Put your own fate exactly where it belongs-in your hands It is one of the great questions of life. Its a simple question, really, but it seems impossible for many to answer: Do we control our own destinies? 90 percent of people think and act as if their destiny is foreordained, while only about 10 percent believe in the capacity to change and act on it. Creating Your Own Destiny explains and demonstrates to the majority how to dream, plan, and execute a better future-despite the challenges of the economy and life circumstances. Based on time-honored principles, theories, and case studies Provides a Success Road Map for all those people who are seeking to achieve success but who aren't satisfied with their careers. Written in an easy and accessible tone by Patrick Snow, who has been dubbed "the Dean of Destiny" With the powerful and practical tools featured in this essential guide, you'll find yourself newly empowered and energized to achieve extraordinary results.

What if there was a secret road or a less traveled pathway to your dreams? One that was 100 times shorter and one that required little-to-no struggle? What if this path became ridiculously obvious once someone pointed it out? Sometimes by simply shifting your viewpoint, invisible things will become visible and new opportunities to rapidly reach your dreams will appear. Have you ever noticed that breakthroughs in business are occurring at light speed all around us as a result of entrepreneurs that have chosen to see the world through a different set of lenses? In Better Than Beach Money, Jordan Adler shares real life stories that will help you to view your life from a different angle. From this new point of view, you will discover roads and pathways, and see opportunities that can cause your dreams to materialize almost instantaneously. You will realize that you don't have to wait. You can begin to stray from that long, tedious path to achieving your goals and embrace a new way that can take you there much quicker. Most personal development trainers and efficiency experts propose writing down your dreams and taking daily action towards them. Sounds logical; this is a linear and very human process. But our brains don't exactly work in this way when it comes to attaining our dreams. Our dreams rarely come to us in a linear fashion. Our dreams happen quickly once we meet the right people, shift our perspective and open our minds to the quantum growth opportunities that are all around us. Better than Beach Money can take you there.

"Bored and Brilliant shows the fascinating side of boredom. Manoush Zomorodi investigates cutting-edge research as well as compelling (and often funny) real-life examples to demonstrate that boredom is actually a crucial tool for making our lives happier, more productive, and more creative. What's more, the book is crammed with practical exercises for anyone who wants to reclaim the power of spacing out – deleting the Two Dots app, for instance, or having a photo-free day, or taking a 'fakecation'." —Gretchen Rubin, author of #1 NYT Bestseller The Happiness Project "Bored and Brilliant is full of easy steps to make each day more effective and every life more intentional. Manoush's mix of personal stories, neuroscience, and data will convince you that boredom is actually a gift." —Charles Duhigg, author of The Power of Habit and Smarter, Faster, Better It's time to move “doing nothing” to the top of your to-do list. In 2015 Manoush Zomorodi, host of WNYC's popular podcast and radio show Note to Self, led tens of thousands of listeners through an experiment to help them unplug from their devices, get bored, jump-start their creativity, and change their lives. Bored and Brilliant builds on that experiment to show us how to rethink our gadget use to live better and smarter in this new digital ecosystem. Manoush explains the connection between boredom and original thinking, exploring how we can harness boredom's hidden benefits to become our most productive and creative selves without totally abandoning our gadgets in the process. Grounding the book in the neuroscience and cognitive psychology of “mind wandering” what our brains do when we're doing nothing at all—Manoush includes practical steps you can take to ease the nonstop busyness and enhance your ability to dream, wonder, and gain clarity in your work and life. The outcome is mind-blowing. Unplug

and read on.

NAMED A MOST ANTICIPATED BOOK OF 2021 BY THE MILLIONS A provocative, exhilaratingly new understanding of the United States' most confounding metropolis—not just a great city, but a full-blown modern city-state America is obsessed with Los Angeles. And America has been thinking about Los Angeles all wrong, for decades, on repeat. Los Angeles is not just the place where the American dream hits the Pacific. (It has its own dreams.) Not just the vanishing point of America's western drive. (It has its own compass.) Functionally, aesthetically, mythologically, even technologically, an independent territory, defined less by distinct borders than by an aura of autonomy and a sense of unfurling destiny—this is the city-state of Los Angeles. Deeply reported and researched, provocatively argued, and eloquently written, Rosecrans Baldwin's *Everything Now* approaches the metropolis from unexpected angles, nimbly interleaving his own voice with a chorus of others, from canonical L.A. literature to everyday citizens. Here, Octavia E. Butler and Joan Didion are in conversation with activists and astronauts, vampires and veterans. Baldwin records the stories of countless Angelenos, discovering people both upended and reborn: by disasters natural and economic, following gospels of wealth or self-help or personal destiny. The result is a story of a kaleidoscopic, vibrant nation unto itself—vastly more than its many, many parts. Baldwin's concept of the city-state allows us, finally, to grasp a place—Los Angeles—whose idiosyncrasies both magnify those of America, and are so fully its own. Here, space and time don't quite work the same as they do elsewhere, and contradictions are as stark as southern California's natural environment. Perhaps no better place exists to watch the United States's past, and its possible futures, play themselves out.

Welcome to Los Angeles, the Great American City-State.

Recounts lessons the author learned through taking on challenging and unique opportunities, offering commentary on the inherent compatibility of adventure and the Christian life as well as love's ability to encourage and inspire action.

Helping women gain self-confidence and self-belief in their potential, unique gifts and capacities, so they can achieve their goals, dreams and aspirations and enjoy their dream life in personal and professional areas.

#1 NEW YORK TIMES BESTSELLER • The twentieth anniversary edition of the classic story of an incredible group of students and the teacher who inspired them, featuring updates on the students' lives, new journal entries, and an introduction by Erin Gruwell Now a public television documentary, *Freedom Writers: Stories from the Heart* In 1994, an idealistic first-year teacher in Long Beach, California, named Erin Gruwell confronted a room of "unteachable, at-risk" students. She had intercepted a note with an ugly racial caricature and angrily declared that this was precisely the sort of thing that led to the Holocaust. She was met by uncomprehending looks—none of her students had heard of one of the defining moments of the twentieth century. So she rebooted her entire curriculum, using treasured books such as Anne Frank's diary as her guide to combat intolerance and misunderstanding. Her students began recording their thoughts and feelings in their own diaries, eventually dubbing themselves the "Freedom Writers." Consisting of powerful entries from the students' diaries and narrative text by Erin Gruwell, *The Freedom Writers Diary* is an unforgettable story of how hard work, courage, and determination changed the lives of a teacher and her students. In the two decades since its original publication, the book has sold more than one million copies and inspired a major motion picture *Freedom*

"This fascinating little volume explores the stuff that dreams are made of and the role the pandemic is playing in them. The dreams from Barrett's survey are riveting vignettes--from terrifying to touching to hilarious. Her decades of scientific research and clinical practice inform incisive commentary on what these dreams reveal about society's response. She offers simple exercises for managing anxieties over COVID-19 and for inspiring adaptation in this unique period of history. A great read!" -Amy Tan, author of *The Joy Luck Club* DREAM: I looked down at my stomach and saw dark blue stripes. I "remembered" these were the first sign of being infected with COVID-19. DREAM: My home was a Covid-19 test center. People weren't wearing masks. I'm taken aback because I wasn't asked to be a test site. I'm worried that my husband and son (who actually lives out of state) will catch it because of my job as a healthcare worker. DREAM: I was a giant antibody. I was so angry about COVID-19 that it gave me superpowers, and I rampaged around attacking all the virus I could find. I woke so energized! Since the COVID-19 pandemic swept around the world, people have reported unusually a vivid and bizarre dream lives. The virus itself is the star of many--literally or in one of its metaphoric guises. As a dream researcher at Harvard Medical School, Deirdre Barrett was immediately curious to see what our dream lives would tell us about our deepest reactions to this unprecedented disaster. *Pandemic Dreams* draws on her survey of over 9,000 dreams about the COVID-19 crisis. It describes how dreaming has reflected each aspect of the pandemic: fear of catching the virus, reactions to sheltering at home, work changes, homeschooling, and an individual's increased isolation or crowding. Some patterns are quite similar to other crises Dr. Barrett has studied such as 9/11, Kuwaitis during the Iraqi Occupation, POWs in WWII Nazi prison camps, and Middle Easterners during the Arab Spring. There are some very distinctive metaphors for COVID-19, however: bug-attack dreams and ones of invisible monsters. These reflect that this crisis is less visible or concrete than others we have faced. Over the past three months, dreams have progressed from fearful depictions of the mysterious new threat . . . to impatience with restrictions . . . to more fear again as the world begins to reopen. And dreams have just begun to consider the big picture: how society may change. The book offers guidance on how we can best utilize our newly supercharged dream lives to aid us through the crisis and beyond. It explains practical exercises for dream interpretation, reduction of nightmares, and incubation of helpful, problem-solving dreams. It also examines the larger arena of what these collective dreams tell us about our instinctive, unconscious responses to the threat and how we might integrate them for more livable policies through these times. Deirdre Barrett, PhD is a dream researcher at Harvard Medical School. She has written five books including *Pandemic Dreams* and *The Committee of Sleep*, and edited four including *Trauma and Dreams*. She is Past President of The International Association for the Study of Dreams and editor of its journal, *DREAMING*.

"We cannot change the cards we are dealt, just how we play the hand." ---Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--"Really Achieving Your Childhood Dreams"--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have...and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Now in Dragonfly--from the acclaimed creator of the Caldecott Honor Book *Tar Beach* comes a personal and captivating portrait of the life of Martin Luther King, Jr.

Get ready to crush your personal brand, own your online space and attract your ideal avatar to YOU! xo, Kimberly  
What if the real key to a richer and more fulfilling career was not to create and scale a new start-up, but rather, to be able to work for yourself, determine your own hours, and become a (highly profitable) and sustainable company of one? Suppose the better—and smarter—solution is simply to remain small? This book explains how to do just that. *Company of One* is a refreshingly new approach centered on staying small and avoiding growth, for any size business. Not as a freelancer who only gets paid on a per piece basis, and not as an entrepreneurial start-up that wants to scale as soon as possible, but as a small business that is deliberately committed to staying that way. By staying small, one can have freedom to pursue more meaningful pleasures in life, and avoid the headaches that result from dealing with employees, long meetings, or worrying about expansion. *Company of One* introduces this unique business strategy and explains how to make it work for you, including how to generate cash flow on an ongoing basis. Paul Jarvis left the corporate world when he realized that working in a high-pressure, high profile world was not his idea of success. Instead, he now works for himself out of his home on a small, lush island off of Vancouver, and lives a much more rewarding and productive life. He no longer has to contend with an environment that constantly demands more productivity, more output, and more growth. In *Company of One*, Jarvis explains how you can find the right pathway to do the same, including planning how to set up your shop, determining your desired revenues, dealing with unexpected crises, keeping your key clients happy, and of course, doing all of this on your own.

Whether you're a Network Marketing "newbie" or a seasoned professional, the stories in this book will speak to you. Each motivating and compelling story will push you to accomplish your dreams! This book contains inspiration, motivation, and each story gives you insight into how leaders think and act differently to get bigger and better results.

*Beach Money* Creating Your Dream Life Through Network Marketing

"Hollywood Eden brings the lost humanity of the record business vividly back to life ... [Selvin's] style is blunt, unpretentious and brisk; he knows how to move things along entertainingly ... Songs about surfboards and convertibles had turned quaint, but in this book, their coolness is restored." — New York Times From surf music to hot-rod records to the sunny pop of the Beach Boys, Jan & Dean, the Byrds, and the Mama's & the Papa's, *Hollywood Eden* captures the fresh blossom of a young generation who came together in the epic spring of the 1960s to invent the myth of the California Paradise. Central to the story is a group of sun-kissed teens from the University High School class of 1959 — a class that included Jan & Dean, Nancy Sinatra, and future members of the Beach Boys — who came of age in Los Angeles at the dawn of a new golden era when anything seemed possible. These were the people who invented the idea of modern California for the rest of the world. But their own private struggles belied the paradise portrayed in their music. What began as a light-hearted frolic under sunny skies ended up crashing down to earth just a few short but action-packed years later as, one by one, each met their destinies head-on. A rock 'n' roll opera loaded with violence, deceit, intrigue, low comedy, and high drama, *Hollywood Eden* tells the story of a group of young artists and musicians who bumped heads, crashed cars, and ultimately flew too close to the sun.

#1 NEW YORK TIMES BESTSELLER • Barack Obama's lucid vision of America's place in the world and call for a new kind of politics that builds upon our shared

understandings as Americans, based on his years in the Senate “In our lowdown, dispiriting era, Obama’s talent for proposing humane, sensible solutions with uplifting, elegant prose does fill one with hope.”—Michael Kazin, *The Washington Post* In July 2004, four years before his presidency, Barack Obama electrified the Democratic National Convention with an address that spoke to Americans across the political spectrum. One phrase in particular anchored itself in listeners’ minds, a reminder that for all the discord and struggle to be found in our history as a nation, we have always been guided by a dogged optimism in the future, or what Obama called “the audacity of hope.” The Audacity of Hope is Barack Obama’s call for a different brand of politics—a politics for those weary of bitter partisanship and alienated by the “endless clash of armies” we see in congress and on the campaign trail; a politics rooted in the faith, inclusiveness, and nobility of spirit at the heart of “our improbable experiment in democracy.” He explores those forces—from the fear of losing to the perpetual need to raise money to the power of the media—that can stifle even the best-intentioned politician. He also writes, with surprising intimacy and self-deprecating humor, about settling in as a senator, seeking to balance the demands of public service and family life, and his own deepening religious commitment. At the heart of this book is Barack Obama’s vision of how we can move beyond our divisions to tackle concrete problems. He examines the growing economic insecurity of American families, the racial and religious tensions within the body politic, and the transnational threats—from terrorism to pandemic—that gather beyond our shores. And he grapples with the role that faith plays in a democracy—where it is vital and where it must never intrude. Underlying his stories is a vigorous search for connection: the foundation for a radically hopeful political consensus. Only by returning to the principles that gave birth to our Constitution, Obama says, can Americans repair a political process that is broken, and restore to working order a government that has fallen dangerously out of touch with millions of ordinary Americans. Those Americans are out there, he writes—“waiting for Republicans and Democrats to catch up with them.”

There are 168 hours in a week. This book is about where the time really goes, and how we can all use it better. It's an unquestioned truth of modern life: we are starved for time. With the rise of two-income families, extreme jobs, and 24/7 connectivity, life is so frenzied we can barely find time to breathe. We tell ourselves we'd like to read more, get to the gym regularly, try new hobbies, and accomplish all kinds of goals. But then we give up because there just aren't enough hours to do it all. Or else, if we don't make excuses, we make sacrifices. To get ahead at work we spend less time with our spouses. To carve out more family time, we put off getting in shape. To train for a marathon, we cut back on sleep. There has to be a better way-and Laura Vanderkam has found one. After interviewing dozens of successful, happy people, she realized that they allocate their time differently than most of us. Instead of letting the daily grind crowd out the important stuff, they start by making sure there's time for the important stuff. They focus on what they do best and what only they can do. When plans go wrong and they run out of time, only their lesser priorities suffer. It's not always easy, but the payoff is enormous. Vanderkam shows that it really is possible to sleep eight hours a night, exercise five days a week, take piano lessons, and write a novel without giving up quality time for work, family, and other things that really matter. The key is to start with a blank slate and to fill up your 168 hours only with things that deserve your time. Of course, you probably won't read to your children at 2:00 am, or skip a Wednesday morning meeting to go hiking, but you can cut back on how much you watch TV, do laundry, or spend time on other less fulfilling activities. Vanderkam shares creative ways to rearrange your schedule to make room for the things that matter most. 168 Hours is a fun, inspiring, practical guide that will help men and women of any age, lifestyle, or career get the most out of their time and their lives.
