Dive! World War II Stories of Sailors & Submarines in the Pacific tells the incredible story of America's little known "war within a war" -- US submarine warfare during World War II. Following the attack on Pearl Harbor, the US entered World War II in December 1941 with only 44 Naval submarines -- many of them dating from the 1920s. With the Pacific battleship fleet decimated after Pearl Harbor, it was up to the feisty and heroic sailors aboard the US submarines to stop the Japanese invasion across the Pacific. Including breakouts highlighting submarine life and unsung African-American and female war heroes, award-winning author Deborah Hopkinson uses first-person accounts, archival materials, official Naval documents, and photographs to bring the voices and exploits of these brave service members to life.

Fascinated by the sport of freediving—in which competitors descend great depths on a single breath—James Nestor embeds with a gang of oceangoing extreme athletes and renegade researchers. He finds whales that communicate with other whales hundreds of miles away, sharks that swim in unerringly straight lines through pitch-black waters, and other strange phenomena. Most illuminating of all, he learns that these abilities are reflected in our own remarkable, and often hidden, potential—including echolocation, directional sense, and the profound bodily changes humans undergo when underwater. On December 7, 1941, as the great battleships Arizona, Oklahoma, and Utah lie paralyzed and burning in the aftermath of the Japanese attack on Pearl Harbor, a crack team of U.S. Navy salvage divers headed by Edward C. Raymer are hurriedly flown to Oahu from the mainland. The divers have been given a Herculean task: rescue the sailors and Marines trapped below, and resurrect the pride of the Pacific fleet. Now for the first time, the chief diver of the Pearl Harbor salvage operations, Cmdr. Edward C. Raymer, USN (Ret.), tells the whole story of the desperate attempts to save crewmembers caught inside their sinking ships. *Descent into Darkness* is the only book available that describes the raising and salvage operations of sunken battleships following the December 7th attack. Once Raymer and his crew of divers entered the interiors of the sunken shipwrecks—attempting untested and potentially deadly diving techniques—they experienced a world of total blackness, unable to see even the faceplates of their helmets. By memorizing the ships' blueprints and using their sense of touch, the divers groped their way hundreds of feet inside the sunken vessels to make repairs and salvage vital war material. The divers learned how to cope with such unseen dangers as falling objects, sharks, the eerie presence of floating human bodies, and the constant threat of Japanese attacks from above. Though many of these divers were killed or seriously injured during the wartime salvage operations, on the whole they had great success performing what seemed to be impossible jobs. Among their credits, Raymer's crew raised the sunken battleships USS West Virginia, USS Nevada,

USS California, After Pearl Harbor they moved on to other crucial salvage work off Guadalcanal and the sites of other great sea battles.

On a grassy hilled college campus, Henry was born to two loving parents who taught him to believe in the Great Goose. Henry was always a special goose, who was brought into this world with a special purpose; but no one knew what it was to be. Henry suffered an accident that launched him into the world alone, only following what he believed to be the Great Goose's wished. He had doubts, but he continued along unknown paths with an unknown destination or purpose. Along the way, he accumulates a strange array of colleagues, including an aging Cobbler who is a Veteran from the Korean War. He also adds a homing pigeon that is lost; hence, we have a Canada goose who does not know where he is going and a Homing Pigeon that cannot find home. Together, they proceed like Don Quixote and Sancho Panza with feathers. They add a Mallard Duck named Gilbert, two aging widowed Canada geese, Andy and Leroy, and finally, three testy Russian geese, Nicholas, Dmitri, and Natasha. The bounce around the world solving problems while learning to understand and appreciate each other.

To not only survive in this world but excel, Jill has had to learn how to master self-doubt like no other. With gripping storytelling that radiates intimacy, *Into the Planet* will transport you deep into the most exquisite, untouched corners of the earth, where fear must be reconciled and the innermost parts of the human condition are revealed.

Chris and Chrissy Rouse, an experienced father-and-son scuba diving team, hoped to achieve widespread recognition for their outstanding but controversial diving skills. Obsessed and ambitious, they sought to solve the secrets of a mysterious, undocumented World War II German U-boat that lay under 230 feet of water, only a half-day's mission from New York Harbor. In doing so, they paid the ultimate price in their quest for fame. Bernie Chowdhury, himself an expert diver and a close friend of the Rouses', explores the thrill-seeking world of deep-sea diving, including its legendary figures, most celebrated triumphs, and gruesome tragedies. By examining the diver's psychology through the complex father-and-son dynamic, Chowdhury illuminates the extreme sport diver's push toward—and sometimes beyond—the limits of human endurance.

CHICAGO TRIBUNE • A thrilling adventure of danger and deep-sea diving, historic mystery and suspense, by the author of *Shadow Divers* Finding and identifying a pirate ship is the hardest thing to do under the sea. But two men—John Chatterton and John Mattera—are willing to risk everything to find the Golden Fleece, the ship of the infamous pirate Joseph Bannister. At large during the Golden Age of Piracy in the seventeenth century, Bannister should have been immortalized in the lore of the sea—his exploits more notorious than Blackbeard’s, more daring than Kidd’s. But his story, and his ship, have been lost to time. If Chatterton and Mattera succeed, they will make history—it will be just the second time ever that a pirate ship has been discovered and positively identified. Soon, however, they realize that cutting-edge technology and a willingness to lose everything aren’t enough to track down Bannister’s ship. They must travel the globe in search of historic documents and accounts of the great pirate’s exploits, face down dangerous rivals, battle the tides of nations and governments and experts. But it’s only when they learn to think and act like pirates—like Bannister—that they become able to go where no pirate hunters have gone before. One tale explains how M&Ms changed his life to become a champion wrestler in order to deal with older bullies. Several more stories show the thrill of dove and quail hunting in yesteryear when game was abundant. Gordon's wife, Annie, is also an adventurous soul. Stories from her past tell of a husband whose plane was forced down in Cuba by MIGs and his subsequent time in a horrible Cuban prison, as well as spending the night in a Florida swamp when her airboat flips into waters infested with snakes and alligators. Ever since that fateful day several hundred years ago when a Scottish shepherd first struck a rock with a shillelagh, perhaps no single athletic pursuit has brought man more joy and frustration, more fulfillment and utter despair than the game of golf. It has been said by many that it is a microcosm of life itself—a beautiful game which tests the mind, body, and spirit. As a testament to that, there has been no shortage of inspired writing on the topic, as golf has long caught the interest and imagination of some of the world's finest and most celebrated writers. Contributors include P. G. Wodehouse, F. Scott Fitzgerald, Bernard Darwin, Ring Lardner, Horace Hutchinson, Charles E. Van Loan, A. A. Milne, Francis Ouimet, and many more.
