Kids will love getting to know the friendly, animal characters who feature throughout the series and reading about their fast-paced adventures! Continue to explore all things that go with the rest of the Amazing Machines series, including Cool Cars, Patrolling Police Cars and Roaring Rockets.

Come along for the ride as Frankie the big rig truck takes us on the job, driving past kiddie cars (school buses) and land yachts (RVs). Hear the horn blow and the wipers schwat the windshield clean. But, BANG! SHHUUU! Uh-oh: a blow-

out! Don't worry, a service truck saves the day so we can get the job done and make a very special delivery./DIV DIVEvery kid will love to learn the truck driver lingo in the story, and shout out their own sound effects as they return for another ride, read after read. Author Jamie Swenson takes readers from zero to sixty with her fast-talking truck and Ned Young's bright and engaging illustrations.

Vroom, zoom, what's driving across these colorful pages? Race cars zip round the track, trains crisscross the county, airplanes glide, and fire trucks rush to the rescue. Preschoolers will love the cool variety of vehicles on the move here, from motorcycles, vans, and helicopters to dune buggies, boats, and rocket ships.

A SUICIDA MACHINE. A CHILD WITH A SECRET THAT CAN CHANGE THE WORLD. THE MAN TRAPPED BETWEEN THEM. In the City, where machines take care of everything, lives Albert, an ordinary citizen with an extraordinary problem: He's being blackmailed into becoming the first person in living memory to actually do something. What begins as a chance encounter with an outlaw child swiftly spirals out of control as Albert is trapped between the authorities and the demands of his unusual blackmailer. Forced to go on the run for his life, he finds himself in a shadow world of cyber-junkies, radicals and rebels, where he discovers the horrifying truth behind the City, a truth that will make him question everything he has ever known.

On the day before his twenty-first wedding anniversary, David Sullinger buried an ax in his wife's skull. Now, eight jurors must retire to the deliberation room and decide whether David committed premeditated murder-or whether he was a battered spouse who killed his wife in self-defense. Told from the perspective of over a dozen participants in a murder trial, *We, the Jury* examines how public perception can mask the ghastliest nightmares. As the jurors stagger toward a verdict, they must sift through contradictory testimony from the Sullingers' children, who disagree on which parent was Satan; sort out conflicting allegations of severe physical abuse, adultery, and incest; and overcome personal animosities and biases that threaten a fair and just verdict. Ultimately, the central figures in *We, the Jury* must navigate the blurred boundaries between bias and objectivity, fiction and truth.

"Great, near-future sci-fi...A propulsive, character-driven thriller...I really love this book."—Kelly Link, author of *Get in Trouble* and *Magic for Beginners* In the spirit of *Station Eleven* and *California*, award-winning novelist Holly Goddard Jones offers a literary spin on the dystopian genre with this gripping story of survival and humanity about a group of adrenaline junkies who jump "the Salt Line." How far will they go for their freedom—once they decide what freedom really means? In an unspecified future, the United States' borders have receded behind a salt line—a ring of scorched earth that protects its citizens from deadly disease-carrying ticks. Those within the zone live safe, if limited, lives in a society controlled by a common fear. Few have any reason to venture out of zone, except for the adrenaline junkies who pay a fortune to tour what's left of nature. Those among the latest expedition include a popstar and his girlfriend, Edie; the tech giant Wes; and Marta; a seemingly simple housewife. Once out of zone, the group find themselves at the mercy of deadly ticks—and at the center of a murderous plot. They become captives in Ruby City, a community made up of outer-zone survivors determined to protect their hardscrabble existence. As alliances and friendships shift amongst the hostages, Edie, Wes, and Marta must decide how far they are willing to go to get to the right side of the salt line.

Rhyming text and illustrations describe different kinds of cars, including fast cars, police cars, taxis, and convertibles.

Dunkum And His Friends Are In For The Surprise Of Their Lives!Dunkum loves mysteries. And when he digs for buried treasure, he uncovers one--in a mudhole! A locked box, covered in squishy mud. The discovery turns out to be a time capsule, buried many years ago.Curious,

the Cul-de-sac Kids search their muddy prize for clues. Who buried the time capsule--and why?

When Judith Daniels' friend calls her in the middle of the night and says that someone is trying to kill her, Judith assumes it's more of Lacey's usual drama. After a full day of work at her small-town newspaper and several nights with very little sleep, Judith doesn't have time for Lacey's wild imagination, but when she wakes up to discover that her best friend is dead, she realizes that while the police may be calling the death an accident, she owes it to her friend to discover if something more sinister has taken place. Lacey had been working at The Puppet Factory for world famous puppeteer, Ryan Smith. Ryan is rich, gorgeous, famous and reclusive. And he might be the last person who saw Lacey alive. Ryan realizes what Judith is up to almost as soon as she walks through the door to interview for a position that she's far too qualified for. He recognizes the nosey reporter from pictures Lacey had shown him, but he also knows that kicking her out will only make her think he has something to hide. He's sure that Lacey's death was nothing more than a tragic accident, and he assumes the best way to prove that to Judith is to let her stay at The Puppet Factory and do a little investigating of her own. The fact that he is attracted to her has nothing to do with it. The only flaw with Ryan's plan is that Lacey's death was no accident. And the closer Ryan gets to Judith the closer the killer gets to her.

Your 14 favorite storybooks inside one fantastic fire truck! The bestselling Amazing Machines series of picture storybooks is now available in a fabulous box set. With 14 mini storybooks inside, the Big Truckload of Fun collection is the perfect gift for every preschooler who loves vehicles. From airplanes and ambulances to rockets and tractors, these critically acclaimed picture books are full of fun rhyming text, bright artwork, and wacky animal characters to engage and delight young children as they learn about machines. Each book includes a helpful illustrated glossary of technical words to help build vocabulary.

Terrific Trains follows the animal crew as they travel the railroads. Climb on board and whiz down the track to discover different types of trains and how rail travel works. Every page of this chunky board book is full of details machine-mad toddlers love: diesel, steam, and electric engines, the signals, and so much more! From airplanes to fire engines, the internationally bestselling Amazing Machines series is the perfect way for children to learn about all sorts of vehicles! Each book introduces a new vehicle and the jobs it can do. Bright, engaging artwork and simple, rhyming text combine to make these fantastic books for young children. Kids will love getting to know the friendly, animal characters who feature throughout the series and reading about their fast-paced adventures!

From the bestselling author of *Blink* and *The Tipping Point*, Malcolm Gladwell's *Outliers: The Story of Success* overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. *Outliers* will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not

only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' Guardian 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' Observer 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' The Times

The Goliath Stone is a visionary tale from Larry Niven and Matthew Joseph Harrington. Doctor Toby Glycer has effected miracle cures with the use of nanotechnology. But Glycer's controversial nanites are more than just the latest technological advance, they are a new form of life-and they have more uses than just medical. Glycer's nanites also have the potential to make everyone on Earth rich from the wealth of asteroids. Twenty-five years ago, the Briareus mission took nanomachinery out to divert an Earth-crossing asteroid and bring it back to be mined, only to drop out of contact as soon as it reached its target. The project was shut down and the technology was forcibly suppressed. Now, a much, much larger asteroid is on a collision course with Earth-and the Briareus nanites may be responsible. While the government scrambles to find a solution, Glycer knows that their only hope of avoiding Armageddon lies in the nanites themselves. On the run, Glycer must track down his old partner, William Connors, and find a way to make contact with their wayward children. As every parent learns, when you produce a new thinking being, the plans it makes are not necessarily your plans. But with a two-hundred-gigaton asteroid that rivals the rock that felled the dinosaurs hurtling toward Earth, Glycer and Connors don't have time to argue. Will Glycer's nanites be Earth's salvation or destruction? At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

Tremendous, chuggy tractors, so sturdy and so strong, hitching up to farm machines and pulling them along.

In a land riven with plague, inside the infamous Walled City, two families vie for control: the Medicis with their genius inventor Leonardo; the Lorraines with Galileo, the most brilliant alchemist of his generation. And when two star-crossed lovers, one from either house, threaten the status quo, a third, shadowy power –

one that forever seems a step ahead of all of the familial warring – plots and schemes, and bides its time, ready for the moment to attack... Assassination; ancient, impossible machines; torture and infamy – just another typical day in paradise. File Under: Fantasy [ Wherefore Art Thou | Fathers of Invention | Unexpected Journeys | Secrets & Lies ]

Diggers are noisy, strong, and big. Diggers can carry and push and dig. Diggers have shovels to scoop and lift, blades that bulldoze, shunt, and shift. Sloshing and squelching, and smashing and bashing, the construction machinery does its work - manned by a friendly animal gang - in this lively story now in an attractive board book format perfect for small hands. Young children will adore it as will the adults who get to read aloud these irresistible rhymes!

Have fun listening to amazing airplanes on the go!

This is "the Word" -- one man's word, certainly -- about the art (and artifice) of the state of our computer-centric existence. And considering that the "one man" is Neal Stephenson, "the hacker Hemingway" (Newsweek) -- acclaimed novelist, pragmatist, seer, nerd-friendly philosopher, and nationally bestselling author of groundbreaking literary works (Snow Crash, Cryptonomicon, etc., etc.) -- the word is well worth hearing. Mostly well-reasoned examination and partial rant, Stephenson's *In the Beginning... was the Command Line* is a thoughtful, irreverent, hilarious treatise on the cyber-culture past and present; on operating system tyrannies and downloaded popular revolutions; on the Internet, Disney World, Big Bangs, not to mention the meaning of life itself.

Flashing Fire Engines follows the animal crew as they become fire fighters. Climb on board the fire truck, ride along, and learn how to put out fires to save the day! Every page of this chunky board book is full of the kind of detail that machine-mad toddlers love: the fireman's pole, the siren, the long ladder, and much more! From airplanes to fire engines, the internationally bestselling Amazing Machines series is the perfect way for children to learn about all sorts of vehicles! Each book introduces a new vehicle and the many jobs it can do. Bright, engaging artwork and simple, rhyming text combine to make these fantastic books for young children. Kids will love getting to know the friendly, animal characters who feature throughout the series and reading about their fast-paced adventures!

In *Homer Economicus* a cast of lively contributors takes a field trip to Springfield, where the Simpsons reveal that economics is everywhere. By exploring the hometown of television's first family, this book provides readers with the economic tools and insights to guide them at work, at home, and at the ballot box. Since *The Simpsons* centers on the daily lives of the Simpson family and its colorful neighbors, three opening chapters focus on individual behavior and decision-making, introducing readers to the economic way of thinking about the world. Part II guides readers through six chapters on money, markets, and government. A third and final section discusses timely topics in applied microeconomics, including immigration, gambling, and health care as seen in *The Simpsons*. Reinforcing the nuts and bolts laid out in any principles text in an

entertaining and culturally relevant way, this book is an excellent teaching resource that will also be at home on the bookshelf of an avid reader of pop economics.

Emergency! To the rescue! Join some cool animal characters as they drive their rescue vehicles across the city in this lively book that contains three different emergency vehicle stories featuring a fire truck, a police car, and an ambulance. Lively wordplay, vibrant art, plus a visual dictionary, make this book a must-have for bookshelves everywhere. *Amazing Machines Rescue Vehicles* is filled with humorous rhyming text by the award-winning poet Tony Mitton, which perfectly complements Ant Parker's bold, bright illustrations. A picture dictionary identifying different vehicle parts builds vocabulary and makes learning about emergency vehicles exciting and fun.

A doctor's life gets turned upside by a dangerous new technology in this thought-provoking medical thriller from #1 New York Times bestselling author Robin Cook. George Wilson, M.D., a radiology resident in Los Angeles, is about to enter a profession on the brink of an enormous paradigm shift, foreshadowing a vastly different role for doctors everywhere. The smartphone is poised to take on a new role in medicine, no longer as a mere medical app but rather as a fully customizable personal physician capable of diagnosing and treating even better than the real thing. It is called iDoc. George's initial collision with this incredible innovation is devastating. He awakens one morning to find his fiancée dead in bed alongside him, not long after she participated in an iDoc beta test. Then several of his patients die after undergoing imaging procedures. All of them had been part of the same beta test. Is it possible that iDoc is being subverted by hackers—and that the U.S. government is involved in a cover-up? Despite threats to both his career and his freedom, George relentlessly seeks the truth, knowing that if he's right, the consequences could be lethal.

A day in the life of a fire engine is full of fun and adventure! Discover what it takes for a fire engine to get ready for the day. Your toddler will get an insight into what it's like to be a firefighter. Climb aboard the fire truck and spend the day with your furry dalmatian companion. Children of all ages embark on an exciting adventure as they ride fire engines with lights flashing and sirens blazing.
