Author Don Landy provides canine and feline pet owners with a first person look at grief and grieving in a way that may surprise you. Don Landy never expected to have a dog in his life. After falling for a German shepherd named Sabrina and spending nearly eleven years together, Landy found himself sitting on the floor holding the lifeless body of his beloved dog in his arms and sobbing uncontrollably. Reeling from the loss he vows never again to take a pet, and thereby sets himself up for the inevitable pain that most pet owners experience when the end approaches. *A Letter to Tia: Grief. Grieving. The Love, Pain and Loss of a Friend* is his personal account of coming face-to-face with grief and grieving. Pet owners of all ages will find comfort, insight, and at times humor in this reflective, life-affirming story of love and loss. *A Letter to Tia* recounts Landy's past and present struggle with the loss of pets. He starts with the death of his show cat, Charlie Brown, twenty-five years ago and continues through to the recent diagnosis received by Tia, his German shepherd. After the previous loss of Sabrina, Landy and his wife accepted Tia into their lives with understandable trepidation. To insure they made the right move they test the relationship between Tia and their kitten Holly and discover they have become fast friends. However, when Tia is diagnosed with inoperable cancer at four years old, the author finds himself staring down the prospect of consuming sadness over the grim forecast for her survival. Landy chooses to process his grief full-on, identifying the tremendous toll that loss takes on pet owners, and how best to cope with the emotions that accompany it. With a life enriched by memories of his meaningful times with Tia, Landy's book addresses this exceptional feeling of loss, while also offering proof that miracles do happen. A moving tribute to the strong love that is forged between pets and pet owners, *A Letter to Tia: Grief. Grieving. The Love, Pain and Loss of a Friend* is sure to provide readers with a good cry, and a good laugh, as his compassionate, deeply felt, and surprising book celebrates this extraordinary bond.

Mixing personal experience and memory with history, topography, journalism, and an unflagging interest, this guidebook lifts the stone over the Welsh town of Wrexham and finds something rather special. The major center in northeast Wales, this workaday town straddles several lines—the border between Wales and England, the fault line of Welsh and English languages, the shift from heavy industry to post-industrial society, Anglicanism and dissent. It rests in two shadows—upmarket Chester and metropolitan Liverpool—yet to the west lies farming and heritage in the rural vale of Clwyd. This study highlights the features for which Wrexham is famous, and which are just as diverse as the town itself—Wrexham lager, a giant-killing football club, St. Giles' church (one of the Seven Wonders of Wales), Elihu Yale, and many others. The history uncovered here, both civic and personal, is a revelation.

working. You're at greater risk than ever, and even the world's most security-focused organizations are being victimized by massive attacks. In *Thinking Security*, author Steven M. Bellovin provides a new way to think about security. As one of the world's most respected security experts, Bellovin helps you gain new clarity about what you're doing and why you're doing it. Bellovin, co-author of the best-selling *Firewalls and Internet Security*, caught his first hackers in 1971. Drawing on his deep experience, he shares actionable, up-to-date guidance on issues ranging from SSO and federated authentication to BYOD, virtualization, and cloud security. With Contributions From Chelvin Sng (National University Health System, Singapore) & Laurence Lim (Singapore National Eye Centre, Singapore) Many new treatments and diagnostic procedures in ophthalmology have been refined or newly developed during the past four years, a new edition reflecting these changes is most timely. The scope and aim of the book will be consistent with the first edition, which provides a broad review of the specialist ophthalmology examinations for final year ophthalmology residents and trainees. The book deals primarily with key facts and topics that are important from the examination perspective. Only information and facts that are considered relevant and critical to the exams are covered, with topics that may be of scientific interest, but are not commonly tested in exams, specifically

left out. Time-challenged readers will also benefit from the knowledge acquired from various other sources or textbooks that are now organized and synthesized in this book. While not meant to replace the standard textbooks, enough information is contained within the book to serve as the main revision text nearer the exams. The style and format of this book is intentionally didactic, with questions and short answers. The answer includes a “model opening statement,” followed first by a classification system to aid organization of facts, and then the core explanation in concise short notes. “Exam Tips” are inserted to provide an insight into techniques of answering different types of questions and when appropriate, a “Clinical Approach” section is also included. In the new edition, topics such as new understanding of disease mechanisms (e.g., genetics of eye diseases), new investigations (e.g., OCT), and novel procedures and treatment (e.g., the use of antivasular endothelial growth factors, new refractive surgical techniques) are covered. This book will be a valuable guide to the final year ophthalmology residents and trainees taking the specialist ophthalmology examinations, particularly for exams with a strong oral or viva component. Although primarily aimed at candidates attempting the British postgraduate exams (FRCS, FRANZCO, MRCS, MRCOphth and FRCOphth), it is also useful for other examination systems (e.g., the American Boards). Many junior residents, in fact, find the information handy during grand rounds.

Early Modern Spain: A social History explores the solidarities which held the Spanish nation together at this time of conflict and change. The book studies the pattern of fellowship and patronage at the local level which contributed to the notable absence of popular revolts characteristic of other European countries at this time. It also analyses the Counter-Reformation, which transformed religious attitudes, and which had a huge impact on family life, social control and popular culture. Focusing on the main themes of the development of capitalism, the growth of the state and religious upheaval, this comprehensive social history sheds light on changes throughout Europe in the critical early modern period.

Chaereas and Callirhoe . . . is the earliest Greek romantic novel the text of which has been completely preserved; hence it is among the first ancestors of modern European fiction. In this lively tale of adventure, a nobly born heroine is kidnapped across the seas from Syracuse to Asia Minor, where her beauty causes many complications and she is finally rescued by her dashing lover. This book in antiquity took the place of such stories as Dumas and Sabatini have written for later generations.

The first comprehensive presentation for clinicians of the groundbreaking approach popularized in Ross Greene's acclaimed parenting guide, *The Explosive Child*, this book provides a detailed framework for effective, individualized intervention with highly oppositional children and their families. Many vivid examples and Q&A sections show how to identify the specific cognitive factors that contribute to explosive and noncompliant behavior, remediate these factors, and teach children and their adult caregivers how to solve problems collaboratively. The book also describes challenges that may arise in implementing the model and provides clear and practical solutions. Two special chapters focus on intervention in schools and in therapeutic/restrictive facilities.

Features an incredible range of patents for inventions that strain the boundaries of imagination, taste and any form of usefulness. This volume of essays contains contributions from a very wide range of British, American and Spanish scholars. Its primary concern is the relationships between the various ethnic, cultural, regional and religious communities that co-existed in the Iberian peninsula in the later Middle Ages. Conflicts and mutual interactions between them are here explored in a range of both historical and literary studies, to expose something of the rich diversity of the cultural life of later medieval Spain.

I have physical scars from past surgeries, however, I have emotional scars as well. They were buried deep inside (hidden). It wasn't until my mother died was I able to "catch my breath" and to make sense of or process the emotional pain I had endured due to her prescription drug addiction, resulting in my own addictions.

Political ideologies often informed early twentieth-century French novels, creating a hybrid genre that is both "realist" and didactic: the roman thse. In this ground-breaking and critically acclaimed work, Susan Suleiman looks beyond the politics of novels by such authors as Malraux, Mauriac, Sartre, and Aragon, and examines their shared formal and generic features. Although the genre itself is considered antimodern, the critical and interpretive problems it raises are central to an understanding of both realist and modernist writing. "The great virtue of [Suleiman's] book is its ability to synthesize a range of theoretical ideas--whether formalist, structuralist or "reader-response" in the service of a clear and compelling critical argument".--Christopher Norris, The London Review of Books "This book is certainly one of the best examples of semiotic theory put to use for interpretation of literature and its relation to culture".--Thas Morgan, Genre

Selections from one of the greatest essayists of the Graeco-Roman world Plutarch used an encyclopedic knowledge of the Roman Empire to produce a compelling and individual voice. In this superb selection from his writings, he offers personal insights into moral subjects that include the virtue of listening, the danger of flattery and the avoidance of anger, alongside more speculative essays on themes as diverse as God's slowness to punish man, the use of reason by supposedly "irrational" animals and the death of his own daughter. Brilliantly informed, these essays offer a treasure-trove of ancient wisdom, myth and philosophy, and a powerful insight into a deeply intelligent man. Sometimes evil has a familiar face . . . Paul Artisan, P.I. is a new version of an old breed -- a righter of wrongs, someone driven to get to the bottom of things. Too bad his usual cases are of the boring malpractice and fraud variety. Until now. His new gig turns on the disappearance of one of a pair of twins, adult scions of a rich but tragedy-prone family. The missing twin -- a charismatic poster-boy for irresponsibility -- has spent his life daring people to hate him, punishing himself endlessly for his screw-ups and misdeeds. The other twin -- Artisan's client -- is dutiful and resentful in equal measure, bewildered that his "other half" could have turned out so badly, and wracked by guilt at his inability to reform him. He has a more practical reason, as well, for wanting his brother found: their crazy father, in failing health and with guilty secrets of his own, will not divide the family fortune until both

siblings are accounted for. But it isn't just a fortune that's at stake here. Truth itself is up for grabs, as the detective's discoveries seem to challenge everything we think we know about identity, and human nature, and family. As Artisan journeys across the globe to track down the bad twin, he seems to have moved into a mirror-world where friends and enemies have a way of looking very much alike. The P.I. may have his long-awaited chance to put his courage and ideals to the test, but if he doesn't get to the bottom of this case soon, it could very well cost him his life. Troup's long-awaited *Bad Twin* is a suspenseful novel that touches on many powerful themes, including the consequence of vengeance, the power of redemption, and where to turn when all seems lost. *Bad Twin* is a work of fiction and all names, characters and incidents are used fictitiously; the author himself is a fictional character.
