Increasing complexity of markets, skyrocketing aspirations of customers, and use of interactive technology at an ever-accelerating pace have made marketing an evolving and dynamic discipline. Consequently, marketing mantras have also been changing from product-centric to customer-centric, and then from customer satisfaction to customer delight. Marketers are acquiring information and understanding of customers on an ongoing basis, and are then using it to provide a wide variety of products and services at affordable prices to effectively and efficiently satisfy customer needs and wants. All this makes marketing not only relevant, but also quite an exciting subject of study. The book is written in a simple, scientific and lucid style. **KEY FEATURES**

- Content has been developed according to the syllabus requirements
- The units are written in simple language
- Numerous illustrations, examples and case studies for better understanding of concepts
- Chapter end questions for practice

Teachers, parents, students and the governmental agencies are involved in the process of education. The social levels from whom teachers and students come go to determine the quality of education. The process like the community from whom the teachers come and the communities from whom the students can go a long way in influencing the curriculum contents and the outcome of learning. The major problem of any system of education is the outcome of learning after
