of the role of environment and technology enriches our understanding of the social, political, and military history of the war, not only in Europe, but throughout the world.

In 1870 barely one tenth of Africa was under European control. By 1914 only about one tenth – Abyssinia (Ethiopia) and Liberia – was not. This book offers a clear and concise account of the 'scramble' or 'race' for Africa, the period of around 20 years during which European powers carved up the continent with little or no consultation of its inhabitants. In her classic overview, M.E. Chamberlain: Contrasts the Victorian image of Africa with what we now know of African civilisation and history Examines in detail case histories from Egypt to Zimbabwe Argues that the history and background of Africa are as important as European politics and diplomacy in understanding the 'scramble' Considers the historiography of the topic, taking into account Marxist and anti-Marxist, financial, economic, political and strategic theories of European imperialism This indispensable introduction, now in a fully updated third edition, provides the most accessible survey of the 'scramble for Africa' currently available. The new edition includes primary source material unpublished elsewhere, new illustrations and additional pedagogical features. It is the perfect starting point for any study of this period in African history. Explore centuries of history with this stimulating quiz game. This new edition of our best-seller, World History Challenge, learning important historical facts is more fun and effective.

For the NEW 2020 Exam AP(R) World History: Modern Crash Course(R) A Higher Score in Less Time At REA, we invented the quick-review study guide for AP(R) exams. A decade later, REA's Crash Course(R) remains the top choice for AP(R) students who want to make the most of their study time and earn a high score. Here's why more AP(R) teachers and students turn to REA's AP(R) World History: Modern Crash Course(R) Targeted, Focused Review - Study Only What You Need to Know REA's new 3rd edition addresses all the latest test revisions taking effect through 2020. Our Crash Course(R) is based on an in-depth analysis of the revised AP(R) World History: Modern course description outline and sample AP(R) test questions. We cover only the information tested on the exam, so you can make the most of your valuable study time. Expert Test-taking Strategies and Advice Written by Jay Harmon, a seasoned AP(R) World History teacher and former member of the College Board's AP(R) World History Test Development Committee, the book gives you the topics and critical context that will matter most on exam day. Crash Course(R) relies on the author's extensive, strategic analysis of the test's structure and content. The author presents detailed, question-level strategies for answering all AP(R) World History question types. By following his advice, you can boost your score in every section of the test. Practice questions - a mini-test in the book, a full-length exam online. Are you ready for your exam? Try our focused practice set inside the book. Then go online to take our full-length practice exam. You'll get the benefits of timed testing, detailed answers, and automatic scoring that pinpoints your performance based on the official AP(R) exam topics - so you'll be confident on test day. Whether you're cramming for the exam or looking to recap and reinforce your teacher's lessons, Crash Course(R) is the study guide every AP(R) student needs. About the Author: Jay P. Harmon earned his B.S. and M.Ed. from Louisiana State University, Baton Rouge, Louisiana. He began his teaching career in 1982 and has taught in public and private schools in Louisiana and Texas. Mr. Harmon has taught AP(R) European History, AP(R) United States History, and AP(R) World History. He was an exam essay reader in AP(R) European History and AP(R) United States History and has been a table leader and question leader in AP(R) World History since the exam was first administered in 2002. His AP(R) European History and AP(R) World History websites (www.harmonhistory.com) have been go-to resources for students and teachers for more than a decade. Since 1998, Mr. Harmon has served as a consultant to the College Board(R), holding workshops and summer institutes in the United States and abroad. He has also contributed to the development of several

history textbooks.

Completely updated to include with new chapters, this is second edition is a fascinating exploration of what happens to established ideas about men and women, and their roles, when different cultural systems come into contact.

In this third edition of *East Africa: An Introductory History*, Robert M. Maxon revisits the diverse eastern region of Africa, including the modern nations of Kenya, Tanzania, and Uganda. With revised sections and a new preface, this comprehensive text surveys East Africa's political, economic, and social history from pre-colonial to modern times. Maxon reveals the physical movement and societal development of and between ethnic groups before the 1890s; the capitalistic impact of European colonialism in the early nineteenth century; and the achievement and aftermath of independence in East Africa during the later part of this century. *East Africa: An Introductory History, 3rd and Revised Edition* offers the student and scholar: * the only revision of this title in over a decade * a complete index and glossary of African terms that promote an effortless navigation of the complex history of this region * over twenty maps and diagrams that provide visual depictions of the development of eastern Africa * detailed geographical and topographical analysis that supplement the historical scope and investigation of this region *East Africa: An Introductory History* documents the transformation of East Africa from the Stone Age to the first decade of the twenty-first century. The book is ideal for any reader interested in unraveling the intricate history of this East Africa, and especially for students coming to the study of this region for the first time.

Examines how global events have affected the lives of the people of Africa's smallest country over the past eight centuries.

This fourth edition of this best-selling core history textbook offers a richly illustrated, single volume, narrative introduction to African history, from a hugely respected authority in the field. The market-leading range of illustrated material from prior editions is now further improved, featuring not only additional and redrawn maps and a refreshed selection of photographs, but the addition of full colour to make these even more instructive, evocative and attractive. Already hugely popular on introductory African History courses, the book has been widely praised for its engaging and readable style, and is unrivalled in scope, both geographically and chronologically - while many competitors limit themselves to certain regions or eras, Shillington chronicles the entire continent, from prehistory right up to the present day. For this new edition, both content and layout have been thoroughly refreshed and restructured to make this wealth of material easily navigable, and even more appealing to students unfamiliar with the subject.

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- Provides a view of African history in the wider context of world history. *Africa in World History* is the first comprehensive survey to illustrate how Africans have influenced regions beyond their continent's borders, how they have been influenced from the outside and how internal African developments can be compared to those elsewhere in the world. By identifying and presenting key debates within the field of African history, this volume encourages students to confront the many oversimplified myths regarding Africa and its people. Note: MySearchLab does not come automatically packaged with this text. To purchase MySearchLab at no extra charge, please visit www.MySearchLab.com or use ISBN: 9780205098491.

The World and a Very Small Place in Africa is a fascinating look at how contacts with the wider world have affected how people have lived in Niimi, a small and little-known region at the mouth of West Africa's Gambia River, for over a thousand years. Drawing on archives, oral traditions and published works, Donald R. Wright connects world history with real people on a local level through an exploration of how global events have affected life in Niimi. Thoroughly revised and updated throughout, this new edition rests on recent thinking in globalization theory, reflects the latest historiography and has been extended to the present day through discussion of the final years of Gambian President Yahya Jammeh's regime, the role of global forces in the events of the 2016 presidential elections and the changes that resulted from these elections. The book is supported throughout by photographs, maps and Perspectives boxes that present detailed information on such topics as Alex Haley's *Roots* (part set in Niimi), why Gambians take the risky "back way" to reach Europe, or "Wiri-Wiri," the Senegalese soap that has Gambians' attention. Written in a clear and personal style and taking a critical yet sensitive approach, it remains an essential resource for students and scholars of African history, particularly those interested in the impact of globalization on the lives of real people.

"*East Africa: An Introductory History* documents the transformation of East Africa from the Stone Age to the first decade of the twenty-first century. The book is ideal for any reader interested in unraveling the intricate history of East Africa, and especially for students coming to the study of this region for the first time."--BOOK JACKET.

In this third edition of *Migration in World History*, Patrick Manning presents an expanded and newly coherent view of migratory processes, conveying new research and interpretation. The engaging narrative shows the continuity of migratory processes from the time of foragers who settled the earth to farmers opening new fields and merchants linking purchasers everywhere. In the last thousand years, accumulation of wealth brought capitalism, industry, and the travels of free and slave migrants. In a contest of civilizational hierarchy and movements of emancipation, nations arose to replace empires, although conflicts within nations expelled refugees. The future of migration is now a serious concern. The new edition includes: An introduction to the migration theories that explain the shifting patterns of migration in early and recent times Quantification of changes in migration, including international migration, domestic urbanization, and growing refugee movements A new chapter tracing twenty-first-century migration and population from 2000 to 2050, showing how migrants escaping climate change will steadily outnumber refugees from other social conflicts While migration is often stressful, it contributes to diversity, exchanges, new perspectives, and innovations. This comprehensive and up-to-date view of migration will stimulate readers with interests in many fields.

From the school yards of the South Bronx to the tops of the "Billboard" charts, rap has emerged as one of the most influential cultural forces of our time. This pioneering anthology brings together more than 300 lyrics written over 30 years, from the "old school" to the present day.

Since the publication of the first edition of this book in 1977, Africa has established itself as the most popular introductory text for African studies courses in North America. This third edition has been completely revised and brought up to date since the 1986 edition, reflecting changes in African society and politics, and in the scholarship available on this vast and complex continent. Contents I. Introduction 1. Africa: Problems and Perspectives. Phyllis M. Martin and Patrick O'Meara 2. The Contemporary Map of Africa. Michael L. McNulty II. The African Past 3. Prehistoric Africa. Invaluable to students and those approaching the subject for the first time, *An Introduction to International Relations, Second Edition* provides a comprehensive and stimulating introduction to international relations, its traditions and its changing nature in an era of globalisation. Thoroughly revised and updated, it features chapters written by a range of experts from around the world. It presents a global perspective on the theories, history, developments and debates that shape this dynamic discipline and contemporary world politics. Now in full-colour and accompanied by a password-protected companion website featuring additional chapters and case studies, this is the indispensable guide to the study of international relations.

As well as over 4000 clear and concise entries, this dictionary also contains biographies of key figures in world history. Other useful features include, subject entries on religious and political movements, maps, and full international coverage.

For more than 60 years, instructors and their students have looked to Penguin trade paperbacks for state-of-art scholarship, accessibility, and fair prices. Prentice Hall, Penguin's sister company, meets these same expectations with textbooks in its Penguin Academic series. We've created the Penguin Academic series with ease of use in mind---the books are conveniently portable and highly readable, with engaging typefaces and simple, uncluttered designs. Concise yet thorough in their coverage of the basics, Penguin Academics titles are ideal for use either by themselves or in combination with other books. See the last page for suggested Penguin titles that can be packaged with *The World: A History*. This textbook manages to strike elusive balances between sophistication and accessibility, breadth and focus, and coherence and specifics, especially when it comes to incorporating recent discoveries and cutting-edge theory.... As far as I'm concerned, this is the Holy Grail in teaching global history. Steven Stofferahn, Indiana State University *The World: A History* interweaves two stories: the story of our interactions with nature and the story of our interactions with each other. Both stories have been going on for thousands of years. Like the full-length volume, this concise version is a text that combines impeccable scholarship, an engaging narrative, and inclusive coverage. With its compact format, affordable price, and numerous maps and illustrations, *The World: A History, Penguin Academic Edition*, is the right choice for students and instructors.

South Africa: The Rise and Fall of Apartheid examines the history of South Africa from 1948 to the present day, covering the introduction of the oppressive policy of apartheid when the Nationalists came to power, its mounting opposition in the 1970s and 1980s, its eventual collapse in the 1990s, and its legacy up to the present day. Fully revised, the third edition includes: new material on the impact of apartheid, including the social and cultural effects of the urbanization that occurred when Africans were forced out of rural areas analysis of recent political and economic issues that are rooted in the apartheid regime, particularly continuing unemployment and the emergence of opposition political parties such as the Economic Freedom Fighters an updated Further Reading section, reflecting the greatly increased availability of online materials an expanded set of primary source documents, providing insight into the minds of those who enforced apartheid and those who fought it. Illustrated with photographs, maps and figures and including a chronology of events, glossary and Who's Who of key figures, this essential text provides students with a current, clear, and succinct introduction to the ideology and practice of apartheid in South Africa.

Basil Davidson's famous book -- now updated in a welcome Third Edition -- reviews the social and political history of Africa in the twentieth century. It takes the reader from the colonial era through the liberation movements to independence and beyond. It faces squarely the disappointments and breakdowns that have dulled the early successes of the post-colonial era; yet, for all the sorrows and uncertainties of Africa today, Basil Davidson shows how much has been achieved since decolonization, and the mood of his new final chapter is hopeful and buoyant.

The physical and human geography of Sub-Saharan Africa are explored with a systematic, thematic approach in this multi-faceted reference. Designed to expose readers to a variety of contemporary ideas, theories, and concepts in African geography—and their applicability in “real world” situations—each chapter is written by an expert in the field. Key definitions and basic geographic principles are specified in each chapter, providing a more comprehensive view of the themes presented. Completely revised, this edition examines recent developments and data that are important to understanding the geography of the region. Introduction; Understanding Africa in a Global Context; The Physical Environment; Human-Environmental Impacts: Forest Degradation and Desertification; Historical Geography of Sub-Saharan Africa: Opportunities and Constraints; Political Landscape of Sub-Saharan Africa: From Instability to Democratization?; Culture, Conflict, and Change in Sub-Saharan Africa; Population Geography of Sub-Saharan Africa; Geography and Development in Sub-Saharan Africa; Transport, Communication, and Information Technologies in Sub-Saharan Africa: Digital Bridges Over Spatial Divides; Urban Geography of Sub-Saharan Africa; Geography, Gender, and Development in Sub-Saharan Africa; Medical Geography of Sub-Saharan Africa; Agricultural Development in Sub-Saharan Africa; Spatial Organization and Distribution of Economic Activity: Industry, and Entrepreneurship in Africa; Looking Ahead: Prospects for Africa in a New Global Economy. A useful reference for anyone interested in learning more about current issues in sub-Saharan Africa.

Filling a gap in a field with very few teaching books available, *Childhood in World History* provides a much-needed historical overview. Studying childhood historically greatly advances our understanding of what childhood is about, and a world history focus permits broad questions to be asked. Peter N. Stearns, an esteemed name in the field, focuses on childhood in several ways: childhood across change – the shift from hunting and gathering to an agricultural society, the impact of civilization, and the emergence of major religions new and old debates about the distinctive features of Western childhood, including child labour the emergence of a modern, industrial pattern of childhood in the West, Japan and communist societies, focusing on education and economic independence globalization and the spread of child-centred consumerism. Highlighting the gains, the

divisions, and the losses for children across the millennia, this fascinating book will appeal to students across the board, and will prove an excellent teaching resource. There is a paradox about Africa: it remains a subject that attracts considerable attention yet rarely is there a full appreciation of its complexity. African historiography has typically consisted of writing Africa for Europe—instead of writing Africa for itself, as itself, from its own perspectives. The History of Africa redresses this by letting the perspectives of Africans themselves take center stage. Authoritative and comprehensive, this book provides a wide-ranging history of Africa from earliest prehistory to the present day—using the cultural, social, political, and economic lenses of Africa as instruments to illuminate the ordinary lives of Africans. The result is a fresh survey that includes a wealth of indigenous ideas, African concepts, and traditional outlooks that have escaped the writing of African history in the West. The new edition includes information on the Arab Spring, the rise of FrancAfrica, the presence of the Chinese in Africa, and the birth of South Sudan. The chapters go up to the present day, addressing US President Barack Obama's policies toward Africa. A new companion website provides students and scholars of Africa with access to a wealth of supporting resources for each chapter, including images, video and audio clips, and links to sites for further research. This straightforward, illustrated, and factual text allows the reader to access the major developments, personalities, and events on the African continent. This groundbreaking survey is an indispensable guide to African history.

This fully updated edition reflects the recent development successess experienced in Africa, as well as the growing divergence between countries that are engaging with the global economy and those that remain more insular.

"Examines the full range of African-European encounters from an unfamiliar African perspective rather than from the customary European one"--Publisher description.

This authoritative, widely adopted text provides a broad introduction to the geography of Africa south of the Sahara. The book analyzes the political, economic, social, and environmental processes that shape resource use and development in this large, diverse region. Students gain a context for understanding current development debates and addressing questions about the nature and sustainability of contemporary changes. Timely topics include the rise of foreign investment in Africa, the evolving geographies of rural-urban linkages, the birth of the Republic of South Sudan, and advances in the struggle against HIV/AIDS. New to This Edition: *Fully updated to reflect the latest data and trends in development. *Chapters on development theory, cultural and societal diversity, the political geography of postindependence Africa, economic integration, and the geography of poverty. *Substantially revised coverage of gender dynamics, urban living environments, mineral and energy resources, and many other topics. Pedagogical Features *Vignettes in every chapter that provide detailed case studies from a variety of countries and elaborate on key concepts. *Recommendations for further reading on each topic, including print and online sources. *Companion website with downloadable PowerPoint slides of all original figures, photos, and tables. *An extensive glossary.

Presents a reference guide that provides authoritative maps, charts, and chronologies complemented by informative essays covering all the major periods of human history between the time of the Neanderthals and the nuclear age.
