This fun, absorbing book, packed with quirky bite-sized lists, quizzes and trivia, is an exploration of the Latin language, aiming to prove that it is as vibrant and relevant today as it was 2,500 years ago. It includes sections on Latin in the movies, US state mottoes and place names, and also some choice snippets from real Latin poetry from Catullus, Horace and Virgil, with evocative translations. It contains a fascinating section on the Roman emperors and what they got up to, and gives the basics of the language itself for anyone who would like to learn it. Quizzes allow the reader to guess the names of famous books, songs and James Bond films, cunningly translated into Latin. From the spells in Harry Potter to the use of Latin in Asterix, to the Latin terms that litter law and medicine to the meaning behind UK football club mottoes, this book is the perfect gift for anyone who wants to brush up their Latin, whether they studied it at school or not.

It's a disaster - the druid Getafix has broken his golden sickle. Asterix and Obelix go to Lutetia (now Paris) to buy him a new one. Soon they are tangling with the criminal underworld of the big city - can they outwit Navishtrix, Clovogarlix and the sickle-trafficking gang? Will Getafix ever be able to brew magic potion again? When *Theatres of Memory* was first published in 1994, it transformed the debate about what is to be considered history and questioned the role of "heritage" that lies at the heart of every Western nation's obsession with the past. Today, in the age of *Downton Abbey* and *Mad Men*, we are once again conjuring historical fictions to make sense of our everyday lives. In this remarkable book, Samuel looks at the many different ways we use the "unofficial knowledge" of the past. Considering such varied areas as the fashion for "retrofitting," the rise of family history, the joys of collecting old photographs, the allure of reenactment societies and televised adaptations of Dickens, Samuel transforms our understanding of the uses of history. He shows us that history is a living practice, something constantly being reassessed in the world around us.

Since at least 1939, when daily-strip caveman Alley Oop time-traveled to the Trojan War, comics have been drawing (on) material from Greek and Roman myth, literature and history. At times the connection is cosmetic-as perhaps with Wonder Woman's Amazonian heritage-and at times it is almost irrelevant-as with Hercules' starfaring adventures in the 1982 Marvel miniseries. But all of these make implicit or explicit claims about the place of classics in modern literary culture. *Classics and Comics* is the first book to explore the engagement of classics with the epitome of modern popular literature, the comic book. This volume collects sixteen articles, all specially commissioned for this volume, that look at how classical content is deployed in comics and reconfigured for a modern audience. It opens with a detailed historical introduction surveying the role of classical material in comics since the 1930s. Subsequent chapters cover a broad range of topics, including the incorporation of modern theories of myth into the creation and interpretation of comic books, the appropriation of characters from classical literature and myth, and the reconfiguration of motif into a modern literary medium. Among the well-known comics considered in the collection are Frank Miller's *300* and *Sin City*, DC Comics' *Wonder Woman*, Jack Kirby's *The Eternals*, Neil Gaiman's *Sandman*, and examples of Japanese manga. The volume also includes an original 12-page "comics-essay," drawn and written by Eisner Award-winning Eric Shanower, creator of the graphic novel series *Age of Bronze*.

On visiting Jim Humble, who treats HIV and Cancer in an African clinic as a cold, I saw the necessity to write down all the practical information that I had made with MMS in my own environment and in various travels to Mozambique in books, in order to take the barrier away from the sceptics for the use of MMS. Maybe you are one of the people that no longer believe

in wonders, due to your illness and long sufferings. This is okay, for although MMS stands for "Miracle Mineral Solution," it works naturally and in healing it is nothing extraordinary. In the book "MMS - DISEASES EASY TO CURE," you can read how you can get healthy in the simplest way and live a happy life. In Africa, Jim Humble healed HIV, Cancer and a lot of other diseases within 3 weeks and Malaria within 4 hours. At the same time, I documented my experiences with MMS, Moringa Oleifera and the development of various projects in Africa in the travelogue with lots of beautiful photographs. One part of the profit made by selling the books goes to the projects in Mozambique. All the information about MMS is copyrighted and belongs to Jim Humble as the spiritual father. That's why we pay royalties to Jim Humble and support all his projects.

Whereas in English-speaking countries comics are for children or adults “who should know better,” in France and Belgium the form is recognized as the “ninth art” and follows in the path of poetry, architecture, painting, and cinema. The bande dessinée [comic strip] has its own national institutions, regularly obtains front-page coverage, and has received the accolades of statesmen from De Gaulle onwards. On the way to providing a comprehensive introduction to the most francophone of cultural phenomena, this book will consider national specificity as relevant to an anglophone reader, whilst exploring related issues such as text/image expression, historical precedents, and sociological implication. To do so it will present and analyse priceless manuscripts, a Franco-American rodent, Nazi propaganda, a museum-piece urinal, intellectual gay porn and a prehistoric warrior who's really Zinedine Zidane.
