Button-pushers come in all shapes and sizes, but they have one thing in common: Their behavior drives us crazy and makes us dream of ways to escape the mess we're in. The person who pushes your buttons is likely someone who matters to you – a spouse, a parent, a boss, a fellow church member. Almost always this difficult person is connected to you by blood, love, faith, or money, so you can't just end the relationship without causing pain and upheaval in your life. Our friends and today's culture will often advise us to abandon such relationships quickly – to end this unpleasant chapter and get on with our lives. Psychologist and author Dr. John Townsend disagrees, "Your button-pusher is not someone you would easily and casually leave. You are intertwined at many levels. It is worth the trouble to take a look at the ways the relationship you had, and want, can be revived and reborn." In this easy-to-read book he offers

- Expert insights to help you understand your own button-pusher
- Wise assistance in determining the nature of the problem
- Compassionate help in identifying your failed attempts to fix things
- A hope-filled vision for what can be and how to make it come true
- Rich resources to help you navigate the necessary changes

Love burns like a blazing fire, like a mighty flame. Love never fails, and that is who we are as flames in motion. We are God's love in motion. Even though waters may come and try to quench our love and God's light in us, know God's promise that "rivers cannot wash it away" (Song of Songs 8:7). Denise Stewart, in *Flame in Motion*, shares her own heartfelt story of challenges, perseverance, and clinging to God's love and the light of His saving grace through His Son, Jesus Christ. Denise openly expresses her love for God and encourages the reader to know that God's love is everlasting. God is faithful. Abiding in His love is living, breathing, and resting in love we can count on because His love for us is enduring love. God's love is not human love, even as we are reflections of His love to one another. We, despite our imperfections, are the hope of glory called to shine the light of Jesus Christ to the world. We achieve this through intimacy with our heavenly Father. Now is the time. God wants us. He loves us. Even as waters rise, no matter what is going on in our lives, they cannot quench His love because God's love never fails.

There have been several scientific books and lecture papers written on the subject of our holographic universe but none have gone far enough as to expand peoples thinking and explain the true nature of reality. Music is a natural consequence of the pure mathematics within

nature. Music is a true universal language as Music is vibrational physics and mathematics that is a language understood by the human mind. The silent music of the universe or Aether Physics from the RG Veda is the only ONE science that explains the true perfection of creation and our connection to the holographic universe. Quantum Metrics are from the RG Veda: Quantum Physicist already knowing the answer as they have taken it the RG Veda then creates complicated elongated mathematical equations to derive at their Metric, which they name after themselves. I explain how to calculate all 90 metrics contained in RG Veda using a dividend and divisor and how to apply this system of harmony to devices you can manufacture such as electric motors. I would not dare name any of the yet “undiscovered” Metrics after myself, as no man should claim Gods work as his own. Although I have examples of the RG Vedas and other sources mentioning the Vedic Meter no one to my knowledge as given a full interpretation of them and what they relate to as I have done. I have deciphered and attempted to simplify one of the most ancient of mysteries and show how to apply it. My intention in releasing this information is to enlighten humanity as to assist in the rebuilding of the foundations of science for the advancement of all. We all must aspire to a brighter future and not allow this information to remain the industrial secret of occult societies. These societies have handicapped humanity for long enough and it is time to enter into the light from the darkness and advance our civilization. The testimonials have been formatted into gripping stories that encompass a post-apocalyptic and historical atrocity chronicle. The amazingly horrific and shocking tales will take you on a dark and terrifying journey into a supernatural world, void of the grace of God, thereby glorifying the contrast of a great and gracious life that one is privileged to live while alive in Christ! Full of stories, clinical advice, and accessible takeaways, *People Fuel* outlines the twenty-two relational nutrients we all need to cultivate good relationships that provide energy, focus, and the support you need to succeed. We all need more energy, the vitality that helps us stay motivated, focused and productive in life. We know we receive energy from good

nutrition, along with working out, adequate sleep and maintaining positivity. But there is another major source for the energy we need: having the right kinds of relationships with others. Not the ones that drain us, but the ones that refuel us. In his new book, Dr. John Townsend, psychologist, leadership expert and coauthor of the New York Times bestselling *Boundaries*, shows you how we need the fuel of "Relational Nutrients" from others, and, in turn we can then provide them to others. Our bodies require physical nutrients to stay healthy. If we don't take enough iron, we can develop anemia. Too little calcium can lead to bone disease. In the same way, John identifies the key Relational Nutrients that we need. As we experience these critical elements from others, we grow mentally and emotionally more sharp and healthy. And as we give these elements back, others benefit as well. Finally, Dr. Townsend details the specific types of people who can either be energy sources or energy drains, and gives concrete steps to help you cultivate relationships with those who will help you be all you were meant to be. The person who taught you how to have boundaries now helps you to experience the best from those people you have allowed into your boundaries.

Too many of us have invested ourselves into relationships that left us deeply wounded. We've been abandoned or taken advantage of, and left with little to show for what we've given. We've lost our sense of security and personal value in the process. And what's worse, we tend to either repeat the same mistakes of judgment over and over . . . Or else lock the doors of our hearts entirely and throw away the key. Why do we choose the wrong people to get involved with? Is it possible to change? And if so, where does one begin? Drs. Henry Cloud and John Townsend offer solid guidance for making safe choices in relationships, from friendships to romance. They help identify the nurturing people we all need

A pioneering neuroscientist shows how the long-sought merger of brains with machines is about to become a paradigm-shifting reality Imagine living in a world where people use their computers, drive their cars, and communicate with one another simply by thinking. In this stunning and inspiring work, Duke University neuroscientist Miguel Nicolelis shares his revolutionary insights into how the brain creates thought and the human sense of self—and how this might be augmented by machines, so that the entire universe will be within our reach. Beyond Boundaries draws on Nicolelis's ground-breaking research with monkeys that he taught to control the movements of a robot located halfway around the globe by using brain signals alone. Nicolelis's work with primates has uncovered a new method for capturing brain function—by recording rich neuronal symphonies rather than the activity of single neurons. His lab is now paving the way for a new treatment for Parkinson's, silk-thin exoskeletons to grant mobility to the paralyzed, and breathtaking leaps in space exploration, global communication, manufacturing, and more. Beyond Boundaries promises to reshape our concept of the technological future, to a world filled with promise and hope. Having clear boundaries is essential to a healthy, balanced lifestyle. A boundary is a personal property line that marks those things for which we are responsible. In other words, boundaries define who we are and who we are not. Boundaries impact all areas of our lives: Physical boundaries help us determine who may touch us and under what circumstances -- Mental boundaries give us the freedom to have our own thoughts and opinions -- Emotional boundaries help us to deal with our own emotions and disengage from

the harmful, manipulative emotions of others -- Spiritual boundaries help us to distinguish God's will from our own and give us renewed awe for our Creator -- Often, Christians focus so much on being loving and unselfish that they forget their own limits and limitations. When confronted with their lack of boundaries, they ask: - Can I set limits and still be a loving person? - What are legitimate boundaries? - What if someone is upset or hurt by my boundaries? - How do I answer someone who wants my time, love, energy, or money? - Aren't boundaries selfish? - Why do I feel guilty or afraid when I consider setting boundaries? Dr. Henry Cloud and Dr. John Townsend offer biblically-based answers to these and other tough questions, showing us how to set healthy boundaries with our parents, spouses, children, friends, co-workers, and even ourselves.

An intellectual memoir by the author of the acclaimed *Imagined Communities* Born in China, Benedict Anderson spent his childhood in California and Ireland, was educated in England and finally found a home at Cornell University, where he immersed himself in the growing field of Southeast Asian studies. He was expelled from Suharto's Indonesia after revealing the military to be behind the attempted coup of 1965, an event which prompted reprisals that killed up to a million communists and their supporters. Banned from the country for thirty-five years, he continued his research in Thailand and the Philippines, producing a very fine study of the Filipino novelist and patriot José Rizal in *The Age of Globalization*. In *A Life Beyond Boundaries*, Anderson recounts a life spent open to the world. Here he reveals the joys of learning languages, the importance of fieldwork, the pleasures of translation, the influence of the New Left on global thinking, the satisfactions of teaching, and a love of world literature. He discusses the ideas and inspirations behind his best-known work, *Imagined Communities* (1983),

whose complexities changed the study of nationalism.

Benedict Anderson died in Java in December 2015, soon after he had finished correcting the proofs of this book. As a leader, your decisions are critical. They have a significant effect on you and everyone around you. But the effective leader needs to have more than just logic, facts, and financials to help make the best choices. Leaders also must access their own intuition, that gut feeling inside. Dr. John Townsend knows that a leader's

internal world—the world of intuition, creativity, emotion, and spirituality—is just as important as the external world of data and best practices. Who you are on the inside determines your success as a leader even more than the things you do or the things you know. “You were designed with both an external world and an inner world,” Townsend says, “and they work well together. Accessing both of these areas will take a little knowledge and a little work, but it will help you be the leader you want to be.” In *Leading from Your Gut*, you’ll learn how leaders excel not just through external competencies and skills but by drawing on their internal world and personal experience. You’ll explore how to harness the power of your values, thoughts, emotions, and relationships to better meet the complex demands of leadership. As you apply Townsend’s principles, you will see great results in your leadership. But more importantly, you’ll experience the kind of personal transformation that will enable you to lead as a whole person. *Leading from Your Gut* will help emerging and veteran leaders alike to hone their intuition and become the leader they were meant to be.

Globalization, competition and recession have created an overwhelming pressure on organizations to deliver growth. This has often resulted in tough performance targets being pushed down the line. Hard-hitting management may deliver short-term results but in the longer term key people burn out or leave, and business performance falls back. *Designing the Purposeful Organization* explains how to implement a more enlightened and authentic leadership style that aligns

people's strengths to the delivery of a compelling future. It draws on a unique framework that helps leaders manage the eight elements essential for high performance: purpose, vision, engagement, structure, character, results, success and talent. It moves beyond the boundaries of transactional performance (pay me X and I'll deliver Y) to a purpose-centred performance that releases talent, creativity and engagement. It features case studies from Google, Whole Foods Market, the NHS and the London 2012 Olympics and is ideal for practitioners in organization development, senior HR managers and business leaders. This book demonstrates how business performance can be inspired beyond boundaries by aligning people to a compelling purpose.
