Named a Best History Book of 2019 by The Times (UK) The astounding true story of how thousands of ordinary Germans, overcome by shame, guilt, and fear, killed themselves after the fall of the Third Reich and the end of World War II. By the end of April 1945 in Germany, the Third Reich had fallen and invasion was underway. As the Red Army advanced, horrifying stories spread about the depravity of its soldiers. For many German people, there seemed to be nothing left but disgrace and despair. For tens of thousands of them, the only option was to choose death -- for themselves and for their children. "Promise Me You'll Shoot Yourself" recounts this little-known mass event. Using diaries, letters, and memoirs, historian Florian Huber traces the euphoria of many ordinary Germans as Hitler restored national pride; their indifference as the Führer's political enemies, Jews, and other minorities began to suffer; and the descent into despair as the war took its terrible toll, especially after the invasion of the Soviet Union. Above all, he investigates how suicide became a contagious epidemic as the country collapsed. Drawing on eyewitness accounts and other primary sources, "Promise Me You'll Shoot Yourself" presents a riveting portrait of a nation in crisis, and sheds light on a dramatic yet largely unknown episode of postwar Germany.

Since its publication, C.F. Gauss's *Disquisitiones Arithmeticae* (1801) has acquired an almost mythical reputation, standing as an ideal of exposition in notation, problems and methods; as a model of organisation and theory building; and as a source of mathematical inspiration. Eighteen authors - mathematicians, historians, philosophers - have collaborated in this volume to assess the impact of the *Disquisitiones*, in the two centuries since its publication.
