In the tradition of Guns, Germs, and Steel and Sapiens, a winner of the Royal Society Prize for Science Books shows how four tools enabled us humans to control the destiny of our species "A wondrous, visionary work"--Tim Flannery, scientist and author of the bestselling The Weather Makers What enabled us to go from simple stone tools to smartphones? How did bands of hunter-gatherers evolve into multinational empires? Readers of Sapiens will say a cognitive revolution -- a dramatic evolutionary change that altered our brains, turning primitive humans into modern ones -- caused a cultural explosion. In Transcendence, Gaia Vince argues instead that modern humans are the product of a nuanced coevolution of our genes, environment, and culture that goes back into deep time. She explains how, through four key elements -- fire, language, beauty, and time -- our species diverged from the evolutionary path of all other animals, unleashing a compounding process that launched us into the Space Age and beyond. Provocative and poetic, Transcendence shows how a primate took dominion over nature and turned itself into something marvelous.

Shortlisted for the International Booker Prize 2020 1872. The pampas of Argentina. China is a young woman eking out an existence in a

remote gaucho encampment. After her no-good husband is conscripted into the army, China bolts for freedom, setting off on a wagon journey through the pampas in the company of her new-found friend Liz, a settler from Scotland. While Liz provides China with a sentimental education and schools her in the nefarious ways of the British Empire, their eyes are opened to the wonders of Argentina's richly diverse flora and fauna, cultures and languages, as well as to the ruthless violence involved in nation-building. This subversive retelling of Argentina's foundational gaucho epic Martín Fierro is a celebration of the colour and movement of the living world, the open road, love and sex, and the dream of lasting freedom. With humour and sophistication, Gabriela Cabezón Cámara has created a joyful, hallucinatory novel that is also an incisive critique of national myths.
