This beloved celebration of individuality is now an original movie on Disney+! A modern-day classic and New York Times bestseller from Newbery Medalist Jerry Spinelli. Stargirl. From the day she arrives at quiet Mica High in a burst of color and sound, the hallways hum with the murmur of "Stargirl, Stargirl." She captures Leo Borlock's heart with just one smile. She sparks a school-spirit revolution with just one cheer. The students of Mica High are enchanted. At first. Then they turn on her. Stargirl is suddenly shunned for everything that makes her different, and Leo, panicked and desperate with love, urges her to become the very thing that can destroy her: normal. In this celebration of nonconformity, Newbery Medalist Jerry Spinelli weaves a tense, emotional tale about the perils of popularity and the thrill and inspiration of first love. "Spinelli has produced a poetic allegorical tale about the magnificence and rarity of true nonconformity." -- The New York Times An Arab and a Jew open a restaurant together across the street from the United Nations.... It sounds like the beginning of an ethnic joke, but it's the axis around which spins this gutsy, fun-loving, and alarmingly provocative novel, in which a bean can philosophizes, a dessert spoon mystifies, a young waitress takes on the New York art world, and a rowdy redneck welder discovers the lost god of Palestine--while the illusions that obscure humanity's view of the true universe fall away, one by one, like Salome's veils. Skinny Legs and All deals with today's most sensitive issues: race, politics, marriage, art, religion, money, and lust. It weaves lyrically through what some call the "end days" of our planet. Refusing to avert its gaze from the horrors of the apocalypse, it also refuses to let the alleged end of the world spoil its mood. And its mood is defiantly upbeat. In the gloriously inventive Tom Robbins style, here are characters, phrases, stories, and ideas that dance together on the page, wild and sexy, like Salome herself. Or was it Jezebel?
