Nostradamus, or Michel de Nostredame, was a physician and astrologer during the time of the Black Death. His most famous book “Les Prophéties,” or “the Prophecies,” was first published in 1555. Some scholars believe that, in this volume, he predicted a number of world events, such as the rise of Napoleon and the death of Hitler, and that it also predicts the coming of the Antichrist and the end of the world. This volume contains annotations and parallel texts. A modern English translation accompanies the original, Mediaeval French—the language in which Nostradamus originally wrote his prophecies—, helping the reader to understand both the original language and the translation of this critical work of eschatology. This edition also contains fragments of the questionable 11th and 12th centuries.

Schizophrenics in the United States currently fare worse than patients in the world's poorest countries. In *Mad in America*, medical journalist Robert Whitaker argues that modern treatments for the severely mentally ill are just old medicine in new bottles, and that we as a society are deeply deluded about their efficacy. The widespread use of lobotomies in the 1920s and 1930s gave way in the 1950s to electroshock and a wave of new drugs. In what is perhaps Whitaker's most damning revelation, *Mad in America* examines how drug companies in the 1980s and 1990s skewed their studies to prove that new antipsychotic drugs were more effective than the old, while keeping patients in the dark about dangerous side effects. A haunting, deeply compassionate book—now revised with a new introduction—*Mad in America* raises important questions about our obligations to the mad, the meaning of “insanity,” and what we value most about the human mind.

Every legend, good or evil, is birthed from truth. In the ancient, mystic times before the great flood, entities from the spirit realm called Watchers were sent into the world of mortals to help and teach mankind. But falling prey to the lures of Earth's lusts and greed, they forsook their edict. The Watchers half-angel offspring mature to be giants - warriors, tyrannically oppressing the free people of the epoch. Young, free-spirited Noah ventures to save a group of women abducted during a raid on a peaceful Freeland village. What is meant to be a simple rescue cascades into a bloody incident, which in turn launches Noah into an epic adventure of peril, love, and spiritual intrigue. Meanwhile, the turbulent paths of a rogue Watcher, young outcast, unpredictable loner, begrudged hunter, and beautiful escapee tumultuously entwine. Unified destinies clash into a perilous journey and struggle against time. Can they stop the powerful Watchers, conspiring with the aged and eccentric Lord Cain, from grasping the coveted key to eternal power? Join one of the greatest legends in history in this epic tale - a fight for freedom against the tyranny of a seemingly unstoppable darkness in book one of the Ancient Trilogy. Ancient.

This study presents 13 articles interrogating themes likely to impinge on India's 15th general elections in 2009. These were written following intense discussion between the contributors and use available data as well as original data and analysis. The significance of the analyses goes beyond how much these questions find place in the campaign, or how much they would impact the electoral results. These have and would continue to be essential themes in Indian politics for some time. They would influence the country's politics, its leaders, parties and institutions and would be interrogated in political, policy and social science circles in the foreseeable future. They would in turn be impacted, redefined and perhaps transformed by political dynamics and social pressure. The first attempt of its kind to analyse the impact of certain emerging trends in politics on upcoming elections anywhere in the world, this book will be a useful addition to election studies and policy making in general.

Transactional Analysis delineates three observable ego-states (Parent, Adult, and Child) as the basis for the content and quality of interpersonal communication. "Happy childhood" notwithstanding, says Harris, most of us are living out the Not ok feelings of a defenseless child, dependent on ok others (parents) for stroking and caring. At some stage early in our lives we adopt a "position" about ourselves and others that determines how we feel about everything we do. And for a huge portion of the population, that position is "I'm Not OK -- You're OK." This negative "life position," shared by successful and unsuccessful people alike, contaminates our rational Adult capabilities, leaving us vulnerable to inappropriate emotional reactions of our Child and uncritically learned behavior programmed into our Parent. By exploring the structure of our personalities and understanding old decisions, Harris believes we can find the freedom to change our lives.

It continues with more perennial classics, perfect to give as elegant gifts or to showcase on your own shelves. Y is for Yeats. A specially compiled edition for the Penguin Drop Caps series, When You Are Old will include the most accessible, best-known poems by W.B. Yeats from his early years that made the Nobel Prize winning writer and poet popular in his day. The volume will include all the major love poems written most notably for the brilliant yet elusive Irish revolutionary

Maude Gonne. Recalling Yeats's 1890s fascination in aestheticism and the arts and crafts movement, selections will draw from the first published versions of poems from works such as Crossways, The Rose, The Wind Among the Reeds, In the Seven Woods, The Green Helmet and Other Poems, Responsibilities, The Wild Swans at Coole, and Michael Robartes and the Dancer. A selection Irish myths and fairytales including "The Wanderings of Oisín," a Celtic fable and his first major poem, represent his fascination with mysticism, spiritualism and the rich and imaginative heritage of his native land.

For readers of Jhumpa Lahiri and Rohinton Mistry, as well as Lorrie Moore and George Saunders, here are stories on the pathos and comedy of small-town migrants struggling to build a life in the big city, with the dream world of Bollywood never far away. Jayant Kaikini's gaze takes in the people in the corners of Mumbai—a bus driver who, denied vacation time, steals the bus to travel home; a slum dweller who catches cats and sells them for pharmaceutical testing; a father at his wit's end who takes his mischievous son to a reform institution. In this metropolis, those who seek find epiphanies in dark movie theaters, the jostle of local trains, and even in roadside keychains and lost thermos flasks. Here, in the shade of an unfinished overpass, a factory-worker and her boyfriend browse wedding invitations bearing wealthy couples' affectations—"no presents please"—and look once more at what they own. Translated from the Kannada by Tejaswini Niranjana, these resonant stories, recently awarded the DSC Prize for South Asian Literature, take us to photo framers, flower markets, and Irani cafes, revealing a city trading in fantasies while its strivers, eating once a day and sleeping ten to a room, hold secret ambitions close.

The revolutionary literary vision that sowed the seeds of Objectivism, Ayn Rand's groundbreaking philosophy, and brought her immediate worldwide acclaim. This modern classic is the story of intransigent young architect Howard Roark, whose integrity was as unyielding as granite...of Dominique Francon, the exquisitely beautiful woman who loved Roark passionately, but married his worst enemy...and of the fanatic denunciation unleashed by an enraged society against a great creator. As fresh today as it was then, Rand's provocative novel presents one of the most challenging ideas in all of fiction—that man's ego is the fountainhead of human progress... "A writer of great power. She has a subtle and ingenious mind and the capacity of writing brilliantly, beautifully, bitterly...This is the only novel of ideas written by an American woman that I can recall."—The New York Times
