information return that must be filed annually by most types of tax-exempt organizations—is a key factor in maintaining public image and fundraising capabilities. The newly redesigned Form 990 was released in December 2008 with significant revisions to the initial June 2007 draft. Preparation of the new return will require tax-exempt organizations to gather extensive new information about their activities for disclosure on the new form beginning with their 2008 tax year. In *Revised Form 990: A Line-by-Line Preparation Guide*, authors Jody Blazek—who with other AICPA Task Force members was instrumental in effecting changes to the original IRS draft of the form—and Amanda Adams, provide step-by-step and line-by-line analysis and preparation guidelines for nonprofit professionals and nonprofessionals alike charged with preparing and submitting the form. This hands-on workbook walks you through the process of producing an annual report to the IRS that demonstrates continued qualification for exempt status for a nonprofit organization, explaining the information requested page by page and part by part. It addresses the issues and challenges for each part, particularly the new schedules. As each part is explained, the authors suggest when certain answers have negative consequences. Guidance is provided for functional expense reporting and generally accepted accounting principles for reporting revenues. A good discussion of the differences between book and tax

This book addresses the problem of toxic leadership in Christian contexts. Toxic leadership behaviors of narcissistic and obsessive-compulsive leaders will be emphasized. To counteract toxic Christian leadership, this book proposes a leadership development model, called formational leadership, which is based mostly on Wesleyan spirituality, but also includes monastic and Pentecostal spiritualities. Formational leadership is an eclectic leadership development model that includes components of transformational, authentic, and primal leadership approaches. Formational leadership emphasizes the spiritual, emotional, and ethical development processes in the leader and includes an analysis of orthokardia, orthodynamis, and orthopraxis. These components have a circular relationship with one another. Orthokardia includes the concepts of spiritual and emotional maturity that a Christian leader needs to develop in order to become

an ethical and effective leader. Orthodynamis includes right power and influence motives based on Christian affections that should inform formational leadership. Orthopraxis refers to “right” and “just” leadership behaviors informed by Wesley’s social holiness and justice values that need to be adopted as organizational core values. The implications of these components for leadership development are outlined in chapters 4–6 that include practical steps for helping toxic leaders change their dysfunctional and harmful intentions and behaviors.

A veteran hockey writer takes on hockey culture and the NHL--addressing the games most controversial issue Whether its on-ice fist fights or head shots into the glass, hockey has become a nightly news spectacle--with players pummeling and bashing each other across the ice like drunken gladiators. And while the NHL may actually condone on-ice violence as a ticket draw, diehard hockey fan and expert Adam Proteau argues against hockeys transformation into a thuggish blood sport. In *Fighting the Good Fight*, Proteau sheds light on the many perspectives of those in and around the game, with interviews of current and former NHL stars, coaches, general managers, and league executives, as well as medical experts. One of the most well-known media figures on the hockey scene today, famous for his funny, feisty observations as a writer for the *Toronto Star* and *The Hockey News* and commentator on CBC radio and TV, Adam Proteau is also one of the few mainstream media voices who is vehemently anti-fighting in hockey. Not only is his book a plea to the games gatekeepers to finally clamp

When the body of John Harmon turns up in the Thames, an illiterate dustman named Noddy Boffins unexpectedly inherits Harmon's unclaimed fortune. Boffins's good luck seems fitting since Harmon's father--the notorious London miser Old Man Harmon--became rich through the dustman business, essentially garbage collection. The newly upwardly mobile Boffins and his wife, also a loyal servant of Harmon's miserly father, struggle to fit in with the monied class. At the same time, the couple attempts to aid those less fortunate than themselves, an effort that tests their moral compass. Soon Noddy begins to take on the penny-

describes how evolution reveals both the great diversity and similarity among the Earth's organisms; it explores how scientists approach the question of evolution; and it illustrates the nature of science as a way of knowing about the natural world. In addition, the book provides answers to frequently asked questions to help readers understand many of the issues and misconceptions about evolution. The book includes sample activities for teaching about evolution and the nature of science. For example, the book includes activities that investigate fossil footprints and population growth that teachers of science can use to introduce principles of evolution. Background information, materials, and step-by-step presentations are provided for each activity. In addition, this volume: Presents the evidence for evolution, including how evolution can be observed today. Explains the nature of science through a variety of examples. Describes how science differs from other human endeavors and why evolution is one of the best avenues for helping students understand this distinction. Answers frequently asked questions about evolution. Teaching About Evolution and the Nature of Science builds on the 1996 National Science Education Standards released by the National Research Council--and offers detailed guidance on how to evaluate and choose instructional materials that support the standards. This exciting new interpretation of Paul's Letter to the Romans approaches Paul's most famous letter from one of the newest scholarly positions within Pauline Studies: The Radical New Perspective on Paul (also known as Paul within Judaism). As a point of departure, the author takes Paul's self-designation in 11:13 as apostle to the gentiles as so determining for Paul's mission that the audience of the letter is perceived to be exclusively gentile. The study finds confirmation of this reading-strategy in the letter's construction of the interlocutor from chapter 2 onwards. Even in 2:17, where Paul describes the interlocutor as someone who calls himself a Jew, it requests to perceive this person as a gentile who presents himself as a Jew and not an ethnic Jew. If the interlocutor is perceived in this way throughout the letter, the dialogue between Paul and the interlocutor can be perceived as a continuous, unified and developing dialogue. In this way, this interpretation of Romans sketches out a position against a more disparate and fragmentary interpretation of Romans.

midst has generally been to seek the intervention of the Holy Spirit to bring about healing and transformation, or perhaps, education. But what happens when the suffering continues, it appears to be innocent and meaningless, and God seems to be absent? This study, drawing on Kevin Vanhoozer's "dramatic" approach to theology, argues that the way God calls us to "perform" as we seek to communicate with him amidst such situations is to lament, and to do so with the aid of the Holy Spirit. Rather than offering such an approach purely in opposition to the more "triumphalistic" responses common in Pentecostal/Charismatic theology and practice, this book seeks to show how a performance of lament is conducive to such theology and practice while acting as a much-needed corrective to certain aspects of it. What is provided here is therefore relevant reading for both scholars and pastors alike, particularly of Pentecostal/Charismatic church tradition, who grapple with the realities of suffering and the questions such realities produce.

Answering the question 'How is fruitful discussion possible?', this book addresses the central philosophical issue of how reason shall be understood and how it is limited. This study argues that the understanding of discussion according to which it necessarily starts from putative universal norms and rules for argumentation is problematic, among other reasons since such rules are unfruitful in contexts where there are vast disagreements such as religion.

Inspired by Wittgensteinian ideas, Strandberg develops instead a new way of understanding discussion, truth and rationality which escapes these problems, and shows how this solution can be used to answer the accusation against Wittgensteinian philosophy for being conservative and resulting in fideism.

such as the Antichrist and the 144,000 'redeemed from the earth'. Finally, explore in great detail the major rapture positions and challenges presented by each. Ron Braley's book, *Finding the End of the World*, is a great resource for any serious student of God's Word. However, it will frustrate those who look to it for easy answers to questions surrounding the books of Daniel and Revelation, events of the End Times, and eschatological controversies. Instead, the author gives the reader and student the tools to delve into the Scriptures and discover the answers. Caution: This may lead the reader to question and even jettison some previously held views of the End of Times. While offering historical and theological background materials to consider, I believe the greatest value of this book is the study tools, guides and exercises it offers each student. The result is creating students of the Bible who know how to read and study for themselves.
