Most people tend to follow other people for good business ideas. Successful business

ideas are often formulated in the back of our heads and serve many people who are looking for solutions to similar problems. Too many entrepreneurs fall into the trap of over-saturation where they will find only fierce competition, because many businesses have already saturated the market with their credibility there. Frequently, they can make the situation difficult for a new entrant, but they have to adjust their strategies to meet the needs of the businesses within their niche. If you are looking for business ideas, the best recommendation is for you to look around for a problem. This means looking for a group of people who have the same problem or have a specific need. Your opportunity, then, is to find a solution to the problem and turn it into a product or service that will be effective in solving the problem. Your business idea must aim to give your customers as much value as possible and keep them happy. Your role is to create content, which will bring them in and keep them coming back for more. Once you have them in the front door, keep them inside by giving them as much value as possible. Be sure to keep a database of your customers, so that you can reach out to them with any updates you need to relay to your customers. E-mail is preferred because there is no cost associated with sending an email, and it is a simple way to get the message out to many people. Your customers will be happy to push a button. Remember, the best business ideas are often found in the specific needs of people's specific needs. If you are looking to start a business in an already saturated niche, make sure you think of ways to differentiate your business from the rest. Give your clients more value for their time and dollars. A variety of content that I would highly suggest to you to take into consideration is giving away as much free value as possible. Find a way to give as much free and valuable content to your customers as you can. This will help you in becoming an authority and in building your brand with your customers. The rest of the content bears witness to the value made for you by Bill Gates - Content is King. Content is now cash and any business that your business does to give away free content will benefit your business financially.

**Cleanlots: America's Simplest Business, a Parking Lot Litter Removal Business You Can Be Proud Of** Lulu Press, Inc  
The New York Times bestseller Shortlisted for the 2020 Financial Times & McKinsey Business Book of the Year Netflix cofounder Reed Hastings reveals for the first time the unorthodox culture behind one of the world's most innovative, imaginative, and successful companies. There has never before been a company like Netflix. It has led nothing short of a revolution in the entertainment industries, generating billions of dollars in annual revenue while capturing the imaginations of hundreds of millions of people in over 190 countries. But to reach these great heights, Netflix, which launched in 1998 as an online DVD rental service, has had to reinvent itself over and over again. This type of unprecedented flexibility would have been impossible without the counterintuitive and radical management principles that cofounder Reed Hastings established from the very beginning. Hastings rejected the conventional wisdom under which other companies operate and defied tradition to instead build a culture focused on freedom and responsibility, one that has allowed Netflix to adapt and innovate as the needs of its members and the world have simultaneously transformed. Hastings set new standards, valuing people over process, emphasizing innovation over efficiency, and giving employees context, not controls. At Netflix, there are no vacation or expense policies. At Netflix, adequate performance gets a generous severance, and hard work is irrelevant. At Netflix, you don't try to please your boss, you give candid feedback instead. At Netflix, employees don't need approval, and the company pays top of market. When Hastings and his team first devised these unorthodox principles, the implications were unknown and untested. But in just a short period, their methods led to unparalleled speed and boldness, as Netflix quickly became one of the most loved brands in the world. Here for the first time, Hastings and Erin Meyer, bestselling author of *The Culture Map* and one of the world's most influential business thinkers, dive deep into the controversial ideologies at the heart of the Netflix psyche, which have generated results that are the envy of the business world. Drawing on hundreds of interviews with current and past Netflix employees from around the globe and never-before-told stories of trial and error from Hastings's own career, *No Rules Rules* is the fascinating and untold account of the philosophy behind one of the world's most innovative, imaginative, and successful companies.

Successful business ideas are not so much about talent as about a systematic approach. *The Business Idea* encourages new ways of thinking when it comes to entrepreneurship and innovation. Too many ventures originate in the solutions the entrepreneur has to offer and not in the problem the customer needs solved. Business plans done this way can often lead to disappointment. *The Business Idea* leaves behind this product orientated logic. The book presents new, applicable entrepreneurship methods for developing creative market insight, for identifying windows of opportunity, creating business concepts and entrepreneurial strategies for successful market entry. Entrepreneurship is a complex and risky process compared to almost everything else in business life, so it richly deserves to have its own theoretical and methodological toolbox. *The Business Idea* provides the tools making it of interest to anyone who works with getting an enterprise off the ground or studies entrepreneurship.
