"At a strategic time in South Africa's history, the Christian history which is absolutely basic to all developments, is presented in a comprehensive and objective way. Too little attention is given to the influence of religion in socio-political accounts. This is a creative and much-needed contribution to scholarship and general knowledge. . . . An outstanding work."--Dean S. Gilliland, Fuller Theological Seminary

This book argues that Carnatic music as it is practiced today can be traced to the musical practices of early/mid eighteenth century. Earlier varieties or 'incarnations' of Indian music elaborately described in many musical treatises are only of historical relevance today as the music described is quite different from current practices. It is argued that earlier varieties may not have survived because they failed to meet the three crucial requirements for a language-like organism to survive i.e., a robust community of practitioners/listeners which the author calls the Carnatic Music Fraternity, a sizeable body of musical texts and a felt communicative need. In fact, the central thesis of the book is that Carnatic music, like language, survived and evolved from early/mid eighteenth century when these three requirements were met for the first time in the history of Indian music. The volume includes a foreword by Paul Kiparsky.

Glover devoted her life to the creation and propagation of a way of teaching class music that was meticulously devised, musically rigorous, and successfully promulgated. Southcott analyzes Glover's methods, history, and memory, and works to correct inaccuracies and misrepresentations that have emerged since Glover's death.
