

Bangalore University Last Years Question Paper

The special feature of the book is that it tries to cover the syllabi at all India level and is written in a simple and lucid style to be understood by a common man. There are many illustrations, examples and explanation which make the book interesting reading. The book comprises of two parts, namely, Part I – GST and Part II – Customs Law. The latest developments/recent trends in GST and Customs Law have been incorporated at the appropriate places in the book. While a separate section is earmarked for problems and their keys, another part is assigned for Quiz in GST and Customs Law covering 140 questions which would be highly useful to the students appearing for examinations and interviews. Another significant feature of the book is that it has incorporated and highlighted the changes in the Finance Act, 2020, pertaining to GST and Customs Act, 1962. At the end of every chapter adequate questions for Part A and Part B are given. The GST collections, administrative structure and Officers of GST and Customs are included at the appropriate chapters. Further, the past years question papers of some of the Universities are also included in the book. The First edition has discussed clearly in a simple style the provisions and practical aspects of Central GST, State GST and Integrated GST Act. Students pursuing B.Com, BBA, BL, M.Com, MBA, Allied business courses and students wish to appear examination to become GST Practitioner will find the book as a classroom textbook as in the past.

This book on Financial Accounting is specifically designed to cater to the needs of B.COM Semester-I students of Bangalore University. It extensively covers the core concepts of the subject in a student-friendly and meticulous manner. The book attempts to lay a solid foundation for the advanced accounting aspects not only for classroom study, but also their respective application in real-world accounting practices.

Cost Accounting' is designed for the specific requirements of B.COM/B.B.A IV Semester curriculum of Bangalore University. It represents the core concepts of the subject in a systematic and meticulous manner which intends to provide a strong conceptual background to the readers not only for classroom study, but also for corporate-world applicability. The book has been enriched with 25+ years of experience of the authors and provides a right blend of both- theory and application.

This important volume on the history of sociology in India locates scholars, scholarship, theories, perspectives, and practices of the discipline in different cities and regions of the country over a century. It argues that this history is enmeshed in political projects of constructing a 'society', which took place as a result of colonialism and dominant nationalism. The book affirms the existence of both strong and weak traditions of scholarship in India and underscores three processes that have aided this development at various points of time: reflexive interrogation of received scholarship; probing ideal types of theories within classrooms; and questioning existing debates on society and its language by the public.

The University Grants Commission of India is a statutory body set up by the Government of India in accordance to the UGC Act 1956 under Ministry of Human Resource Development, and is charged with coordination, determination and maintenance of standard of higher education. The National Eligibility Test (NET), also known as UGC NET or NTA-UGC-NET, is the test for determining the eligibility for the post of Assistant Professor and or Junior Research Fellowship (JRF) award in Indian universities and colleges. This national level entrance exam is conducted twice every year in the month of June and December. Archaeology Post- Graduates usually opt the UGC NET Archaeology subject to pursue their career either as junior research fellows or professors or both. National Testing Agency (NTA) will conduct UGC NET exam for Assistant Professor and for junior research fellowship. The UGC NET test will consist of two papers, paper 1 and 2. Paper 1 remains common for all subjects and consists of questions from research, teaching & General Aptitude on the other hand paper 2 will consist of questions from only Archaeology subjects.

involving current issues similar to the ones asked in the actual exam.

This self-readable and student-friendly text provides a strong programming foundation to solve problems with C language through its well-supported structured programming methodology, rich set of operators and data types. It is designed to help students build efficient and compact programs. The book, now in its second edition, is an extended version of Dr. M.T. Somashekara's previous book titled as Programming in C. In addition to two newly introduced chapters on 'Graphics using C' and 'Searching and Sorting', all other chapters of the previous edition have been thoroughly revised and updated. The usage of pseudocodes as a problem-solving tool has been explored throughout the book before providing C programming solutions for the problems, wherever necessary. This book comes with an increased number of examples, programs, review questions, programming exercises and interview questions in each chapter. Appendices, glossary, MCQs with answers and solutions to interview questions are given at the end of the book. The book is eminently suitable for students of Computer Science, Computer Applications, and Information Technology at both undergraduate and postgraduate levels. Assuming no previous knowledge of programming techniques, this book is appropriate for all those students who wish to master the C language as a problem-solving tool for application in their respective disciplines. It even caters to the needs of beginners in computer programming. KEY FEATURES • Introduction to problem-solving tools like algorithms, flow charts and pseudocodes • Systematic approach to teaching C with simple explanation of each concept • Expanded coverage of arrays, structures, pointers and files • Complete explanation of working of each program with emphasis on the core segment of the program, supported by a large number of solved programs and programming exercises in each chapter NEW TO THE SECOND EDITION • Points-wise summary at the end of each chapter • MCQs with Answers • Interview Questions with Solutions • Pseudocodes for all the problems solved using programs • Two new chapters on 'Graphics using C' and 'Searching and Sorting' • Additional review questions and programming exercises
