Aquafaba literally means bean water -- the water that's drained off neutral-colored beans like chickpeas, white beans and cannellini beans. Vegans have had limited choices when it came to baked goods. The existing substitutes did not have the chemical properties of eggs which made them integral for binding and leavening. But now there is the perfect substitute and it's aquafaba. And it's blown open the world of vegan baking. This collection of recipes, however, is not only for vegans. It is great for anyone who has an allergy to dairy and eggs. It's proof that you can go egg-free and still enjoy delicious recipes. You will never miss eggs again. The general rule of thumb is 3 tbsp of aquafaba equals one egg. The protein in aquafaba, when mixed with some sugar and a pinch of cream of tartar, perfectly simulates egg whites. Neutral in taste, you don't have to worry about your dishes tasting beany. All your breakfast and brunch favorites are here

from omelettes, French Toast and pancakes to scones and crepes. You'll enjoy satisfying and sumptuous Vegan Shepherds Pie, Vegan Mac and Cheese and Manicotti for lunch or dinner. And you can once again enjoy Alfredo Sauce over your pasta. And the meringue desserts are not to be missed -- Fruit Pavlova and Sweet Potato Pie to Lemon Meringue Pie. Chocolate Chip Cookies, S'mores Bars, Snickerdoodles and Chocolate Ice Cream are perfect for those children's birthday parties where allergies are now a prevailing concern. Now you no longer have to live without the culinary wonders that eggs and egg whites produce. All you need to do is open up a can of chickpeas, drain the water and you're ready to go.

From the Latin aqua (water) and faba (beans), aquafaba is the cooking liquid found in tinned beans and other legumes like chickpeas or the liquid left over from cooking your own. It can be used to replace egg whites in many sweet and savory recipes. Its unique mix of starches, proteins, fiber and sugars, which are left in the water after cooking, gives aquafaba a wide range of emulsifying, foaming, binding and thickening properties, making it the perfect ingredient in vegan cooking or recipes for those who have egg allergies. It's amazing to think that this precious liquid that we all threw down the sink could have such incredible properties? This is a real culinary revolution. The authors give all the

secrets of aquafaba; how to make your own at home with just chickpeas and water and then how to use it in a dazzling array of recipes. Aquafaba beaten with a whisk produces a mountain of snowy white, giving volume to your muffins, and binding in your pasta. At last for vegans, lemon meringue pie, mousses, mayonnaise, macarons and meringues are on the menu. Sébastien and Laura have thought of everything. Having created your aquafaba there are even a collection of recipes at the end of the book which use those cooked chickpeas to make hummus, falafels and curries.
