Eleanor Estes's *The Hundred Dresses* won a Newbery Honor in 1945 and has never been out of print since. At the heart of the story is Wanda Petronski, a Polish girl in a Connecticut school who is ridiculed by her classmates for wearing the same faded blue dress every day. Wanda claims she has one hundred dresses at home, but everyone knows she doesn't and bullies her mercilessly. The class feels terrible when Wanda is pulled out of the school, but by that time it's too late for apologies. Maddie, one of Wanda's classmates, ultimately decides that she is "never going to stand by and say nothing again."

Howard B. Wigglebottom is a young rabbit who is bullied at school and finally decides to tell his teacher.

"Now a major motion picture! Includes full-color movie photos and exclusive content!"--Dust jacket.

After Katie gets caught teasing a schoolmate, she's told to meet with Mrs. Petrowski, the school counselor, so she can make right her wrong and learn to be a better friend. Bothered at first, it doesn't take long before Katie realizes that bullying has hurt not only the people around her, but her, too. Told from the unusual point of view of the bullier rather than the bullied, *Confessions of a Former Bully* provides kids with real life tools they can use to identify and stop relational aggression.

Brian has always felt invisible at school, but when a new student, Justin, arrives, everything changes.

The Functional Approach to Character Education (FACE) Anti-bullying Curriculum is a K through 5th grade interactive model for alleviating the conditions that often cause students to intimidate other students, including lack of respect for another's feelings, lack of appreciation for physical/behavioral differences, and poor self-esteem. Used by over 10,000 students dating back to 2001, this curriculum is now available via e-Book, both by individual grade or as a K through 5th grade package. Each of the 38 lessons includes a theme, classroom activity, discussion ideas, and takeaway points. Initially authored by Dr. Daniel Price, a licensed clinical psychologist, the curriculum has undergone revisions by grade level teachers since 2001, and modified to include activities that are fun and educational at the same time. Topics covered include:

Responsibility, Respect, Caring, Fairness, Trustworthiness, and Citizenship.

Recognizing you've done something wrong can be hard. Apologizing can be even harder. Punk the Skunk liked to tease. Normally, his teasing was harmless. But today was not a normal day. What happens when teasing goes too far?

While saying sorry and forgiving others can be hard, they are two of the most important social skills a child can learn. Parents, counselors, and teachers will love that the valuable life lessons in this book are taught in such a fun way that kids won't even realize they're learning. Geared towards children in preschool to 2nd grade, ages 3-8. It's never too early to talk about these important social

skills: Showing empathy Dealing with bullying Being a true friend Being kind to others who are different Recognizing when you've done something wrong Saying sorry Forgiving others when they've apologized Teacher and parent discussion materials on these topics are included in the back of the book. When Punk realizes his teasing isn't funny, will he be able to do what it takes to get his friends back, or will it be too late? Find out NOW in this anti-bullying book that may have you rooting for the "under-skunk."

"What we have here is a bad case of stripes. One of the worst I've ever seen!" Camilla Cream loves lima beans, but she never eats them. Why? Because the other kids in her school don't like them. And Camilla Cream is very, very worried about what other people think of her. In fact, she's so worried that she's about to break out in...a bad case of stripes!

WINNER OF A CORETTA SCOTT KING HONOR AND THE JANE ADDAMS PEACE AWARD! Each kindness makes the world a little better This unforgettable book is written and illustrated by the award-winning team that created *The Other Side* and the Caldecott Honor winner *Coming On Home Soon*. With its powerful anti-bullying message and striking art, it will resonate with readers long after they've put it down. Chloe and her friends won't play with the new girl, Maya. Every time Maya tries to join Chloe and her friends, they reject her. Eventually Maya stops coming to school. When Chloe's teacher gives a lesson about how even small acts of kindness can change the world, Chloe is stung by the lost opportunity for friendship, and thinks about how much better it could have been if she'd shown a little kindness toward Maya.

You are not alone. Discover how Lauren Kate transformed the feeling of that one

mean girl getting under her skin into her first novel, how Lauren Oliver learned to celebrate ambiguity in her classmates and in herself, and how R.L. Stine turned being the “funny guy” into the best defense against the bullies in his class.

Today’s top authors for teens come together to share their stories about bullying—as silent observers on the sidelines of high school, as victims, and as perpetrators—in a collection at turns moving and self-effacing, but always deeply personal.

Be yourself like Molly Lou Melon no matter what a bully may do. Molly Lou Melon is short and clumsy, has buck teeth, and has a voice that sounds like a bullfrog being squeezed by a boa constrictor. She doesn't mind. Her grandmother has always told her to walk proud, smile big, and sing loud, and she takes that advice to heart. But then Molly Lou has to start in a new school. A horrible bully picks on her on the very first day, but Molly Lou Melon knows just what to do about that. Pete has a hard time fitting in at his new school, but he soon learns that bullying and tolerating bad behavior is not in keeping with Mandell Elementary's "Promise."

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this “vital, necessary, and beautiful book” (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and “allows us to understand racism as a practice not restricted to ‘bad people’ (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

An irrepressible new girl dethrones the reigning recess bully by becoming her friend in this infectious playground romp.

Homophobic Bullying: Research and Theoretical Perspectives provides a review of key studies that have shaped the way we view homophobia in educational contexts. Using theories and ideas drawn from psychology, sociology, anthropology, and ethology, this book aims to conceptualize homophobic bullying as a construct of dominant institutions and groups that reinforce beliefs about the abnormality of homosexuality. Rivers demonstrates how bullying is a complex social process in which perpetrators are supported by active confederates, passive bystanders, and indifferent onlookers. Rivers also discusses new forms of bullying, such as cyberbullying, and explores the theoretical and social-psychological implications of bullying using new technologies. He discusses the challenges faced by teachers in eroding negative, implicit attitudes in the face of socially acceptable, explicit expressions of these attitudes. Included here are

primary data drawn from various studies that Rivers has conducted over the past two decades, along with discussions of key studies conducted by other researchers in the US, Canada, UK, Australia, and Scandinavia. Rivers explores the psycho-social correlates and potential long-term effects of bullying and homophobia, using various clinical studies as a guide to understanding the potential harm that results from school-based aggression. An important feature of this book is the integration of primary quantitative and qualitative data, case studies from parents, suggested lesson plans, and reports of recent legal action that highlight the dangers for students and teachers of not combating this particular form of school violence. Finally, the book looks to the future and the changing face of schools, the gradual erosion of homophobia as an accepted 'norm' within society, and the institutions that train future generations. Ultimately, this book reflects the research journey of its author and the development of a substantive world-wide body of evidence charting the challenges faced by those who are or are simply labeled lesbian, gay, or bisexual.

"The Israel Lobby," by John J. Mearsheimer of the University of Chicago and Stephen M. Walt of Harvard's John F. Kennedy School of Government, was one of the most controversial articles in recent memory. Originally published in the *London Review of Books* in March 2006, it provoked both howls of outrage and cheers of gratitude for challenging what had been a taboo issue in America: the impact of the Israel lobby on U.S. foreign policy. Now in a work of major importance, Mearsheimer and Walt deepen and expand their argument and confront recent developments in Lebanon and Iran. They describe the remarkable level of material and diplomatic support that the United States provides to Israel and argues that this support cannot be fully explained on either strategic or moral grounds. This exceptional relationship is due largely to the political influence of a loose coalition of individuals and organizations that actively work to shape U.S. foreign policy in a pro-Israel direction. Mearsheimer and Walt provocatively contend that the lobby has a far-reaching impact on America's posture throughout the Middle East—in Iraq, Iran, Lebanon, and toward the Israeli-Palestinian conflict—and the policies it has encouraged are in neither America's national interest nor Israel's long-term interest. The lobby's influence also affects America's relationship with important allies and increases dangers that all states face from global jihadist terror. Writing in *The New York Review of Books*, Michael Massing declared, "Not since *Foreign Affairs* magazine published Samuel Huntington's 'The Clash of Civilizations?' in 1993 has an academic essay detonated with such force." The publication of *The Israel Lobby and U.S. Foreign Policy* is certain to widen the debate and to be one of the most talked-about books in foreign policy.

Bullying has long been tolerated as a rite of passage among children and adolescents. There is an implication that individuals who are bullied must have "asked for" this type of treatment, or deserved it. Sometimes, even the child who is bullied begins to internalize this idea. For many years, there has been a

general acceptance and collective shrug when it comes to a child or adolescent with greater social capital or power pushing around a child perceived as subordinate. But bullying is not developmentally appropriate; it should not be considered a normal part of the typical social grouping that occurs throughout a child's life. Although bullying behavior endures through generations, the milieu is changing. Historically, bullying has occurred at school, the physical setting in which most of childhood is centered and the primary source for peer group formation. In recent years, however, the physical setting is not the only place bullying is occurring. Technology allows for an entirely new type of digital electronic aggression, cyberbullying, which takes place through chat rooms, instant messaging, social media, and other forms of digital electronic communication. Composition of peer groups, shifting demographics, changing societal norms, and modern technology are contextual factors that must be considered to understand and effectively react to bullying in the United States. Youth are embedded in multiple contexts and each of these contexts interacts with individual characteristics of youth in ways that either exacerbate or attenuate the association between these individual characteristics and bullying perpetration or victimization. Recognizing that bullying behavior is a major public health problem that demands the concerted and coordinated time and attention of parents, educators and school administrators, health care providers, policy makers, families, and others concerned with the care of children, this report evaluates the state of the science on biological and psychosocial consequences of peer victimization and the risk and protective factors that either increase or decrease peer victimization behavior and consequences.

This quirky tale teaches young readers the difference between nice teasing and mean teasing. Laughing at someone (mean teasing) has a hurtful bite, but laughing with someone (nice teasing) is alright when it's not done out of spite.

'jargon-free and concise. This is a very readable, thorough and practical book of use to young people, parents and in particular to school staff in preventing and dealing with bullying' - Counselling Children and Young People (CCYP) '...the authors drive home the strong message that bullying 'should never be accepted' and how it can be life threatening. There is clear evidence that the training is based on current research. I found the format innovative, with the excellent add-on of being able to download PowerPoint training slides from the publisher's website' - Emotional and Behavioural Difficulties 'Highly readable and practical, this is a book that provides details of specific ways in which members of the of the school community can collaborate to reduce the incidence of bullying in their school' - Teacher 'This is a clearly written and well designed resource. It is likely to be of value to anyone wishing to develop active anti-bullying policies in schools and is designed for use as a staff development tool over a period of time, but is also focused on the needs of parents, children and young people themselves. It provides some excellent guidance on writing an anti-bullying policy, a useful overview of practical strategies to prevent and counter bullying, helpful advice for parents of children who are being bullied, or children who are involved in bullying others' - SENCO Update 'I like the book's message: Bullying is an activity rather than a stereotypical role. It's no blame approach aims to modify behaviour to avoid provoking a cycle of escalating violence' - The Psychologist 'This excellent book begins by dispelling some myths, hoping to offer schools constructive ways to tackle this deep-seated problem. Clear courses of action are set out, including some for parents whose children are bullying others, and there are photocopiable training resources in the appendices' TES Special Needs 'This is a carefully

considered and road-tested book that could be an invaluable resource to staff seeking to develop their school's response to bullying'- Journal of In-Service Education `Dealing with Bullying in Schools is a very readable book and should be available in every school in the country. What the book emphasizes is that bullying is everyone's problem not merely teacher. This includes the Head of the school, parents and everyone who is part of the community within the school' - Dr L F Lowenstein, Educational, Clinical and Forensic Psychological Consultant `The book is strong on practical information, including handouts and overhead projector sheets, for training staff, students and parents'- Geoff Barton, Times Educational Supplement, Friday Magazine Developed from training courses run by the two authors on the subject of dealing with bullying in schools, this book is designed to work as a training manual. It is geared towards the needs of the class teacher, the school management team, the bullied, the bullies and the parents of both parties. Each chapter offers a set of resources with commentaries for these different groups, so that the reader is provided with a complete pack of advice, guidance and resources. The book includes: - a step-by-step guide to formulating an anti-bullying policy for your school; - suggested strategies for countering and preventing bullying; - detailed advice on working with parents; - clear guidance for parents on what to do if their child is being bullied or is doing the bullying; - tailor-made presentations to use with colleagues and parents. Anyone involved in this issue in a school setting should find this book invaluable. To download the PowerPoint slides from the Appendices, please click on 'Sample Chapters and Resources' to the left
