Challenges in the educational arena are not new phenomena. However, with the recent outbreak of the COVID-19 pandemic, researchers and educators have been made even more aware of the need for a paradigm shift in education. Blended learning, as opposed to fully online learning or traditional face-to-face teaching, has been well-researched and has been found to have the potential to provide better educational solutions in challenging contexts. These contexts range from pandemic situations where social distancing is the order of the day to financial and time constraints regarding full-time study, as well as limited physical capacity at institutions. Blended learning solutions are often designed for resourceful institutions and cannot be easily implemented in developing countries and in communities where resources are limited. Typical issues like connectivity, accessibility, lack of suitable devices, and affordability need to be taken into consideration and in cognizance of blended learning interventions. These challenges are often neglected in blended learning research but are critical discussions to be had. Re-Envisioning and Restructuring Blended Learning for Underprivileged Communities shares how institutions in the developing world and less privileged communities have re-imagined and restructured blended education to enhance teaching and learning for underprivileged communities. This book aims to address blended learning solutions across institutional, program, course, and activity levels. The chapters will cover a variety of learning environments, from rural settings to less developed countries and more, and explore the programs and courses designed to improve student success and accessibility in diverse student populations. This book is ideally intended for teachers, administrators, teacher educators, practitioners, stakeholders, researchers, academicians,

and students who are interested in blended learning opportunities in less-privileged settings and to underserved and marginalized populations.

Study & Master Physical Sciences Grade 10 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Physical Sciences. The innovative Teacher's File includes: * guidance on the teaching of each lesson for the year * answers to all activities in the Learner's Book * assessment guidelines * photocopiable templates and resources for the teacher

Suitable for school pupils aged 11–18, this Handbook covers everything you need to help you communicate in English. For students, this reference book:• is a practical guide to using English in all situations• may be used in the classroom or for independent home study• contains rules and explanations written in a simple, logical format to help you improve your English• provides tests on each section to help assess your progress and reinforce learning. Sections include:• Language • Literature• Analysing texts• Visual analysis• The writing process• Public speaking (oral communication). In addition there are self-tests on each major section.

Study & Master Physical Sciences Grade 12 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Physical Sciences.

Includes Publications received in terms of Copyright act no. 9 of 1916.

Study & Master Life Sciences was developed by practising teachers, and covers requirements per RNCS

"Common Core Achieve: Mastering Essential Test Readiness Skills is designed to help you learn or strengthen the skills you need when you take your high school equivalency test."--Page v.

The search for a means to an end to apartheid erupts into conflict between a black township youth and his "old-fashioned" black teacher.

Study & Master Life Sciences Grade 10 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Life Sciences. The comprehensive Learner's Book includes: * an expanded contents page indicating the CAPS coverage required for each strand * a mind map at the beginning of each module that gives an overview of the contents of that module * activities throughout that help develop learners' science knowledge and skills as well as Formal Assessment tasks to test their learning * a review at the end of each unit that provides for consolidation of learning * case studies that link science to real-life situations and present balanced views on sensitive issues. * 'information' boxes providing interesting additional information and 'Note' boxes that bring important information to the learner's attention

By working through this Study Guide you will definitely improve your results - whether you are working towards being the top performer in your class or whether you regularly break out in a sweat when you have to present your test scores or school report at home! Experienced educators and examiners have put together this marvellous resource that provides you with: Explanations, activities and exercises and their answers for each knowledge area Tips on how to study science and to prepare for all kinds of formal assessment Additional information on science skills, rules and conventions Exemplar examination papers for you to work through and their answers A glossary of science terms used in Grade 10 Life Sciences This Study & Master Study Guide is written to guide you through the content of the NCS for Life Sciences.

Study & Master Mathematical Literacy Grade 10 has been especially developed by an experienced author team according to the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Mathematical Literacy. The Teacher's File includes: * a weekly teaching schedule, divided into the four terms to guide the teacher on what to teach * extra project templates for teachers to choose from * solutions to all the activities in the Learner's Book.

Study & Master Agricultural Sciences Grade 10 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Agricultural Sciences. The comprehensive Learner's Book includes: * an expanded contents page indicating the CAPS coverage required for each topic * activities throughout that help develop learners' knowledge and skills * revision tasks and review at the end of each module that provides for consolidation of learning * case studies that link science to real-life situations and present balanced views on sensitive issues * 'information' boxes providing interesting additional information and 'Note' boxes that bring important information to the learner's attention * Glossary boxes to explain unfamiliar and difficult terms

Study & Master Accounting was developed by practising teachers, and covers the RNCS for Accounting.

A child wanders too far into the Knysna Forest ... he never returns. Nine years later government officials working on a census find a white child living with a Coloured family in the mountains beyond the forest. They take him away from the stricken Fiel, who has brought him up as her son, and give him back to his 'original' family. Stunned and helpless, Benjamin waits for Fiel to reclaim him. But, powerless against authority, Fiel never comes. Benjamin has to grow up before he can go in search of the truth ...

The Little Oxford Dictionary and Thesaurus provides an authoritative dictionary and an extensive easy-to-use thesaurus all in one. Designed to be a convenient and comprehensive reference work, individual entries contain both dictionary definitions for an accurate and up-to-date guide to the language as well as thesaurus synonyms to increase your vocabulary and improve your style. Where thesaurus synonyms are slang, derogatory or old-fashioned uses of words, they are labelled to give you guidance. This new 'Little' Oxford book will be useful on many occasions, from writing a letter to solving a crossword puzzle.

Study & Master Mathematical Literacy was developed with the help of practising teachers, and covers all the requirements of the National Curriculum Statement for Mathematical Literacy. Learner's Book: • module openers, which clearly explain the outcomes • key skills boxes, detailing the skills necessary to perform certain mathematical functions • language skills activities, to assist in mastering the language of Mathematical Literacy • assessment activities • module reviews, which provide extra practice • projects, which deal with issues related to the real world, and move learners beyond the confines of the classroom Teacher's Guide: • an overview of the RNCS • an introduction to outcomes-based education • a detailed look at the Learning Outcomes and Assessment Standards for Mathematical Literacy, and how much time to allocate to each during the year • information on managing assessment • solutions to all the activities/exercises in the Learner's Book •
