

Basic Guide To Essay Writing

The skills required to write an essay are the same skills required to write a speech, to prepare a persuasive argument, to prove a point, or to explain an idea. If we can help our students acquire these skills as we teach “the essay,” we will have assisted them in accomplishing truly valuable life skills. Essay Writing contains easy-to-incorporate lessons along with tips for teaching specific concepts that range from pre-writing exercises to revising and editing to celebrating the final product. This down-to-earth look at the foundations of good essay writing is full of useful ideas and strategies that help students: build skills in writing on a wide range of topics; distinguish between formal and informal writing; use effective pre-writing techniques such as brainstorming, making an outline, gathering information, and evaluating the relevance of information; gain confidence as they begin to recognize what works and what doesn't. The book incorporates a wide range of innovative approaches to teaching essay writing — from how to “picture” and “act out” an essay to a winning format for a topic sentence and using scattergrams to turn brainstorming into constructive outlines. Throughout the book, assessment tools and marking keys support simple marking techniques that consider not just the final essay, but effort and time on task.

New! I now have a 4 part video series available on YouTube that can be used as a companion to this book. When you're on YouTube, just search "Test Prep Spot Elizabeth" to find the videos. My name is Elizabeth and I'm the creator of The Test Prep Spot. I'm also a private tutor for high achieving students preparing for the SAT. Additionally and most importantly, I'm a special education teacher in a public school working with students who have learning and language challenges. The more I tutored, the more concerned I became about my special education students. They would need more supportive materials in order to understand what's covered on the SAT. They would also need simplified, explicit instruction in content and strategy. So, I made my own study guides and The New SAT Essay Writing Guide is my answer to this problem. Inside the guide, you will find step-by-step instructions that take you from start to finish. This book provides a formula (or template or plan) for writing the New SAT Essay. I begin by analyzing the prompt and tell you exactly the kind of essay you're expected to write. Then, I teach you about the most common persuasive devices used on published sample and practice essay questions. Next, I break down a passage and identify each persuasive device that's used by the author. Then, I examine three effective example essays (based on just one passage) to show you how to use the formula. The example essays are even color-coded to help with understanding the formula. Finally, the guide ends with a reproducible template, which is extremely helpful for organizing thoughts and learning this writing process. Who should use this guide? I truly believe it can help everyone, but it can be especially beneficial for students who need explicit, step-by-step instructions and formulas to be successful writers.
