JUSTICE MISSION True Blue K-9 Unit by Lynette Eason

After K-9 unit administrative assistant Sophie Walters spots a suspicious stranger lurking at the K-9 graduation, the man kidnaps her. But she escapes with help from Officer Luke Hathaway. Now, with her boss missing and threats on Sophie's life escalating, can Luke and his K-9

partner save her? **IDENTITY: CLASSIFIED** by Liz Shoaf

Someone is convinced security specialist Chloe Spencer has a disc that belongs to him, and he's willing to kill to get it back. But with Sheriff Ethan Hoyt at her side, can she uncover the truth about her past and take down the

killer before it's too late? **UNDERCOVER JEOPARDY** by Kathleen Tailer Taken hostage in a bank robbery, the last person Detective Daniel Morley expects to find disguised as a robber is his ex-fiancée, FBI agent

Bethany Walker. Now, with a mole in law enforcement putting Bethany's life in danger, the only way Daniel can protect her is by joining her undercover.

With its fresh new look, the third edition of the Summit program helps develop confident English speakers who are able to navigate a host of social and professional situations. This two-level course provides high-intermediate learners with an integrated set of global communication skills. It delivers immediate,

demonstrable results through its goal- and achievement-based pedagogy and continual recycling of language. The two levels of Summit can be used with Top Notch as the fifth and sixth books in a complete six-level series. Summit 1 covers competencies from B2 to B2+ and Summit 2 introduces C1 competencies in the Common European Framework of Reference. The entire Summit course can be tailored to blended learning with its integrated online component, MyEnglishLab (access code available separately; not included in the Student Book). Highlights New Conversation Activator videos build communicative competence. New Discussion Activator videos increase range and depth of expression. Test-taking Skills Booster and extra challenge exercises help students succeed on the reading and listening sections of standardized tests. Greatly increased grammar, reading, listening, and writing practice plus digital grammar exercises give students the additional practice opportunities they've requested. Memorable models build natural, social language and conversation strategies. 50+ listening tasks at each level develop critical thinking and crucial listening comprehension skills, such as listening for details, confirmation of content, inference, and understanding meaning. ActiveTeach includes a digital Student Book for whiteboards with lesson plans, assessment tools and access to audio, video, and exercises to make learning more focused and interactive. Fluency-building planning activities such as idea framing help students express themselves with confidence. More ready-to-use teacher resources (including a broad range of print and digital

components) than other courses make Summit easy to use for busy teachers.

Kaplan's GRE Subject Test: Psychology is a fully updated edition of the top selling GRE Psychology prep book reflecting test-maker changes to align with the DSM-5 (Diagnostic and Statistical Manual of Mental Disorders), including updated vocabulary, diagnosis, treatment guidelines, and classification of mental disorders. Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends.

This book is the product of 30 years of experience with program evaluation. During this time, both service recipients and educational and social programs have experienced major cultural and political shifts in service delivery philosophy, including a focus on quality, mainstreaming, deinstitutionalization, community

inclusion, and an emphasis on measurable outcomes. Recently stakeholders of these programs have demanded more than just the provision of service, forcing program administrators to evaluate their programs' effectiveness and efficiency. The "era of accountability" is here, and my major goal in writing this book is to help current and future program administrators understand that they need to look beyond simply the provision of service. Indeed, they need to be competent in outcome-based evaluation, which I define as a type of program evaluation that uses valued and objective person-referenced outcomes to analyze a program's effectiveness, impact or benefit-cost. By design, this book can be read from the perspective of a consumer or producer of outcome-based evaluation. As a consumer, the reader will be introduced to the various techniques used in outcome-based evaluation and how to interpret data from outcome-based evaluation analyses. As a producer, the reader will be instructed in how to do outcome-based evaluation analyses, along with how to use and act on their results. For both the consumer and producer, two questions should guide the use of outcome based evaluation.

Boys' Life is the official youth magazine for the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics, and Scouting.

PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions

and get more from technology.

CEREBRAL CIRCUS gives authentic insight into neurological training and research, told in the age-old scenario of the unpolished country boy versus the city slicker. The protagonist is Allen Flint Childress, a half-breed Cherokee lad raised in the infertile red clay hills of North Louisiana. He was drawn into medicine by his love and respect of Dr. Homer Baines Shirley, a tough old country doctor who pulled Allen into the world by a risky traumatic forceps delivery one cold December night in 1967. A straight-A scholarship student at L.S.U., Allen sailed through the premed curriculum by an indefinable instinct and ambition for neurology; attempting as a freshman to register early for senior neuroanatomy. He succeeded in this improbable drive through a risky affair with his faculty advisor, an attractive older woman. Through hard work and scholarship aid, he graduated from Cornell University Medical College in 1991, then went on to internship at Bellevue Hospital in New York, a 3,500 teaching hospital with approximately 1000 trainees. When Allen became a resident physician in neurology, he became embroiled in a longstanding conflict with Dr. Bertrand O. Stanford, senior professor of neurology; who was performing unethical dangerous neurological research because of his ambition to be awarded the Nobel Prize in Medicine. But what could Allen, a mere neurology resident do against a senior professor? Allen gained a modicum of courage when he asked himself, What would old Dr. Homer Shirley who delivered me, do if he were in my shoes?

Top Notch , now in a Third Edition, is a dynamic

communicative course that makes English unforgettable through multiple exposures to language and systematic, intensive recycling. Goals- and achievement-based lessons with can-do statements enable students to confirm their progress. Top Notch builds confidence for successful oral expression through an expanded speaking pedagogy and prepares students for academic work through the development of critical thinking skills and reading and listening strategies.

Collaboratively Constructed Language Resources (CCLRs) such as Wikipedia, Wiktionary, Linked Open Data, and various resources developed using crowdsourcing techniques such as Games with a Purpose and Mechanical Turk have substantially contributed to the research in natural language processing (NLP). Various NLP tasks utilize such resources to substitute for or supplement conventional lexical semantic resources and linguistically annotated corpora. These resources also provide an extensive body of texts from which valuable knowledge is mined. There are an increasing number of community efforts to link and maintain multiple linguistic resources. This book aims offers comprehensive coverage of CCLR-related topics, including their construction, utilization in NLP tasks, and interlinkage and management. Various

Bachelor/Master/Ph.D. programs in natural language processing, computational linguistics, and knowledge discovery can use this book both as the main text and as a supplementary reading. The book also provides a valuable reference guide for researchers and professionals for the above topics.

Paths To Answered Prayer takes readers on a journey through one woman's deepest and most intimate prayers—prayers for satisfaction and longing, prayers for healing and prosperity, prayers for fulfillment and joy. Yet, despite years of faithful pleas for deliverance, God led Heidi Fuller on a path filled with heartache and much loss. Infertility, miscarriage, and adoption failures seemed to be the only results of her daily pleadings with God. With a broken and confused heart, Heidi sought to discover the real purpose of her prayers. Heidi's personal study of Scripture led her to discover the gift of peace that accompanies a contrite heart. She learned that in the waiting, God is still working, and that in pain He is still present. She found a Savior who is sufficient and an Ear that is always open. She unveiled the heart of a kind and compassionate Father who delights in doing good. Incomprehensible good. Heavenly good. Eternal good. Heidi's path to answered prayer concludes with the miraculous reminder of God's ability and might. The reminder that submission yields greatest satisfaction and that grace always accompanies a higher good. This inspirational journey will encourage even the faintest heart with a renewed confidence in a God who indeed hears and answers prayer.
