Soap operas and telenovelas are watched by millions of people around the world every day. As cultural, social, and economic phenomena, examining them will further our understanding of the role of global media content in the digital age. Moreover, as these programs continue to be exported and transformed at regional levels, and through digitalization, it is more important than ever to analyze where the genre has been, where it is now, and where it is going.
 This collection brings together original scholarship from an international and trans-disciplinary perspective. Chapters address timely issues, theories, and debates that are inextricably linked to soap operas and telenovelas as global industries, as sites for new audiences, and as hybrid cultural products within the digital landscape. Bringing depth and originality to the subject area, each chapter demonstrates the richness of these genres and their long-term significance as the televisual landscape evolves and becomes increasingly reliant on technological and creative innovations.

FOR DISTRIBUTION OUTSIDE THE USA. In *The Land Between*, author Jeff Manion uses the biblical story of the Israelite's journey through Sinai desert as a metaphor for being in undesired, transitional space. After enduring generations of slavery in Egypt, the descendants of Jacob travel through the desert (the land between) toward their new home in Canaan. They crave the food of their former home in Egypt and despise their present environment. They are unable to go back and incapable of moving forward. *The Land Between* explores the way in

which their reactions can provide insight and guidance on how to respond to God during our own seasons of difficult transition. The book provides fresh biblical insight for people traveling through undesired transitions (e.g. foreclosure, unemployment, parents in declining health, post-graduate uncertainty, business failure, etc.) who are looking for hope, guidance, and encouragement. While it is possible to move through transitions and learn little, they provide our greatest opportunity for spiritual growth. God desires to meet us in our chaos and emotional upheaval, and he intends for us to encounter his goodness and provision during these upsetting seasons.

'I immersed myself in magic. I read every book I could get my hands on and practised and practised, day after day and night after night. Magic became my world...some might say an obsession.' When you're a kid life can seem tough; tougher for some than others. But the darkest of times can also be the most enlightening. The nation-state of Trinidad and Tobago offers a unique nation-space, as Homi K Bhabha would say, for the study of the forces and ideologies of nationalism. This book reveals how this ethnically diverse nation, independent for less than forty years, has provided fertile ground for the creative tension between the imagination of the writer and the official discourse on nationalism. Harney argues that this discourse has in turn been embedded in a struggle that propelled the nation's story. He explores the influences on the sense of national identity caused by migration and the ethnicization of migrant communities in the cities. Adding to the comparative tone of much of this book, models of nationalism and ethnicity, often based on other societies, are tested against the imaginings of Trinidad by such essayists as VS Naipaul, CLR James, Willi Chen, Valerie Belgrave and Earl Lovelace. Using the wealth of imaginative literature produced by Trinidadians at home and abroad over the last forty years, together with

European-based scholarship on theories of nationalism, this book provides a fascinating understanding of the forging of a national identity.
