"In the wake of the apocalypse, Flora has come of age in a highly gendered post-plague society where females have become a precious, coveted, hunted, and endangered commodity. But Flora does not participate in the economy that trades in bodies. An anathema in a world that prizes procreation above all else, she is an outsider everywhere she goes, including the thriving all-female city of Shy. Now navigating a blighted landscape, Flora, her friends, and a sullen young slave she adopts as her own child leave their oppressive pasts behind to find their place in the world. They seek refuge aboard a ship where gender is fluid, where the dynamic is uneasy, and where rumors flow of a bold new reproductive strategy."--

In this groundbreaking guide for clinicians, psychologist Matthew McKay and Aprilia West present emotional efficacy therapy (EET)—a powerful and proven-effective model for treating clients with emotion regulation disorders. If you treat clients with emotion regulation disorders—including depression, anxiety, post-traumatic stress disorder (PTSD), bipolar disorder, and borderline personality disorder (BPD)—you know how important it is for these clients to take control of their emotions and choose their actions in accordance with their values. To help, emotion efficacy therapy (EET) provides a new, theoretically-driven, contextually-based treatment that integrates components from acceptance and commitment therapy (ACT) and dialectical behavior therapy (DBT) into an exposure-based protocol. In doing so, EET targets the transdiagnostic drivers of experiential avoidance and distress intolerance to increase emotional efficacy. This step-by-step manual will show you how to help your clients confront and accept their pain, and learn to apply new adaptive responses to emotional triggers. Using a brief treatment that lasts as little as eight weeks, you will be able to help your clients understand and develop a new relationship with their emotions, learn how to have mastery over their emotional experience, practice values-based action in the midst of being emotionally triggered, and stop intense emotions from getting in the way of creating the life they want. Using the transdiagnostic, exposure-based approach in this book, you can help your clients manage difficult emotions, curb negative reactions, and start living a better life. This book is a game changer for emotion exposure treatment!

Dave Richardson bought his first motorcycle at 14. He wasn't much of a racer but wanted motorcycles to be his life. After a few odd jobs, he became a partner in newly-forming Moto International, and in no time, was thrust into running it. "It's a motorcycle shop. How hard can it be?" How hard indeed? Dave thought the hard part would be attracting customers. He never dreamed of the unexpected challenges. In these pages, the author of Guzziology tells the surprising story of dealing with banks, motorcycle manufacturers and distributors, defense contractors, finance companies, the public, and the EPA. He tells of fixing problems ignored by manufacturers, advocating for improvements in bikes, and trying to get distributors to fix customer's bikes. His career in motorcycle shops spanned 34 years, representing at various times Aprilia, Cagiva, Ducati, Husqvarna, Hyosung, KTM, Laverda, MuZ, and Ural. But always, Moto Guzzi.

Recommendation: During the 1990's, I was in Mandello del Lario, Italy as part of the Moto Guzzi design team and Dave was in Seattle Washington trying to keep his Moto Guzzi shop solvent. Despite the distance, our paths crossed often. Dave was frequently invited to the Guzzi factory and became an advisor to the management. Dave is a great storyteller and this one is fascinating. It's about five decades of a life dedicated to motorcycles, starting as a kid drooling over the bikes in a motorcycle shop and ending as a savvy businessman using all his skills to keep his motorcycle shop alive. It's about a love for the sport bordering on obsession, about adversity and perseverance. If you have ever thought that the owner of your local bike shop selling those gorgeous, expensive Italian motorcycle might be stuffing money under his mattress then this tale could change your thinking. If you have ever wondered what it might be like to be a motorcycle shop owner then this book is for you too. Go on a 60-year ride with Harley-Davidson's Sportster Things got a little weird in the American motorcycle industry after World War II. People hungered for new motorcycles, buying just about everything manufacturers could build. But on rare occasions a manufacturer produced a machine that nobody wanted. Such was the case with the Harley-Davidson Model K. The Model K had most of the features buyers wanted in a modern machine, like hand-operated clutches, foot-operated shifters, and cool-running aluminum heads, but it lacked perhaps the most important technological upgrade: a modern overhead-valve valve-train design. The Model K retained the antiquated side-valve design because of arcane AMA racing rules written when Harley-Davidson and Indian competed head-to-head on American racetracks, but by 1952 Indian was on its last legs. This should have made the Model K a massive sales success. What nobody counted on was the British bike invasion. Thanks to their modern overhead-valve engines, the lightweight British bikes humiliated the side-valve Harleys on the track and on the street. Upgrades to the Model K didn't help; Harley finally relented and introduced a new overhead-valve middleweight for the 1957 model year. Dubbed the Sportster, it was everything the Model K was not. More importantly, it was faster than the British competition. Thus began the Sportster's sixty-year reign. Harley-Davidson Sportster: Sixty Years tells the complete Sportster story. Noted Sportster expert Allen Girdler covers all the bikes--the XLCH, Caf_Racer, XR1000, XLX, 883, Iron, Forty-Eight, Seventy-Two, and Nightster--that have made the Sportster one of the most iconic motorcycles on earth.
