It's not easy being Claire. (Really.) Claire's life is a joke . . . but she's not laughing. While her friends seem to be leaping forward, she's dancing in the same place. The mean girls at school are living up to their mean name, and there's a boy, Ryder, who's just as bad, if not worse. And at home, nobody's really listening to her -- if anything, they seem to be more in on the joke than she is. Then into all of this (not-very-funny-to-Claire) comedy comes something intense and tragic -- while her dad is talking to her at the kitchen table, he falls over with a medical emergency. Suddenly the joke has become very serious -- and the only way Claire, her family, and her friends are going to get through it is if they can find a way to make it funny again.

There is nothing to be found in the pages of A Series of Unfortunate Events but misery and despair. You still have time to choose another international best-seller to read. But if you must know what unpleasantries befall the charming and clever Baudelaire children read on . . . In The Wide Window we encounter a story that includes a hurricane, a signalling device, hungry leaches, cold cucumber soup, a horrible villain and a doll named Pretty Penny. With 5 million copies sold in the UK alone, one might consider Lemony Snicket's A Series of Unfortunate Events to make him one of the most successful children's authors of the past decade. We, however, consider these miserable so-called adventure stories and the Hollywood film starring Jim Carrey that accompanied the books for children as nothing more than a dreadful mistake.

A gripping wilderness adventure and survival story It was getting colder. Johnny pulled the fur-lined hood of his parka over his head and walked towards his own cabin with the sound of snow crunching beneath his boots. "He should be back tomorrow," he thought, as a star raced across the sky just below the North Star. "He should be back tomorrow for sure." Seventeen-year-old Johnny Least-Weasel knows that his grandfather Albert is a stubborn old man and won't stop checking his own traplines even though other men his age stopped doing so years ago. But Albert Least-Weasel has been running traplines in the Alaskan wilderness alone for the past sixty years. Nothing has ever gone wrong on the trail he knows so well. When Albert doesn't come back from checking his traps, with the temperature steadily plummeting, Johnny must decide quickly whether to trust his grandfather or his own instincts. Written in alternating chapters that relate the parallel stories of Johnny and his grandfather, John Smelcer's The Trap poignantly addresses the hardships of life in the far north, suggesting that the most dangerous traps need not be made of steel.
