Complete your collection with National Geographic Kids' The Ultimate Book of Sharks!

This is a fully illustrated encyclopedia of over 350 amphibians, reptiles and mammals from around the world. It includes the venomous western diamondback rattlesnake of the southern United States, the tree-dwelling flying lizard of south-east Asia, and the extraordinary egg-laying platypus of Australia.

Offers an illustrated encyclopedia of general science, with informative and fun facts on a broad array of scientific topics.

Animals smooth and spiky, fast and slow, hop and waddle through the two hundred plus pages of the Caldecott Honor artist Steve Jenkins's most impressive nonfiction offering yet. Sections such as "Animal Senses," "Animal Extremes," and "The Story of Life" burst with fascinating facts and infographics that will have trivia buffs breathlessly asking, "Do you know a termite queen can produce up to 30,000 eggs a day?" Jenkins's color-rich cut- and torn-paper artwork is as strikingly vivid as ever. Rounding out this bountiful browsers' almanac of more than three hundred animals is a discussion of the artist's bookmaking process, an animal index, a glossary, and a bibliography. A bookshelf essential!

Provides an introduction to geography that focuses on the animals found on each continent, including descriptions of common animals, simple pictorial maps, and profiles of endangered species.

"Features a diverse selection of more than 400 of the world's animals drawn from all species and all climates, from apes to snakes, mammals to mollusks, and toads to tropical fish. Packed with information on the anatomy, habitat, lifecycle, and diet of each animal, and with special fact boxes and maps. Includes more than 1200 full color, detailed illustrations and over 400 color photographs of the animals in their natural habitat"--Page 4 of cover.

Meet an amazing menagerie of creatures on this breathtaking safari through the animal kingdom. The Kingfisher Animal Encyclopedia spans Earth from pole to pole, covering 2,000 animals from the tiniest protozoan to the mightiest mammal. Each entry describes the animal's characteristics, behavior, and distribution, and gives their Latin names. The meticulously researched information is highlighted by clear, authoritative writing and more than 1,000 photographs and illustrations. Throughout the book, special feature panels focus on various aspects of animal behavior such as camouflage, migration, and hibernation. With comprehensive back-matter including a glossary, alternative name index, and general index, this one-stop reference tool is perfect for research or for browsing by animal-lovers of all ages.

View the animal kingdom up close as never before in this breathtaking title, which has already sold over 1.5 million copies. Written by 70 specialists, it features stunning wildlife photography of more than 2000 of the world's most important wild mammals, birds, reptiles, amphibians, and insects. With around two million species identified to date, animals are the dominant and most varied form of life on the planet. Animal presents a representative selection, ranging from the giant baleen whale, to fast-moving predators such as sharks, big cats, and birds of prey, as well as microscopic beetles barely 1mm long and other insects. It presents some of the latest species to be described: meet the cute but elusive olinguito from South America, which was only identified in 2013, or the skywalker hoolock gibbon that was named after a Star Wars character in 2017. Animal also explains how the earth's biodiversity is in sharp decline and the conservation projects underway to safeguard precious species. For each one, it gives a locator map and statistics, including its conservation status. For anyone who wants a reliable and enthralling reference, in which you can find the answers to everything - from why zebras are striped or how the sunbear got its name - Animal is your essential one-stop guide.

This book introduces readers to the neurophysiology of the senses and communication in both human and animal systems, primarily considering the ways in which sensory phenomena is integrated and applied within the nervous system. The subject matter is extensively illustrated with clear diagrams, and each chapter ends with a list of learning objectives and questions.

Discover the lifestyles, habitats, and behaviors of the animal kingdom as you've never seen them before with The Encyclopedia of Animals. Each page of this comprehensive guide is packed with amazingly detailed artworks and full-color photographs. From the flying squirrel to the yellow-bellied sapsucker, and from the fire ant to the sun bear, animals are seen in all their splendid variety in this fascinating visual guide. Divided by class and family, the sections in this book clarify the distinguishing traits of the animals, which are depicted in colorful scientific drawings; captions provide additional information. User-friendly and with the sections marked by color tabs for quick consultation, this book could serve as a field guide or a desk reference. Shown in all their glory, here are the gulper eel, the blue wildebeest, the giant African bullfrog, the Sumatran Orangutan, the Chilean flamingo, and the tiny but terrifying anglerfish. Many of the book's images show the animals in their natural environment and behaving as they would in the wild. An orangutan is

shown swinging from a branch, a bird-of-paradise is illustrated during a courtship display, and hyenas are depicted in pursuit of zebra prey. Map icons illustrate the animal's distribution around the world, while key fact boxes highlight features of the animal's anatomy, diet, and genus. Learn more about your favorite species, from the smallest insects to the largest mammals, with expert information and up-to-date population statistics throughout. User-friendly and accessible, this is the perfect modern encyclopedia for animal enthusiasts of all ages.

DK First Animal Encyclopedia is loaded with spectacular photographs showing animal habits and habitats. From aardvark to zebra, this book is packed with fascinating facts about animals, giving children a wonderful head start on learning about the animal world. A first reference guide to the animals of the world

Humans have always relied heavily on animals. We have worshipped them, befriended them, sacrificed them, domesticated them, eaten them, hunted them, drawn them, and written about them. We have come to appreciate them, especially in their natural habitats, as an essential part of our world. They are creatures that deserve our respect and reward our curiosity. As intrinsic as they are to the ecological balance of our world, animals are under threat from their human admirers, and in dire need of our help. Habitat destruction spells disaster for many species, leaving them teetering on the brink of extinction. Only through a greater understanding of the fragile balance that exists between species and their habitats will it become possible for us to ensure the survival of our precious wildlife heritage. This comprehensive encyclopedia presents a wide-ranging survey of four major groups of living things: mammals, birds, reptiles, and amphibians. The text is written by a team of international experts in the zoological sciences. It is carefully constructed to be read and appreciated by everyone with an interest in natural history. Complemented by superb full-color photographs by the world's leading wildlife photographers, and specially commissioned illustrations, maps, and diagrams, this stunning volume gives an up-to-date overview of nature's most enthralling creatures. A team of internationally renowned authorities has provided the text for this publication. The photographs have been provided by some of the world's leading wildlife photographers. The original illustrations are by specialist wildlife artist Dr David Kirshner. Book jacket.

Playful puppies! Cuddly kittens! Beautiful birds! In the next book in the hit Little Kids First Big Book series, readers learn all about pets with fur, feathers, fins, scales, and shells--and how to find and care for the perfect pet for their family.
