

## Biology A Level Eduqas

Build confidence and understanding throughout the year with hundreds of additional practice questions. This Workbook supports our bestselling Checkpoint series, with exercises specifically matched to the Cambridge Progression tests and the Checkpoint tests. - Develops understanding and builds confidence ahead of assessment with exercises matched to the tests - Ensures a thorough understanding of all aspects of the course by following the structure of the relevant textbook - Saves planning time with exercises that are suitable for use in class or as homework This Workbook is matched to the Cambridge Secondary 1 Curriculum Framework and follows the structure of the equivalent Checkpoint Student's Book exactly. This text has not been through the Cambridge endorsement process.

Written for the WJEC/Eduqas A/AS Level Computer Science specifications for first teaching from 2015, this print student book helps students build their knowledge and master underlying computing principles and concepts. The student book develops computational thinking, programming and problem-solving skills. Suitable for all abilities, it puts computing into context and gives students a real-life view on professional applications of computing skills. Answers to end-of-chapter questions are located in the free online teacher's resource. A Cambridge Elevate enhanced edition is also available.

This practical write-in workbook is the perfect companion for the coursebook. It contains step-by-step guided investigations and practice questions for Cambridge International AS & A Level Biology teachers and students. Through practical investigation, it provides opportunities to develop skills- planning, identifying equipment, creating hypotheses, recording results, analysing data, and evaluating. The workbook is ideal for teachers who find running practical experiments difficult due to lack of time, resources or support. Sample data- if students can't do the experiments themselves - and answers to the questions are in the teacher's resource.

Exam board: WJEC Eduqas Level: GCSE Subject: Design & Technology First teaching: September 2017 First exams: Summer 2019 Reinforce classroom learning and boost students' understanding of all materials with this textbook written for the WJEC Eduqas GCSE (9-1) Design & Technology specification. Written by leading D&T experts, this textbook will build your students' knowledge of the core principles, help to develop their designing and making skills and provide them with the opportunity to make sure they are ready to tackle both parts of the assessment.

- Helps students clearly understand the core principles of all materials and general concepts of designing and making, as well as build their knowledge, understanding and skills for one material or system in more depth
- Hones students' mathematical and scientific ability so they don't miss out on the easy marks
- Features practice questions in the style of the written exam to make sure students are confident to tackle the written element of the assessment
- Inspires and motivates students with stretch and challenge: activities designed to challenge the more able learners and to ensure progression to A-level

Exam Board: WJEC, Eduqas Level: AS/A-level Subject: Biology First Teaching: September 2015 First Exam: June 2016 Reinforce students' understanding throughout their course with clear topic summaries and sample questions and answers to help your students target higher grades. Written by experienced teacher Dan Foulder, our Student Guides are divided into two key sections, content guidance and sample questions and answers. Content guidance will:

- Develop students' understanding of key concepts and terminology; this guide covers basic biochemistry and cell organisation.
- Consolidate students' knowledge with 'knowledge check questions' at the end of each topic and answers in the back of the book.

Sample questions and answers will:

- Build students' understanding of the different question types, so they can approach each question with confidence.
- Enable students to target top grades with sample answers and commentary explaining exactly why marks have been awarded.

Welcome to a tour of some of the recent advances in chemistry, taking in the cosmetic factory, the pharmacy, the grooming salon,

the diet clinic, the power plant, the domestic cleaning company, and the art gallery along the way. Award-winning popular science writer John Emsley is our guide as he addresses questions of grooming, health, food, and sex. The trip is for all those of us wanting to know more about the impact of chemical products on our everyday lives. Each chapter begins with a fictional news item from the future speculating on the possible benefits that might develop from further approaches to research, and each chapter ends by addressing an issue of concern related to the topics discussed. These include whether homeopathic medicines really work, date rape drugs, how the toxic chemical acrylamide got into our food, and whether great artists were affected by the pigments they used. With his informal style, linking well-founded chemicals knowledge to fun situations, the author presents the information in a way such that the layperson can easily understand the arguments, weighing up the risks and benefits for each product concerned. Includes a glossary containing all the technical terms used for non-specialists.

Exam boards: WJEC and WJEC Eduqas Level: AS/A-level Subject: Business First teaching: September 2015 First exams: Summer 2016 (AS); Summer 2017 (A-level) Build, reinforce and assess students' knowledge throughout the course. Tailored to the 2015 WJEC and Eduqas specifications and brought to you by the leading A-level Business publisher, this study and revision guide combines clear content coverage with practice questions and sample answers. - Ensure understanding with concise coverage of each topic, broken down into manageable chunks - Help students apply their knowledge to up-to-date examples that cover key content areas such as technology - Consolidate understanding with exam tips and knowledge-check questions - Practise exam-style questions for every question type, with plenty of opportunities to develop the maths and quantitative skills that students need to succeed - Improve students' exam technique and show them how to reach the next grade using sample student answers and commentary for each exam-style question - Use flexibly in class or at home, for knowledge acquisition during the course or focused revision and exam preparation This Student Guide covers the content of: - 2015 WJEC AS/A-level Business specifications regulated by Qualifications Wales - 2015 WJEC Eduqas AS/A-level Business specifications regulated by Ofqual
