Apple's new MacBook Air (M1, 2020) is an absolutely fantastic laptop, and thanks to brilliant new additions, in the form of Apple's own M1 chip (which replaces the Intel processors used by the company) and an improved screen. In previous years, the MacBook Air was a reduced version of the MacBook, which was an excellent thin and light laptop for everyday use, but due to its low features did not really fit into intense creative workloads, such as editing, transfer ultra-high definition video or complex 3D animated scenes. However, this latest version has the same M1 chip introduced in the new MacBook Pro 13-inch (M1, 2020), which means that for the first time the MacBook Air can compete with the more expensive laptop. So it really deserves a place around the best laptops in graphic design. It is better, and still the most inexpensive MacBook you can get right now, and it means if you're looking for a slim and lightweight 13-inch laptop for video and photo editing, then the MacBook Air (M1, 2020) is the perfect choice. This guide will teach you how to master your MacBook Air [M1,2020] very fast, this guide is ideal for both Pros and newbies. Here are the contents of this guide

The Complete Beginner to Expert Guide to Maximizing your 2020 MacBook Air. Are you looking for a comprehensive user manual that will help you SETUP and MASTER your MacBook Air? Are you looking for a manual that will expose you to all the amazing features of your device and 2020 MacOS Catalina 10.15? Then get your hands on this book and have an amazing time using your device. Apple updated the MacBook Air in a major way in mid-March 2020. While it may look like the previous version on the surface, dig a little deeper and you'll see it's the most significant upgrade since the 2018 redesign, offering buyers much more interesting customization options. The third iteration of the 'new' MacBook Air design finally nails every area well enough to make this the best MacBook for most people. The keyboard is the star of the show here, Yep, that's right. Apple ditched the disastrous butterfly keyboard for its Magic Keyboard and all I can say is: thank goodness. Even with all these new features, Apple still managed to keep the starting price at a relatively affordable \$999. The MacBook Air (2020) comes with all the right improvements without sacrificing the best features of the previous version. Apple didn't reinvent the MacBook Air on the outside. But the 2020 model does have some exciting improvements under the hood. There's a 10th-generation processor, and double the base storage. There is a lot to love in Apple's latest MacBook Air. This book is written in simple and clear terms, with a step-by-step approach that will help you to master your MacBook Air with 2020 MacOS Catalina 10.15 within the shortest period of time.
