"This book is all you need to write online content that will convert." This is an interview with the author of "The Ultimate Beginner's Guide to Content Writing". Q. What makes your book different from others in this niche? A. Most of the books on content writing focus on SEO. SEO is great. You need to apply the rules to rank and feature on the first page. However, how good is a number one position when most of your traffic is bouncing off your pages? Three elements must feature in a successfully written post. First, you must grab attention. Second, you must stir interest and curiosity. Third, you must sustain curiosity. When a link is broken, readers skim your content, they hardly click on your affiliate offers, and consequently, they just leave to other websites. So, with all the SEO work, you're still not converting your traffic. This particular aspect that many writers shy away from is what this book is about. How to create written content that converts. How do you write in a way that will make me want to read every line? Q. Can you comment on the structure of the book? A. There are nine chapters in the book. The first chapter is where the reader gets the reality check about writing for the internet. It contains thirteen common mistakes new content writers make. Chapter two talks about writing for the internet. It poses the six fundamental questions every writer must answer. It is the prewriting stage. These questions are meant to guide the writer in coming up with amazing written content. Chapter three focuses on how to write a blog post. It contains simple steps to creating a blog post.

Each step is discussed extensively. Chapters four and five focus on two important aspects. Chapter four is on headlines. It is possible to rank as number one for a search term and still lose traffic to those in numbers three and four. Eventually, you will lose that ranking. This is because the headline fails to grab attention. Chapter five deals with introductions. First impressions also matter on the internet. You can either gain traffic or lose it with your introduction. It is where you ignite curiosity and at the same time state the value proposition - what you will talk about subsequently. Chapter six deals with long-form content. It is okay to write 500-word blog posts. However, research (included in the book) has revealed that long-form content converts more and attracts more shares. This chapter helps the reader to construct long-form content that will convert. Chapter seven focuses on proofreading. How do you ensure that your work is error-free? Most bloggers don't have professional proofreaders to go through their work. This chapter teaches you how to proofread your work yourself. It also suggests free online tools that can aid proofreading. Chapter eight deals with writing for SEO. This is a very fundamental aspect. However, SEO is not as difficult as many make it. On-page SEO is mostly what we are going to be dealing with. This chapter teaches how to write SEO-optimized articles that can rank number one on Google. Chapter nine is the final chapter. It focuses on two aspects: copywriting and email marketing. The first aspect provides four important steps to writing copies that convert. This aspect also applies to email copies. It is useful for landing pages, web copies, and of course email copies. A rare aspect that this book also covers is how to land in the Primary folder of the Gmail inbox. Q. What set of people will this book benefit the most? A. This book will benefit everybody that writes for the internet. As long as you create written content, this book is for you. It is the beginner's manual to creating content that converts. There is no niche restriction on this. Whether you write in the medical niche or woodworking niche, this book is highly useful. Thank you for your time.

Mutual-fund superstar Peter Lynch and author John Rothchild explain the basic principles of the stock market and business in an investing guide that will enlighten and entertain anyone who is high-school age or older. Many investors, including some with substantial portfolios, have only the sketchiest idea of how the stock market works. The reason, say Lynch and Rothchild, is that the basics of investing—the fundamentals of our economic system and what they have to do with the stock market—aren't taught in school. At a time when individuals have to make important decisions about saving for college and 401(k) retirement funds, this failure to provide a basic education in investing can have tragic consequences. For those who know what to look for, investment opportunities are everywhere. The average high-school student is familiar with Nike, Reebok, McDonald's, the Gap, and the Body Shop. Nearly every teenager in America drinks Coke or Pepsi, but only a very few own shares in either company or even understand how to buy them. Every student studies American history, but few realize that our country was settled by European colonists financed by public companies in England and Holland—and the basic principles behind public companies haven't changed in more than three hundred years. In *Learn to Earn*, Lynch and Rothchild explain in a style accessible to anyone who is high-school age or older how to read a stock table in the daily newspaper, how to understand a company annual report, and why everyone should pay attention to the stock market. They explain not only how to invest, but also how to think like an investor.

The ultimate aim of every business is to maximize profits. In order to get the most out of the market, a business is expected to offer quality products and services to the consumers it serves. The secret for satisfying the utility of consumers is creating a deep connection with them to understand their interests and how you can enhance your

business. Also, you must present your products/services in the market in a way that is appealing. This entails the use of various marketing concepts and aligning your strategies with the relevant trends in your industry. When it comes to earning an income online in 2021 and beyond, there is a need to understand how to drive traffic to your website in a cheap, efficient and consistent manner. You will log into it every day to check the trends on the visits of all your important audiences to try and turn them into paying customers. It is important to learn how to maximize value for your store by marketing on social media. It is an effective way of reaching a wide audience easily considering that more than a third of the total global population is on social media. It is also a sure and efficient manner of turning the audience into loyal customers because it encourages engagement. The fact that social media allows for a two-way mode of communication makes it easy for consumers to converse with the brands they are interested in. Perhaps the best thing about social media promotion is that it provides a level playing field for small, medium and large enterprises. The same audience that a large business can access is the same that a start-up business can access. Notwithstanding, it doesn't take up a huge budget to create a large number of social media fans in a short time. This forms the confidence that you can make it on social media even if you are a beginner. However, how well it works for your business depends on the efforts you put into it. If you have tried before and failed, you have probably not followed the best tactics there are to grow your brand on social media. Despite social media marketing being among the greatest phenomena in the digital era, some marketers are not able to achieve their social media marketing goals. All false, says this provocative book. Neil Rackham and his team studied more than 35,000 sales calls made by 10,000 sales people in 23 countries over 12 years. Their findings revealed that many of the methods developed for selling low-value goods just don't work for major sales. Rackham went on to introduce his SPIN-Selling method. SPIN describes the whole selling process: Situation questions Problem questions Implication questions Need-payoff questions SPIN-Selling provides you with a set of simple and practical techniques which have been tried in many of today's leading companies with dramatic improvements to their sales performance.

Are you getting started with Amazon FBA seller trying to figure out how to source products? Or are you wondering how to make money with Amazon FBA? This book is the answer to your questions. If you're reading this that likely means you've heard of "selling on Amazon", "Amazon FBA" or "private label products" being bandied around online or from other entrepreneurs. Perhaps you're already quite experienced in this field and are interested in how others run their business or perhaps you're simply curious about what the fuss is all about. In a nut shell, Amazon FBA can be compared to what eBay was 10 years ago, in terms of the opportunity it provides to earn money online. The actual technicalities of how FBA and private labelling works will be covered in the next two chapters. For those that are merely curious about it, we'd guess it's because you've heard that it's a lucrative way for almost anyone to make money or a living from. Shit, maybe you've even heard that people are able to run their private label businesses from the beach and only spend an hour a day maintaining it. Despite a beautiful picture of working on the beach in leisure with your laptop by your side, sun shining overhead, and the calls of nature in the background as waves crash on the shore with birds soaring through the blue skies, trust us when we say it really isn't as fun or nice as it sounds. There's sand everywhere! Getting into your laptop, pants, bags, and if it's a windy day, it's just blowing sand on you and the friction can be so hard the sand actually stings you. The glare from the sun on the laptop makes it insanely hard to see what's happening, especially if you've got sunglasses on. The amount of shit you have to deal with while trying to work on the beach goes on and on but if there's only one takeaway from this book, save yourself the hassle and don't try to work on the beach for anything. Okay, rant over. It's possible you've heard claims of people making \$1,000 dollars a day and this could range from groups of housewives to the unemployed making bank in a ridiculously short amount of time. Some go even

further to claim they've made millions in just their first year, and what do they do now that they're millionaires? They sell books, courses, and products about how they made they're millions. Not to rag on these people too much as we know some who are actually legit and know what they're talking about and doing, but a lot of these people out there going about touting their courses aren't offering a whole lot of value for what they're charging or are simply sharing outdated information as they aren't actively selling in the Amazon marketplace anymore as they now make their living from selling their education based products.
