

Aqa A Level Chemistry Student Guide Practical Chemistry

Practise and prepare for AQA A-level Chemistry with hundreds of topic-based questions and one complete set of exam practice papers designed to strengthen knowledge and prepare students for the exams. This extensive practice book raises students' performance by providing 'shed loads of practice', following the 'SLOP' learning approach that's recommended by teachers. - Consolidate knowledge and understanding with practice questions for every topic and type of question, including multiple-choice, multi-step calculations and extended response questions. - Develop the mathematical, literacy and practical skills required for the exams; each question indicates in the margin which skills are being tested. - Confidently approach the exam having completed one set of exam-style practice papers that replicate the types, wording and structure of the questions students will face. - Identify topics and skills for revision, using the page references in the margin to refer back to the specification and accompanying Hodder Education Student Books for remediation. - Easily check answers with fully worked solutions and mark schemes provided in the book.

Develop and learn to apply your knowledge, progressing from basic concepts to more complicated Chemistry, with worked examples, practical activities and mathematical support in this updated, all-in-one textbook for Years 1 and 2. Written for the AQA A-level Chemistry specification, this revised textbook will: - Provide support for all 12 required practicals with activities that introduce practical work and other experimental investigations in Chemistry. - Offer detailed examples to help you get to grips with difficult concepts such as physical chemistry calculations. - Helps to improve mathematical skills with support throughout, examples of method and a dedicated 'Maths for chemistry' chapter. - Allow you to easily measure progression with differentiated end-of-topic questions and 'Test yourself' questions. - Develop understanding with free online access to 'Test yourself' answers, 'Practice' question answers and extended glossaries*.

Written by experienced examiners Alyn McFarland and Nora Henry, this Student Guide for Chemistry: - Helps you identify what you need to know with a concise summary of the topics examined in the AS and A-level specifications - Consolidates understanding with tips and knowledge check questions - Provides opportunities to improve exam technique with sample answers to exam-style questions - Develops independent learning and research skills - Provides the content for generating individual revision notes

Exam Board: AQA Level: AS/A-level Subject: Chemistry First Teaching: September 2015 First Exam: June 2016 Ensure your students get to grips with the core practicals and develop the skills needed to succeed with an in-depth assessment-driven approach that builds and reinforces understanding; clear summaries of practical work with sample questions and answers help to improve exam technique in order to achieve higher grades. Written by experienced teachers Tim Waite and Amber Waite, this Student Guide for practical Chemistry:- Help students easily identify what they need to know with a concise summa.

Exam Board: AQA Level & Subject: AS Chemistry First teaching: September 2015 First exams: June 2016 AQA approved

New 2017 Cambridge A Level Maths and Further Maths resources to help students with learning and revision. Written for the AQA AS/A Level Further Mathematics specifications for first teaching from 2017, this print Student Book covers the compulsory content for AS and the first year of A Level. It balances accessible exposition with a wealth of worked examples, exercises and opportunities to test and consolidate learning, providing a clear and structured pathway for progressing through the course. It is underpinned by a strong pedagogical approach, with an emphasis on skills development and the synoptic nature of the course. Includes answers to aid independent study. This book has entered an AQA approval process.

Exam Board: AQA Level & Subject: A-level Chemistry First teaching: September 2015 First exams: June 2017 AQA approved

The only textbook that completely covers the Oxford AQA International AS & A Level Chemistry specification (9620), for first teaching in September 2016. Written by experienced authors, the engaging, international approach ensures a thorough understanding of complex concepts and provides exam-focused practice to build exam confidence. Help students develop the scientific, mathematical and practical skills and knowledge needed for Oxford AQA assessment success and the step up to university. Ensure students understand the bigger picture, supporting their progression to further study, with synoptic links and a focus on how scientists and engineers apply their knowledge in real life.

Exam Board: AQA Level: AS/A-level Subject: Chemistry First Teaching: September 2015 First Exam: June 2017 AQA Approved Help students to apply and develop their knowledge, progressing from basic concepts to more complicated Chemistry, with worked examples, practical activities and mathematical support throughout. - Provides support for all 12 required practicals with activities that introduce practical work and other experimental investigations in Chemistry - Offers detailed examples to help students get to grips with difficult concepts such as Physical Chemistry calculations - Mathematical skills are integrated throughout the book and all summarised in one chapter for easy reference - Allows you to easily measure progression with Differentiated End of Topic questions and Test Yourself Questions - Develops understanding with free online access to 'Test yourself' answers and an extended glossary.

Suitable for all examination specifications for students over 16, this friendly and reliable guide leads students through examples of each problem.

AQA Approved Help students to apply and develop their knowledge, progressing from basic concepts to more complicated Chemistry, with worked examples, practical activities and mathematical support throughout - Provides support for all 12 required practicals with activities that introduce practical work and other experimental investigations in Chemistry - Offers detailed examples to help students get to grips with difficult concepts such as Physical Chemistry calculations - Mathematical skills are integrated throughout the book and all summarised in one chapter for easy reference - Allows you to easily measure progression with Differentiated End of Topic questions and Test Yourself Questions - Develops understanding with free online access to Test yourself Answers, an Extended Glossary, Learning Outcomes and Topic Summaries AQA A-level Chemistry Year 1 includes AS-level.

A new series of bespoke, full-coverage resources developed for the 2015 A Level English qualifications. Endorsed for the AQA A/AS Level English Language specifications for first teaching from 2015, this print Student Book is suitable for all abilities, providing stretch opportunities for the more able and additional scaffolding for those who need it. Helping bridge the gap between GCSE and A Level, the unique three-part structure provides essential knowledge and allows students to develop their skills through a deeper study of key topics, whilst encouraging independent learning. An enhanced digital version and free Teacher's Resource are also available.

Ensure your students get to grips with the core practicals and develop the skills needed to succeed with an in-depth assessment-driven approach that builds and reinforces understanding; clear summaries of practical work with sample questions and answers help to improve exam technique in order to achieve higher grades. Written by experienced teacher Nora Henry, this Student Guide for practical Chemistry: - Help students easily identify what they need to know with a concise summary of required practical work examined in the A-level specifications. - Consolidate understanding of practical work, methodology, mathematical and other skills out of the laboratory with exam tips and knowledge check questions, with answers in the back of the book. - Provide plenty of opportunities for students to improve exam technique with sample answers, examiners tips and exam-style questions. - Offer support beyond the Student books with coverage of methodologies and generic practical skills not focused on in the textbooks.

This chemistry text is written to match exactly the specification for teaching Advanced Chemistry from September 2000. There are two strands, AS and A2, with student books. The accompanying resource packs are also available on CD-ROM.

Covering A-level Year 2 for the 2015 AQA specification, this student book combines the most comprehensive explanation with features that build skills in practical work, maths and evaluation. With a clear path of progress, it prepares students for the demands of A-level and beyond.

Specifically tailored for the new 2016 AQA GCSE Science (91) specifications, this third edition supports your students on their journey from Key Stage 3 and through to success in the new linear GCSE qualifications. These revision guides will help students revise key concepts, and provide plenty of differentiated practice questions and support.

Help students to apply and develop their knowledge, progressing from basic concepts to more complicated Chemistry, with worked examples, practical activities and mathematical support throughout - Provides support for all 12 required practicals with activities that introduce practical work and other experimental investigations in Chemistry - Offers detailed examples to help students get to grips with difficult concepts such as Physical Chemistry calculations - Mathematical skills are integrated throughout the book and all summarised in one chapter for easy reference - Allows you to easily measure progression with Differentiated End of Topic questions and Test Yourself Questions - Develops understanding with free online access to Test yourself Answers, an Extended Glossary, Learning Outcomes and Topic Summaries AQA A-level Chemistry Year 1 includes AS-level

Fully revised and updated for the new linear qualification, written and checked by curriculum and specification experts, this Student Book supports and extends students through the new course while delivering the breadth, depth, and skills needed to succeed in the new A Levels and beyond.

Specifically tailored for the new 2016 AQA GCSE Science (9-1) specifications, this third edition supports your students on their journey from Key Stage 3 and through to success in the new linear GCSE qualifications. This series help students and teachers monitor progress, while supporting the increased demand, maths, and new practical requirements.

Written by experienced examiners Alyn McFarland and Nora Henry, this Student Guide for Chemistry: - Helps students identify what they need to know with a concise summary of the topics examined in the AS and A-level specifications - Consolidates understanding with tips and knowledge check questions - Provides opportunities to improve exam technique with sample answers to exam-style questions - Develops independent learning and research skills - Provides the content for generating individual revision notes

AQA Chemistry is the only set of resources to have been developed with, and exclusively endorsed by, AQA, making them the first choice to support the new AQA specification for AS and A2. With a range of truly blended resources, AQA Chemistry offers complete coverage and support through a variety of printed and electronic media. By working closely with AQA, Nelson Thornes have produced resources that will give students and teachers all they need to work through the specification with complete confidence.

Exam Board: AQA Level: AS/A-level Subject: Chemistry First Teaching: September 2015 First Exam: June 2016 Ensure your students get to grips with the core practicals and develop the skills needed to succeed with an in-depth assessment-driven approach that builds and reinforces understanding; clear summaries of practical work with sample questions and answers help to improve exam technique in order to achieve higher grades. throughout. - Provides support for all 12 required practicals with activities that introduce practical work and other experimental investigations in Chemistry - Offers detailed examples to help students get to grips with difficult concepts such as Physical Chemistry calculations - Mathematical skills are integrated throughout the book and all summarised in one chapter for easy reference - Allows you to easily measure progression with Differentiated End of Topic questions and Test Yourself Questions - Develops understanding with free online access to Test yourself Answers, an Extended Glossary, Learning Outcomes and Topic Summaries

Endorsed and approved by AQA, this GCSE series aims to provide a match to each of the GCSE science awards. Working together with AQA, it offers printed and electronic resources that seek to work together to provide you with all the support you need to learn the specifications.

Please note this title is suitable for any student studying: Exam Board: AQA Level: A Level Year 2 Subject: Chemistry First teaching: September 2015 First exams: June 2017 Fully revised and updated for the new 2015 specification, written and checked by curriculum and specification experts, this Student Book supports and extends students through the new course while delivering the breadth, depth, and skills needed to succeed in the new A Levels and beyond. Covers all the content required for the second year of AQA A Level Chemistry studies.

Please note this title is suitable for any student studying: Exam Board: AQA Level: A Level Subject: Chemistry First teaching: September 2015 First exams: June 2017 Fully revised and updated for the new linear qualification, written and checked by curriculum and specification experts, this Student Book supports and extends students through the new course whilst delivering the maths, practical and synoptic skills needed to succeed in the new A Levels and beyond. The book uses clear straightforward explanations to develop real subject knowledge and allow students to link ideas together, while developing essential exam skills.

Aqa a Level Chemistry Year 1 Student Book

Written by experienced examiners Alyn McFarland and Nora Henry, this Student Guide for Chemistry: -Identifies the key content you need to know with a concise summary of topics examined in the A-level specifications - Enables you to measure your understanding with exam tips and knowledge check questions, with answers at the end of the guide -Helps you to improve your exam technique with sample answers to exam-style questions -Develops your independent learning skills with content you can use for further study and research

AQA approved. Expand and challenge your students' knowledge and understanding of Chemistry with this textbook that guides students through each topic, the 8 required practical activities and assessment requirements of the new 2016 AQA GCSE Chemistry specification. - Provides support for all 8 required practicals, along with extra tasks for broader learning - Tests understanding and consolidate learning with Test Yourself questions, Show you Can challenges, Chapter review questions and synoptic practice questions - Supports Foundation and Higher tier students, with Higher tier-only content clearly marked - Builds Literacy skills for the new specification with key words highlighted and practice extended answer writing and spelling/vocabulary tests
