

Answers To Navy Non Resident Training Courses

The relationships of readability (as measured by the Flesch and Kincaid formulas) and conceptual level (CL) to performance on study questions contained in the Non-Resident Career Course (NRCC) Hull Maintenance Technician 3 and 2, NAVEDTRA 91510 were analyzed. Two samples of study questions, a nonerror sample and an error sample, were drawn from this NRCC. The results show that readability between the nonerror and the error samples, or between the textual passages associated with these samples, does not differ significantly. The results do show, however, that the conceptual level (thinking) required to answer the study questions is related to error rate. That is, high error rate study questions are associated with higher conceptual levels than are zero error rate study questions. Methods are presented for using high and low CL study questions to improve the training effectiveness of NRCCs.

The Relationship of Readability and Conceptual Level to Performance on a Navy Non-Resident Career Course Focusing on the body as a visual and discursive platform across public space, this book explores marginalization as a sociocultural practice and hegemonic schema. The chapters center upon physical contexts, discursive spaces, and philosophical arenas to deconstruct

seemingly intrinsic connections between body and behavior, whiteness, and normativity.

The Navy Yeoman (YN) is an administrative related field and is normally assigned to an administrative office. In today's Navy, the YN carries out a broad range of duties which include office procedures, typing correspondence such as official letters, instructions, notices, plan of the day, fitness and evaluation forms and forms management programs, mail management, security, legal, awards, and records disposal. YN also must demonstrate a working knowledge of pay and allowances, leave procedures, along with maintaining officer and enlisted service records, officer promotions and enlisted advancements. YN must understand the following programs: the officer distribution control report (ODCR) and enlisted distribution verification report (EDVR), casualty assistance calls officer (CACO), social usage and protocol, travel, navy standard integrated personnel system (NSIPS), and individual personnel tempo (ITEMPO). YN also need to have an understanding of working with flag offices.
