Paradise Lost is an epic poem in blank verse by the 17th-century English poet John Milton (1608-1674). The first version, published in 1667, consists of ten books with over ten thousand lines of verse. It is considered to be Milton's masterpiece, and it helped solidify his reputation as one of the greatest English poets of his time. The poem concerns the biblical story of the Fall of Man: the temptation of Adam and Eve by the fallen angel Satan and their expulsion from the Garden of Eden. Paradise Lost. We all know the stories of Cinderella, Snow White, and Rapunzel. But have you ever heard of Alice Bingley-Beckerman, Reena Paruchuri, or Molly Miller? Of course you haven't. Not yet. What these girls have in common with their fairy tale sisters is this: they are the stepdaughters of three very evil stepmothers. And they're not happy about it. They think they are alone in their unhappiness until they arrive at Putnam Mount McKinsey, a posh boarding school located in lovely rural Massachusetts. Here is where they will plot their revenge. But first they have to meet. In her first novel, Lily Archer tells a knowing, wickedly funny story about how friendship just may turn out to be more happily-ever-after than family.

"[A] glorious mash-up of memoir, love note, and cookbook. . . Every sentence is as sensuous as the first bite into a cold, juicy plum."—Hillary Kelly, *Vulture* "[A] dazzling, thorny new essay collection."—Samin Nosrat, *The New York Times Magazine* Inspired by twenty-six fruits, the essayist, poet, and pie lady Kate Lebo expertly blends natural, culinary, medical, and personal history. A is for aronia, berry member of the apple family, clothes-stainer, superfruit with reputed healing power. D is for durian, endowed with a dramatic rind and a shifting odor—peaches, old garlic. M is for medlar, name-checked by Shakespeare for its crude shape, beloved by gardeners for its flowers. Q is for quince, which, when fresh, gives off the scent of “roses and citrus and rich women's perfume,” but if eaten raw is so astringent it wicks the juice from one's mouth. In a work of unique invention, these and other difficult fruits serve as the central ingredients of twenty-six lyrical essays (with recipes). What makes a fruit difficult? Its cultivation, its harvest, its preparation, the brevity of its moment for ripeness, its tendency toward rot or poison, the way it might overrun your garden. Here, these fruits will take you on unexpected turns and give sideways insights into relationships, self-care, land stewardship, medical and botanical history, and so much more. What if the primary way you show love is through baking, but your partner suffers from celiac disease? Why leave in the pits for Willa Cather's plum jam? How can we rely on bodies as fragile as the fruits that nourish them?

Kate Lebo's unquenchable curiosity promises adventure: intimate, sensuous, ranging, bitter, challenging, rotten, ripe. After reading *The Book of Difficult Fruit*, you will never think of sweetness the same way again.

Every little girl goes through her princess phase, whether she wants to be Snow White or Cinderella, Belle or Ariel. But then we grow up. And life is not a fairy tale. Christine Heppermann's collection of fifty poems puts the ideals of fairy tales right beside the life of the modern teenage girl. With piercing truths reminiscent of Laurie Halse Anderson and Ellen Hopkins, this is a powerful and provocative book for every young woman. E. Lockhart, author of *We Were Liars*, calls it "a bloody poetic attack on the beauty myth that's caustic, funny, and heartbreaking." Cruelties come not just from wicked stepmothers, but also from ourselves. There are expectations, pressures, judgment, and criticism. Self-doubt and self-confidence. But there are also friends, and sisters, and a whole hell of a lot of power there for the taking. In fifty poems, Christine Heppermann confronts society head on. Using fairy tale characters and tropes, *Poisoned Apples* explores how girls are taught to think about themselves, their bodies, and their friends. The poems range from contemporary retellings to first-person accounts set within the original tales, and from deadly funny to deadly serious. Complemented throughout with black-and-white photographs from up-and-coming artists, this is a stunning and sophisticated book to be treasured, shared, and paged through again and again.

We are not born knowing what to eat; as omnivores it is something we each have to figure out for ourselves. From childhood onward, we learn how big a "portion" is and how sweet is too sweet. We learn to enjoy green vegetables -- or not. But how does this education happen? What are the origins of taste? In *First Bite*, award-winning food writer Bee Wilson draws on the latest research from food psychologists, neuroscientists, and nutritionists to reveal that our food habits are shaped by a whole host of factors: family and culture, memory and gender, hunger and love. Taking the reader on a journey across the globe, Wilson introduces us to people who can only eat foods of a certain color; prisoners of war whose deepest yearning is for Mom's apple pie; a nine year old anosmia sufferer who has no memory of the flavor of her mother's cooking; toddlers who will eat nothing but hotdogs and grilled cheese sandwiches; and researchers and doctors who have pioneered new and effective ways to persuade children to try new vegetables. Wilson examines why the Japanese eat so healthily, whereas the vast majority of teenage boys in Kuwait have a weight problem -- and what these facts can tell Americans about how to eat better. The way we learn to eat holds the key to why food has gone so disastrously wrong for so many people. But Wilson also shows that both adults and children have immense potential for learning new, healthy eating habits. An exploration of the extraordinary and surprising origins of our tastes and eating habits, *First Bite* also shows us how we can change our palates to lead healthier, happier lives.
