“If you’re only going to read one Everest book this decade, make it *The Third Pole*. . . . A riveting adventure.”—Outside Shivering, exhausted, gasping for oxygen, beyond doubt . . . A hundred-year mystery lured veteran climber Mark Synnott into an unlikely expedition up Mount Everest during the spring 2019 season that came to be known as “the Year Everest Broke.” What he found was a gripping human story of impassioned characters from around the globe and a mountain that will consume your soul—and your life—if you let it. The mystery? On June 8, 1924, George Mallory and Sandy Irvine set out to stand on the roof of the world, where no one had stood before. They were last seen eight hundred feet shy of Everest’s summit still “going strong” for the top. Could they have succeeded decades before Sir Edmund Hillary and Tenzing Norgay? Irvine is believed to have carried a Kodak camera with him to record their attempt, but it, along with his body, had never been found. Did the frozen film in that camera have a photograph of Mallory and Irvine on the summit before they disappeared into the clouds, never to be seen again? Kodak says the film might still be viable. . . . Mark Synnott made his own ascent up the infamous North Face along with his friend Renan Ozturk, a filmmaker using drones higher than any had previously flown. Readers witness first-hand how Synnott’s quest led him from oxygen-deprivation training to archives and museums in England, to Kathmandu, the Tibetan high

plateau, and up the North Face into a massive storm. The infamous traffic jams of climbers at the very summit immediately resulted in tragic deaths. Sherpas revolted. Chinese officials turned on Synnott's team. An Indian woman miraculously crawled her way to frostbitten survival. Synnott himself went off the safety rope—one slip and no one would have been able to save him—committed to solving the mystery. Eleven climbers died on Everest that season, all of them mesmerized by an irresistible magic. The Third Pole is a rapidly accelerating ride to the limitless joy and horror of human obsession.

A sampling of the writings of Chinese women poets from ancient times to the twentieth century is accompanied by brief biographies and a discussion of their influence on Chinese literature.

parenting that somehow don't make the Instagram feed. Sharing their outrageous humor, fearless myth-busting, and genuine comfort on every page, they walk you from pregnancy to the toddler years and beyond. Fearless crusaders against the perfection myth and all the gluten-free, sugar-free baking it entails, Cat and Nat assure you that you're already doing a great job, making this an essential companion for moms everywhere.

"Atkinson and Jewell invite each of us to reimagine one's connection to the land while cultivating nature close to home. A must-read for anyone searching for inspired solutions for designing or refining a garden." —Emily Murphy, founder of Pass the Pistil From windswept deserts to misty seaside hills and verdant valleys, the natural landscapes of the American West offer an astounding variety of climates for gardens. Under Western Skies reveals thirty-six of the most innovative designs—all embracing and celebrating the very soul of the land on which they grow. For the gardeners featured here, nature is the ultimate inspiration rather than something to be dominated, and Under Western Skies shows the strong connection each garden has with its place. Packed with Atkinson's stunning photographs and illuminated by Jewell's deep interest in the relationships between people and the spaces they inhabit, Under Western Skies offers page after page of encouraging ingenuity and inventive design for passionate gardeners who call the West home. These twelve dazzling stories from Chimamanda Ngozi Adichie — the Orange Broadband Prize-winning author of Half of a Yellow Sun — are her most intimate works to date. In these stories Adichie turns her penetrating eye to the ties that bind men and women, parents and children, Nigeria and the United States. In "A Private Experience," a medical student hides from a violent riot

with a poor Muslim woman, and the young mother at the centre of “Imitation” finds her comfortable life in Philadelphia threatened when she learns that her husband has moved his mistress into their Lagos home. Searing and profound, suffused with beauty, sorrow and longing, this collection is a resounding confirmation of Adichie’s prodigious literary powers.

Chances are, though, he won't have time to starve to death. The damaged machinery, unforgiving environment, or plain old "human error" are much more likely to kill him first. But Mark isn't ready to give up yet. Drawing on his ingenuity, his engineering skills--and a relentless, dogged refusal to quit--he steadfastly confronts one seemingly insurmountable obstacle after the next. Will his resourcefulness be enough to overcome the impossible odds against him?

"In this powerful short fiction, Mary Gaitskill--whose searing honesty about gender relations has been legendary since the appearance of *Bad Behavior* in the 1980s--considers our moment through the lens of a

particular #metoo incident. The effervescent and well-dressed Quin, a successful book editor and fixture on the New York arts scene, has long been one of Margot's best friends. When several women in his field accuse him of inappropriate touching and remarks, Gaitskill builds the account of his undoing through Quin and Margot's alternating voices, allowing readers to experience Quin as a whole person--one whose behavior toward women could be hurtful and presumptuous on the one hand, and keenly supportive on the other. Margot, an older woman who alternately despairs of and sympathizes with the positions of the younger women involved in Quin's case, is the thrumming engine of this remarkable piece of truth-telling. As Gaitskill has said, fiction is the only way that she could approach this subject, which she sees as subtly colored in shades of gray, rather than the black and white of our current conversations. Her compliment to her characters--and to her readers--is that they are unvarnished and real; her belief in our ability to understand them, even when we don't always admire them, is a beacon of humanity from one of our greatest contemporary writers"--

Fleeing home from his military service in Afghanistan when his wife dies in an apparent freak household accident, Dr. Mike Scanlon struggles with the tragedy, his inability to bond with his new baby daughter and a downsizing in his medical practice only to discover a shocking secret that changes his understanding of everything. In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.
