Showing a strong comparative commitment, the contributions include studies on previously neglected data on case and predicative structures in Icelandic and other Germanic languages, on the (non-)syntactic distinction of predicative vs. argument NP/DPs, on quirky V2 in Afrikaans, the pronominal system, resumptive pronouns with relative clauses in Zurich German, as well as historical papers on word-formation processes, on auxiliary selection in relation to counter factuality, and on the development of VO-OV orders in the history of English.
