The publication of the James Herriot books led to an upsurge in interest in the veterinary profession among the public and inspired many to study veterinary medicine. However, the veterinary profession has changed markedly since those Herriot days, with many more opportunities for people entering the veterinary field, including such as job prospects in bioscience research, government work, specialization in exotic animal medicine, animal welfare advisory work, international development work, and a whole host of other career options. The landscape of the veterinary curriculum has also broadened considerably, with topics like animal behavior, ethics, business management, client communication, veterinary public health, and clinical skills, alongside clinical veterinary medicine. Authored by a Royal Veterinary College instructor with extensive experience within the veterinary profession and with teaching new students, this book provides a thorough explanation of what prospective students can expect to study at veterinary school, and it discusses career options available to new graduates. Additionally, the book offers a useful overview of current issues in the wider veterinary profession, as well as an honest and thought-provoking discussion of what veterinary life is actually like. It will also be of benefit to qualified vets and agricultural students. [Subject: Veterinary Science, Medicine, Agriculture]

Alan's true story picks up after his parole from Trenton State Prison where he served 27 months of a 3 to 5 year sentence for possession and sale of drugs. He thought he had his drug addiction problems beaten. He felt that alcohol without drugs would provide him the relief that he needed from his anxiety and depression. He started becoming more

and more reliant on alcohol as the days passed. His social anxiety was so great that he could not participate in conversations in a group context. His alcoholic life was a whirlwind of brief sexual encounters and drinking at bars in Greenwich Village. His sexual identity was non-existent. He had no sexual preference of a female over a male or vice-versa. Alan was just getting started on his academic career as a free man. He had taken his first 4 college courses in prison and was determined to earn at least a bachelor's degree. In no time at all he was consuming alcohol before every social gathering whether it was at home, at work or on the university campus. Alan appeared aloof to many acquaintances, but his quiet nature was due to his intense anxiety levels and sporadic depression. The years advance and Alan chronicles the huge impact alcoholism has on his life and his urgent attempts to work towards solutions to his inner turmoil. As his alcoholism progresses, he gets closer and closer to losing everything he's worked and strived for. His personal relationships are falling apart. His work on the job is suffering and his relationships with co-workers are becoming stressed. He needs a solution and he needs it now.
