Ten years after the publication of the foundational edited collection *Folklore and the Internet*, Andrew Peck and Trevor J. Blank bring an essential update of scholarship to the study of digital folklore, *Folklore and Social Media*. A unique virtual, hybridized platform for human communication, social media is more dynamic, ubiquitous, and nuanced than the internet ever was by itself, and the majority of Americans use it to access and interact with digital source materials in more advanced and robust ways. This book features twelve chapters ranging in topics from legend transmission and fake news to case studies of memes, joke cycles, and Twitter hashtag campaigns and offers fresh insights on digital heritage and web archiving. The editors and contributors take both the “digital” and “folklore” elements seriously because social media fundamentally changes folk practices in new, though often invisible, ways. Social media platforms encourage hybrid performances that appear informal and ordinary while also offering significant space to obfuscate backstage behaviors through editing and retakes. The result is that expression online becomes increasingly reminiscent of traditional forms of face-to-face interaction, while also hiding its fundamental differences. *Folklore and Social Media* demonstrates various ways to refine methods and analyses in order to develop a better understanding of the informal and traditional dynamics that define an era of folklore and social media. It is an invaluable addition to the literature on digital folklore scholarship that will be of interest to students and scholars alike. Contributors: Sheila Bock, Peter M. Broadwell, Bill Ellis, Jeana Jorgensen, Liisi Laineste, John Laudun, Linda J. Lee, Lynne S. McNeill, Ryan M. Milner, Whitney Phillips, Vwani Roychowdhury, Timothy R. Tangherlini, Tok Thompson, Elizabeth Tucker, Kristiana Willsey

Ghosts and other supernatural phenomena are widely represented throughout modern culture. They can be found in any

number of entertainment, commercial, and other contexts, but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them, based on tradition or direct experience. Personal belief and cultural tradition on the one hand, and popular and commercial representation on the other, nevertheless continually feed each other. They frequently share space in how people think about the supernatural. In *Haunting Experiences*, three well-known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts. Diane E. Goldstein, Sylvia Ann Grider, and Jeannie Banks Thomas take ghosts seriously, as they draw on contemporary scholarship that emphasizes both the basis of belief in experience (rather than mere fantasy) and the usefulness of ghost stories. They look closely at the narrative role of such lore in matters such as socialization and gender. And they unravel the complex mix of mass media, commodification, and popular culture that today puts old spirits into new contexts.

Ghosts! Curses! Hoaxes! Unsolved mysteries! Paranormal events! Take a walk on the creepy side of North America's National Parks! Andrea Lankford, a 12-year veteran ranger with the National Park Service, has written a thoroughly investigated yet often tongue-in-cheek guidebook that takes the reader to the scariest, most mysterious places inside North America's National Parks. Lankford shares such eerie tales as John Brown's haunting of Harper's Ferry, the disembodied legs that have been seen running around inside the Mammoth Cave Visitor Center, and the "wailing woman" who roams the trail behind the Grand Canyon Lodge. Lankford also uncovers paranormal activities park visitors have experienced, such as the chupacabra that roams the swamps inside Big Thicket National Preserve and the teenage bigfoot who rolled a park service campground with toilet paper. She also reports on long-forgotten unsolved murders,

such as the savage stabbing of a young woman on Yosemite's trail to Mirror Lake, and the execution style shooting of two General Motors executives at Crater Lake. The witnesses to the supernatural occurrences are highly credible people—rangers, park historians, river guides, and the like—and each tale has factual relevance to the cultural or natural history of the park. *Haunted Hikes* provides readers with all the information they need: for each hike: a "fright factor rating" is listed along with trailhead access information, detailed trail maps, and hike difficulty levels. Most of the haunted sites included in the book can be reached by the average hiker, some are wheelchair accessible, and others are for intrepid backpackers willing to make multi-day treks into wilderness areas. Intriguing photographs of many sites are included. *Haunted Hikes* is sure to satisfy readers looking for those spine-tingling moments when you begin to wonder if maybe, just maybe, we are not alone.

The cult-y pocket-size field guide to the strange and intriguing secrets of the Mojave—its myths and legends, outcasts and oddballs, flora, fauna, and UFOs—becomes the definitive, oracular book of the desert. For the past five years, *Desert Oracle* has existed as a quasi-mythical, quarterly periodical available to the very determined only by subscription or at the odd desert-town gas station or the occasional hipster boutique, its canary-yellow-covered, forty-four-page issues handed from one curious desert zealot to the next, word spreading faster than the printers could keep up with. It became a radio show, a podcast, a live performance. Now, for the first time—and including both classic and new, never-before-seen revelations—*Desert Oracle* has been bound between two hard covers and is available to you. Straight out of Joshua Tree, California, *Desert Oracle* is “The Voice of the Desert”: a field guide to the strange tales, singing sand dunes, sagebrush trails, artists and aliens, authors and oddballs, ghost towns and modern legends, musicians and mystics, scorpions and saguaros, out there in the sand. *Desert Oracle* is your companion at a roadside diner, around a campfire, in your tent or cabin (or high-rise apartment or suburban living room) as the wind and the coyotes howl outside at night. From journal entries of long-deceased adventurers to stray railroad ad copy, and musings on everything from desert flora, rumored cryptid sightings, and other paranormal phenomena, Ken Layne's *Desert Oracle* collects the weird and the wonderful of the American Southwest into a single, essential volume.

Cooper"... For every instance rationalized away, there is another that defies explanation...

There are many strange stories that just cannot be explained. This is a collection of reported mysterious disappearances, odd happenings, sightings of little people and very strange, unexplained tales. The following stories are a glimpse into a world that lies on the fringes of our reality. Only occasionally will these mysteries reveal themselves. This is one of those times.

In every corner of this earth there are secrets. They are hidden in the dark edge of the woods, nestled in the cold stars, and staring out from a stranger's eyes. And whether they be demonic possession or an unsolved murder, the unknown

has always haunted our dreams. From the hit podcast Unexplained comes a volume perfectly crafted for the curious, the cynical, and the not-easily-frightened. Richard Maclean Smith is the expert in the unknown, and humbly offers up ten tales of real-life events that continue to evade explanation. With these chilling stories comes the missing key: a connection to our own beliefs in science, superstition, and perception. What can a case of demonic possession teach us about free will? What can a cursed box show us about the act of storytelling? What can a supposed instance of reincarnation tell us about developing a concept of the self? Perhaps some things are just better left unexplained... Author M.L. Behrman opens his cabinet of curiosities to bring you a deliciously spooky and bizarre collection of true accounts featuring everything from UFOs, unknown creatures, ghosts, hideous murders, demonic cults and some of the weirdest and most puzzling events ever to come out of the great Mojave Desert. Considered "the Rod Serling of the desert", M.L. Behrman offers an intensely interesting and perplexing assortment of stories from witnesses, both modern and historical, detailing their encounters with things that left them shaken, terrified - or worse! Fans of the supernatural and paranormal will find Mojave Mysteries a thrilling addition to their libraries and collections of strange, bizarre and unknown phenomenon.

A night when everyone started disappearing, one after another, and in the end, only one remained. A night that none of us will never forget.
